MStreet

The Journal

Each week the M Street Journal tracks over 500 changes. We keep on top of the latest developments in program formats, network affiliations, station trading, duopolies, LMAs, facility modifications, station start-ups, translators, call letters, construction permits, allocations, programs and products, industry news and the latest from Washington (FCC and regulatory related news).

The Directory

You are holding it right now. The M Street Radio Directory lists the addresses, phone numbers, formats, facilities, owners, managers, personnel, and ratings for all stations in the U.S. and Canada. The annual directory summarizes a year's worth of M Street Journal station information.

The Database

M Street's data services are simply the best in the business. We provide custom mailing labels, reports and databases that enable you to reach the multi-billion dollar radio industry. By sorting our data by station format, market size or dozens of other criteria we can create packages that meet your specific needs. Our turnaround is remarkably fast too, custom orders are in your hands within one week.

The Facts

M Street offers one-to-one consulting on a wide variety of industry topics. Call us when you need to know more about radio.

Let us know...

Every day, hundreds of radio stations make changes. Our subscribers and friends have always been great about calling us with updates so that we can, in turn, maintain the accuracy you've come to depend on.

If a station in your market makes a change, or is anticipating one, let us know.

Call us anytime.

Accurate. Dependable.

The M Street Directory, as well as the M Street Journal and the M Street databases, are edited by broadcasters, for broadcasters. The staff at M Street has done it all...from engineering to station ownership, small markets to networks. We understand the data we provide. We carefully and meticulously analyze every piece of information. In short, *we care*.

Because of this dedication, hundreds of broadcast companies, government agencies, networks, and stations across the country count on us every day for the most accurate, up-to-date radio station information available.

Call us anytime. (800) 248-4242 or
(615) 865-1525.

If you're looking at FM stations in this book, you might be surprised at what their coverage might be. For as little as \$250, plus a small charge for local terrain information, you can either calculate FCC predicted contours in any direction, or actually view a 3D map of predicted or REAL coverage, instantly on your computer!

For information or a demo disk, write Radiosoft Division, Mountain Tower Ltd., 120 North Riverside Drive, Edgewater, FL 32132 or call anytime: (904) 426-2521.

Hey! You with the new release! I know...it's the hottest thing since sliced-bread and the stations will play it a hundred times a day once they get it. But you're not sure which stations will accept your not-quite-rock-and-or-country-or-alternative-hard-core-singing-ballad-in-Swahili. Why try? Call us one week before the demos get into your hands and we'll have the labels of the stations who are probably just *Dyin'* to hear your demo. Labels and telemarketing reports made your way...(800) 248-4242.

Radio Data

from M Street. . .

M Street provides data services to many major broadcast companies and agencies both electronically and by hard copy.

Each week we post more than five hundred updates to our radio database. If you're in need of accurate information on addresses, phone numbers, formats, or anything else, then you need to be on-line with M Street.

For more information, call...

Accurate. Dependable.

The M Street Directory, as well as the M Street Journal and the M Street databases, are edited by broadcasters, for broadcasters. The staff at M Street has done it all...from engineering to station ownership, small markets to networks. We understand the data we provide. We carefully and meticulously analyze *every* piece of information. In short, *we care*.

Because of this dedication, hundreds of broadcast companies, government agencies, networks, and stations across the country count on us every day for the most accurate, up-to-date radio station information available.

Call us anytime.

If you're looking at FM stations in this book, you might be surprised at what their coverage might be. For as little as \$250, plus a small charge for local terrain information, you can either calculate FCC predicted contours in any direction, or actually view a 3D map of predicted or REAL coverage, instantly on your computer!

For information or a demo disk, write Radiosoft Division, Mountain Tower Ltd., 120 North Riverside Drive, Edgewater, FL 32132 or call anytime: (904) 426-2521.

Accurate. Dependable.

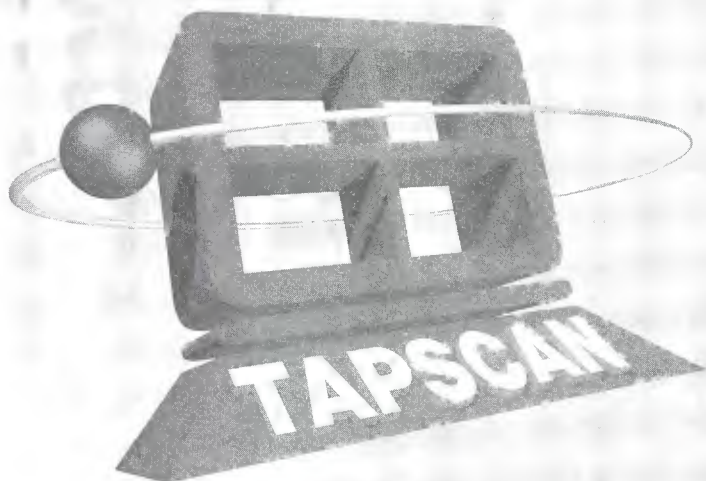

The M Street Directory, as well as the M Street Journal and the M Street databases, are edited by broadcasters, for broadcasters. The staff at M Street has done it all...from engineering to station ownership, small markets to networks. We understand the data we provide. We carefully and meticulously analyze *every* piece of information. In short, *we care*.

Because of this dedication, hundreds of broadcast companies, government agencies, networks, and stations across the country count on us every day for the most accurate, up-to-date radio station information available.

Call us anytime.

radio sales,
increase
revenue
and **pitch**
new business.

Media Targeting 2000
is a landmark study
of consumers and media
that confirms the
selling power of radio.

Three jam-packed pages per category

Because the study contains so many categories (116), it's likely your radio station or ad agency will find one or more of your client's — or potential client's — products or services among them.

For instance, is your client a car dealer? Or, maybe you're prospecting for one? How about a furniture store, a fast-food restaurant, a pet store? There are three full pages of data allotted to each of those categories, as well as to all the others, each under the headings "Consumer Profile" and "Media Habits."

Confirms radio's power to reach consumers

The study allows you to let your clients see their customers as they are, including occupation, income and lifestyles. And most important, how they use radio. Like: During the day, people spend more time with radio than with any other medium; and, it's the number one medium they're exposed to prior to a major purchase.

An Arbitron donation

Jointly produced by Arbitron and the Radio Advertising Bureau (RAB), the study is Arbitron's gift to the radio and ad agency industries. One copy has been sent free to Arbitron subscribers and RAB members. Additional copies are available at \$25 each. To get one, write to:
