Foreward: Here's to the Fighters.

Remember that old saying your parents taught you, the one about “no one ever said life was easy.” For the thousands of us who call the radio industry home, that pretty much sums up where things stand today. Dark? Not at all. Instead, it's an honor to see hundreds of pages of survivors who continue to embrace the changes in the media marketplace, and in many places thrive. In a majority of the thousands of station listings in these pages is a website address. It wasn't that long ago naysayers wondered if money could be made online. But with each passing day, many are finding it can be done. Managers are finding new ways to thrive as programmers come up with innovative ways to stay relevant in the new media world. The way I see it, the names in this book are an honor of roll of radio's scrappy fighters.

The staff at *Inside Radio* and *The Radio Journal* spends thousands of hours each year following the industry. Research director Cathy Devine leads a team that knows this information is more than just trivia. It gives readers powerful information that saves time, and we hope, helps them make a bit of money as well. Lee Anne Hebert, Christy Macaulay and Deirdre Brousseau track formats, owners and personnel by phone, fax, email and the web. The end product is radio's most thorough industry guide.

Since 1984 we and our predecessors at the *M Street Journal* have been tracking format trends. And you will find them in this edition as well. Back then “Jack” was a hammer and “Fresh” led you to the produce aisle. Today dozens of stations are using the handle to position themselves. The format data continues to be an archeological dig into where radio has been, and where it is heading tomorrow.

Also in this 17th edition of *The Radio Book* you can find –

- Information on more than 14,000 U.S. and Canadian radio stations, including call letters, frequency and contact information. They're listed by state and city of license.
- Listings of stations by market – including both commercial and non-com stations, all listed by frequency.
- Formats, researched by the staff of the *Radio Journal* and *Inside Radio*. We don't merely accept what a station may tell us. We continue to take the time to research playlists and listen to the station's air product to make our determinations.

Our thanks and appreciation goes out to our advertisers and other supporters – including our many radio friends across the country who alert us to the smallest changes through out the year. This book couldn't be published with out their help.

Programming information is followed by M Street's format codes in square brackets. If this station simulcasts from another station, the call letters and frequency of the station that it repeats will be shown here. Please see the section FORMAT CLASSIFICATIONS for a complete explanation of our format classifications and their codes.

If the station is broadcasting in digital, there format will be noted with ^{HD}, ie Country^{HD}. If the station is multicasting then its second (and in some cases third) format will be noted as HD2: Second Format, ie Country / HD2: Oldies. In some cases the stations regular format and a multicast are the same but the programming is different. In those cases we have also added the slogan for the multicast to clarify. For example, Classic Rock / HD2: Classic Rock "Deep Tracks"

The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

AAA	Adult Alternative An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	CWO	Classic Country This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.
ACW	AC & Country Just what it says. A near 50/50 blend of music from the two formats.	CWT	Traditional Country The Traditional Country station aims for a sound that reflects country music before it was made contemporary through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
ADC	Adult Contemporary An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	DNC	Rhythmic-CHR A contemporary hit radio station that focuses on rhythmic music.
ADH	Adult Hits Promoted as "We Play What We Want" with playlists that draw from music from the 70's forward, and commonly branded as "Jack," "Bob," et al.	DNX	Dance Closely related to Rhythmic-CHR but focused more on pure dance club music.
AMR	Americana A blending of the rock music played on the AAA station with country and folk music.	EIT	80's Hits A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
BGS	Black Gospel Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	ETH	Ethnic Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
BIZ	Business News An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	EZY	Easy Listening This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
BLG	Bluegrass A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	FLK	Folk A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.

CCN	Contemporary Christian A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	FRM	Farm A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
CCR	Christian CHR/Rock Rock-driven alternative or harder rock Christian-themed music	GOS	Gospel Music Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
CHR	Contemporary Hit Radio A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	HAC	Hot AC Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
CLA	Classical Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The term "ratings" is used to describe the audience figures published in The Radio Book. However, "audience share" and "audience estimate" are more accurate terms. The published numbers express the size of a station's audience in a theoretical "average-quarter-hour" (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station's AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
