If you're looking at FM stations in this book, you might be surprised at what their coverage might be. For as little as \$250, plus a small charge for local terrain information, you can either calculate FCC predicted contours in any direction, or actually view a 3D map of predicted or REAL coverage, instantly on your computer!

For information or a demo disk, write Radiosoft Division, Mountain Tower Ltd., 120 North Riverside Drive, Edgewater, FL 32132 or call anytime: (904) 426-2521.

Accurate. Dependable.

The M Street Directory, as well as the M Street Journal and the M Street databases, are edited by broadcasters, for broadcasters. The staff at M Street has done it all...from engineering to station ownership, small markets to networks. We understand the data we provide. We carefully and meticulously analyze *every* piece of information. In short, *we care*.

Because of this dedication, hundreds of broadcast companies, government agencies, networks, and stations across the country count on us every day for the most accurate, up-to-date radio station information available.

Call us anytime.

Hey! You with the new release! I know...it's the hottest thing since sliced-bread and the stations will play it a hundred times a day once they get it. But you're not sure which stations will accept your not-quite-rock-and-or-country-or-alternative-hard-core-singing-ballad-in-Swahili. Why try? Call us one week before the demos get into your hands and we'll have the labels of the stations who are probably just *Dyin'* to hear your demo. Labels and telemarketing reports made your way...(800) 248-4242.

Dirty Bath Water

You wouldn't use the same bath water day after day to stay clean would you?
 Then why use the same old station information from weeks ago to send out your
 new product. Don't waste your time, postage and product on dead addresses or
 stations. Call us for the latest station information in the form of labels or
 telemarketing reports. (800) 248-4242.

Let us know...

Every day, hundreds of radio stations make changes. Our subscribers and friends have always been great about calling us with updates so that we can, in turn, maintain the accuracy you've come to depend on.

If a station in your market makes a change, or is anticipating one, let us know.

PROSPECT EFFECTIVELY

Effective marketing to radio stations requires accurate data. Companies wrestling with the mammoth task of maintaining an accurate station database can attest to this. Just keeping addresses and phone numbers up-to-date takes hours of verification every week.

At M Street, accurate data is our business. We keep track of over 100 pieces of information on every station in the U.S. and Canada, not just addresses and phone numbers. We spend the time and money to keep the listings up to date--so you don't have to.

Since 1984, we've been providing mailing labels, telemarketing lists, and custom reports to hundreds of companies, large and small. We now provide on-line data services, too, so that your prospect database is as clean as possible, at a price you can afford.

We'll design a plan that best meets your special needs, whether its an occasional mailing list, or an on-going marketing campaign. Call us.

MStreet

The Journal

Each week the M Street Journal tracks over 500 changes. We keep on top of the latest developments in program formats, network affiliations, station trading, duopolies, LMAs, facility modifications, station start-ups, translators, call letters, construction permits, allocations, programs and products, industry news and the latest from Washington (FCC and regulatory related news).

The Directory

You are holding it right now. The M Street Radio Directory lists the addresses, phone numbers, formats, facilities, owners, managers, personnel, and ratings for all stations in the U.S. and Canada. The annual directory summarizes a year's worth of M Street Journal station information.

The Database

M Street's data services are simply the best in the business. We provide custom mailing labels, reports and databases that enable you to reach the multi-billion dollar radio industry. By sorting our data by station format, market size or dozens of other criteria we can create packages that meet your specific needs. Our turnaround is remarkably fast too, custom orders are in your hands within one week.

The Facts

M Street offers one-to-one consulting on a wide variety of industry topics.
Call us when you need to know more about radio.

Radio Data

from M Street

M Street provides data services to many major broadcast companies and agencies both electronically in-house and on hard copy.

Each week we post more than five hundred updates to our radio database. If you need accurate information on addresses, phone numbers, formats, or anything else, then you need to be on-line with M Street.

For more information, call...

PROSPECT EFFECTIVELY

Effective marketing to radio stations requires accurate data. Companies wrestling with the mammoth task of maintaining an accurate station database can attest to this. Just keeping addresses and phone numbers up-to-date takes hours of verification every week.

At M Street, accurate data is our business. We keep track of over 100 pieces of information on *every* station in the U.S. and Canada, not just addresses and phone numbers. We spend the time and money to keep the listings up to date--so you don't have to.

Since 1984, we've been providing mailing labels, telemarketing lists, and custom reports to hundreds of companies, large and small. We now provide on-line data services, too, so that your prospect database is as clean as possible, at a price you can afford.

We'll design a plan that best meets your special needs, whether its an occasional mailing list, or an on-going marketing campaign. Call us.

Radio Data

from M Street. . .

M Street provides data services to many major broadcast companies and agencies both electronically and by hard copy.

Each week we post more than five hundred updates to our radio database. If you're in need of *accurate* information on addresses, phone numbers, formats, or anything else, then you need to be on-line with M Street.

For more information,
call...
