

Tracking radio stations in Canada is more difficult than in the United States. Two regulatory agencies, the Canadian Radio Television Commission (CRTC) and the Department of Communication (DOC), rather than one (the FCC) make it hard to follow technical and legal changes. There are multiple stations with the same call letters and low power chains of stations licensed to communities in the remote territories. All of this makes Canada a challenge for us. We do our best, but be patient with us. Errors and omissions are unavoidable.

Unlike our listings for the U.S., we don't try to list every Canadian station. We list all major commercial and CBC as well as campus and significant community stations. In addition, we list larger rebroadcasting facilities, which are always noted with an "r:" in the format field (e.g. Country r:CKAA-570). If the rebroadcaster has an office of its own, we list its contact information. If it does not have an office of its own, only the owner and the originating station's phone number are listed.

We have included personnel listings for primary commercial stations and as many CBC stations as would cooperate. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section in the front of the book.

If you have an update, addition, or correction to our data, we would love to hear from you. You can fax us at (615) 251-8798 or phone us at (615) 251-1525.

The Canadian Market

M Street provides
mailing lists & labels for
Canadian Radio Stations.
