RADIO CEMENTS - SOLVENTS

Actual size 302 bottle.

BEST QUALITY CEMENT FOR—

- Speakers
- Voice Coils
- Tube Bases
- Grid Caps
- Holding Parts
- Sealing
- Adjustments

New type wide mouth bottle with brush attached to cap.

G-C RADIO SERVICE CEMENT

"For Radio and Speaker Repairs"

This high grade cement is specially prepared for Radio and Speaker Work. It is unexcelled for cementing and replacing cones on dynamic speakers, repairing rattling or torn cones, cementing voice coils, spiders, etc. It can also be used for a bakelite or glass cement, in cementing loose tube bases and grid caps to glass, sealing adjustments, cementing parts to chassis, etc. It is dependable — vibration proof — water-proof — and very fast drying. It will not crack or shrink paper cones. This is the original Speaker Cement as used by Manufacturers.

No. 302	2 oz. bottle with long handy brush	List Price, \$.50
No. 304	4 oz. economy bottle	List Price, .90
No. 306	6 oz. economy bottle	List Price, 1.25
No. 308	8 oz. economy bottle	List Price, 1.60
No. 3016	1 pt. economy bottle	List Price, 3.00

2 oz. size — 12 to display carton

G-C RADIO SERVICE SOLVENT

"Cleans and Dissolves"

This solvent is prepared for quickly loosening cement on speaker cones, spiders and voice coils. It can also be used as a good cleaner for volume controls, spring contacts, and for thinning the Cement when necessary.

No. 312	2 oz. bottle	List Price, \$.35
No. 314	4 oz. bottle	List Price, .50
No. 316	6 oz. economy bottle	List Price, .65
No. 318	8 oz. economy bottle	List Price, .75
No. 3116	1 pt. economy bottle	List Price, 1.25

2 oz. size — 12 to display carton

New type solvent will loosen any cement.

G. C. SERVICE CEMENT IS THE SAME TYPE OF CEMENT AS USED BY LEADING SPEAKER MANUFACTURERS.

GENERAL CEMENT MFG. CO., ROCKFORD, ILLINOIS, U. S. A.

Actual Size 342 Tube

Specially Formulated for Radio Work

Cement Is Fast Drying Vibration Proof Moisture Proof and Water Proof

Tubes Are Handy to Carry With You on the Job

SPEAKER REPAIR CEMENT IN TUBES

"The Original Speaker Cement"

Here's our high grade speaker cement in a handy tube for those who prefer to use a tube. Cement can be applied directly from tube on the parts to be cemented without the use of a brush. This tube is very handy to carry with you on every service job, and should be a part of your tool kit. This tube is very satisfactory and handy for other purposes besides speaker repairs. It can be used in the repair of parts and cabinets. It is also a very good general-purpose water-proof glue.

"A tube in your service kit will come in handy"

GC CEMENT MERCHANDISER

"Free to all Jobbers"

This high grade metal display is designed for Jobbers to help in sales of Cement and Solvent. It is neatly constructed and bright cadmium plated with a permanent metal sign attached. It well deserves a permanent place on your counter or shelves.

You can obtain this Merchandiser FREE with an initial purchase of \$25.00 (List price) of Cement and Solvent in assorted sizes. This initial order will give you an ample supply of Cement and Solvent so that you can supply your customer's requirements.

CEMENTS FOR ALL PURPOSES

BK CEMENT

"The Only Practical Cement for Bakelite and Plastics"

This cement is especially made for cementing Bakelite to Bakelite, and Bakelite to other materials. Produces a bond practically as strong as the material itself.

Very useful for repairing broken molded pieces, knobs, panels, and for building up thickness of Bakelite for machining, for inserts in moldings, tubing, for attaching labels to Bakelite, etc. Indispensable to the experimenter.

G-C JOBBER'S COUNTER DISPLAY

Here is a very attractive counter-display complete with mounted displays that really aid in selling and displaying the General Cement line of Radio Chemicals and Accessories. A complete selling display of all the G-C Chemical and Service Aids that aid the Radio Man in making his purchases. To sell the goods you must display them.

This attractive display is Counter High and can be used to replace a section of your present counter. The case is neatly finished with heavy protective glass over the displays. It is dust-proof so the mounted samples on display will not soil. Case is available with fluorescent lighting if desired.

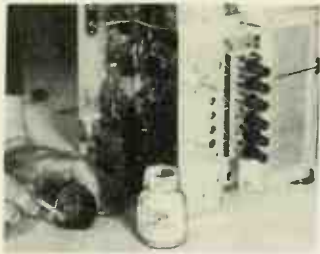

Write the factory or ask our representative for details how to obtain this attractive glass counter display complete with mounted display merchandise!

G-C LUBE-REX

"The Ideal Contact Cleaner for Push Button Sets and Mystery Controls That Prevents Corrosion."

A new type contact cleaner and lubricant that is unexcelled because of its fine features. Lube-Rex, when applied to contacts, cleans them thoroughly, and then provides a film that eliminates the possibility of corrosion. Because of the characteristics of this material, the conductivity between the contacts is actually improved. On noisy push-button contacts, all-wave switches, etc., merely apply a small quantity at the switch points, work the switch a few times and the job is done. Lube-Rex will save you time and money on nearly every job.

No. 1209 2 oz. bottle List Price .50

12 to display carton

RADIO CHASSIS CLEANER

"A Safe Non-explosive Cleaner"

Quickly cleans Radio Chassis, Panels, Test equipment, etc. Removes dirt, grease and grime without injuring the surface. Render an extra service to your customers and clean the radio chassis for them—return the Chassis in a new condition. It is a non-explosive cleaner. Buy it in gallon quantities and save money.

- No. 1238 8 oz. bottle List Price \$.50
- No. 12316 16 oz. bottle List Price .75
- No. 123 1/2 G 1/2 gallon can List Price 1.50
- No. 123-1G gallon can List Price 2.25

GRAFOLINE

"A Radio Contact Lubricant for Metallic Contacts"

GRAFOLINE is absolutely necessary to insure proper and lasting repairs for all air-exposed contacts, switches, and wire-wound volume controls—wherever dust and dirt affect the quiet action of adjustable radio parts or controls. Radio Men need this compound for all-wave switches, wire-wound volume controls to clean noisy tube prongs, etc.

"It Cleans As It Lubricates"

No. 1202 2 oz. bottle List Price \$.35

12 to display carton

RADIO DIAL OIL

For Radio Dials and Fine Mechanisms

A specially developed oil for those fine and complicated radio dial mechanism. Has the qualities of a high grade Gum-free oil and is specially treated with graphite to assure lasting lubrication. The necessary oil to assure a trouble-free dial after you have serviced it.

No. 1245 4 oz. can with spout... List Price \$.25

FINE OIL

A non-gumming quality oil for the shop, office and home.

No. 1250 4 oz. can with spout... List Price \$.20

CONTACT AND CRYSTAL CLEANER

"A Chemically Pure Cleaner"

A special item for those delicate contacts and crystals. Cleans with a minimum of effort and is much easier on the parts to be cleaned. Especially appreciated by Radio Men and "Hams" for whom it was formulated.

List Price

- No. 1272 2 oz. bottle30
- No. 1274 4 oz. bottle50
- No. 1278 8 oz. bottle75
- No. 12716 Pint bottle 1.10

CARBON-X

"For Noisy Carbon Controls"

Here is an item every Service Man has been looking for. A practical method to touch up those worn, and noisy spots on carbon volume controls. You simply apply CARBON-X over the bad spots and the job is done. When you cannot sell a replacement control you can do the job with Carbon-X.

CARBON-X is an electrical conductor.

- No. 1204 1 oz. bottle List Price .40
- No. 1205 2 oz. bottle List Price .60

12 to display carton

Simply apply it to the carbon strip, and the job is done.

CONTACT AND ATTENUATOR SERVICE KIT

"Eliminates noise — Prevents Corrosion"

Ideal Kit for cleaning noisy attenuators, tuners, all-wave switches, variable contacts, etc. Kit consists of special contact cleaner and special corrosion resistant lubricant. With this Kit you can easily clean those noisy controls and 9 times out of 10 without dismantling the chassis or control unit. It will pay to use this kit.

No. 777 Contact and Attenuator Service Kit... List Price \$1.00

COIL DOPES - SERVICE AIDS

POLYSTYRENE Q-DOPE

"Non-Hygroscopic — Nil Loss Factor — Rapid Drying"

There is no finer insulator product available for the Radio Trade. Q-Dope is humidity proof and is not affected by most oils and acids. It is a rapid drying product with a loss factor less than .00026 at 1000 cycles. This is the same material used by manufacturers for precision equipment. Radio Men, Hams, and Experimenters can trust their finest equipment to this product. Use it on coil forms, and on coils to make them impervious to the weather. Also should be used on self-sustaining coils, and to hold R. F. wires in place in the chassis.

MICROPHONE CARBON GRANULES

Finest grade of carefully selected and polished carbon. Is acid treated to remove all traces of ash. Can stand the higher currents without burning. Vial contains sufficient carbon to fill several double button microphones. Three types available:

No. 1281	No. 100 size—highest sensitivity, best quality reproduction, but packs easily	List Price \$.75
No. 1282	No. 80 size—Best for general purpose work. Good quality reproduction and does not easily pack	List Price .75
No. 1283	No. 60 size—Best for hard use—sound trucks, etc. Fair quality reproduction less packing	List Price .75

PLASTIC SOLDER

"You Need No Iron with This Solder"

You can melt Plastic Solder with a match. It has a melting point of around 425°. This low-melting point solder has many new and practical uses. It contains all of the ingredients necessary to make a good non-corrosive joint. Merely apply Plastic Solder to a joint and heat it with a match—it will melt to a good soldered electrical joint. Imagine how handy this would be on the job or when installing airdials. No worry about soldering irons, torches, etc. Is also very useful for soldering heavy work where an iron quickly loses its heat—merely apply Plastic Solder and apply a torch directly to the work. Have this in your Kit and in your shop. You will appreciate its value. Non-corrosive. Goes twice as far as regular solder.

G-C MASTER POINT RECORDING STYLUS

"Long Life Record Cutting Stylus"

A long-life Recording Stylus properly designed to give satisfactory recordings. Each Stylus is properly cut from high grade tool steel and the cutting tip is made from a specially processed alloy which assures long life and perfect cuttings. This needle is not to be confused with the cheaper type cutting needles on the market which often last only for one or two recordings. The G-C Stylus is guaranteed to give several

hours of perfect cutting performance. You save by purchasing the G-C Stylus because it produces better recordings, minimizes record spoilage and they need not be replaced so often. Each needle is mounted on an attractive card—cellophane wrapped. Sell one to each customer and have a satisfied customer.

No. 1433	Recording Stylus	List Price	\$.50
No. 1434	Pkg. of 12 Recording Stylus	List Price	6.00

G-C MASTER POINT PLAYBACK NEEDLES

"2000 Minimum Plays — 5000 Maximum"

A perfectly designed long-life needle for those who want the best in record performance. The point is tipped with a precious metal and is polished to minimize surface noise and save the record. The tip is a true round point that does not have to be specially turned in the pick-up arm for proper reproduction. Each G-C Master Point is guaranteed for a minimum of 2000 plays. When needle is used on automatic equipment or is handled with care, up to 5000 reproductions are possible without replacement. Each needle is mounted on an attractive card and is wrapped in cellophane. Profit by selling G-C needles to those particular customers.

No. 1430	Long Life Playback Needle	List Price	\$.75
No. 1431	Package of 12 Long-Life Needles	List Price	8.50

INSULATIONS - TUBING

RADIO SPAGHETTI

"Flexible Varnished Tubing"

Made in U.S.A.

"Average Dielectric Strength 5,000 Volts"

G-C Spaghetti is especially made for Radio and Television work. It can be used to insulate and protect all bare wires, leads, resistors, etc., from parts. Radio circuits can be marked with the different colors of Spaghetti to provide easy tracing of circuits. Wire connections and splices, can be easily insulated with Spaghetti — simply slip a piece of Spaghetti over the splice, and you have a neater job than if you used tape. G-C Spaghetti is very flexible and guaranteed not to crack after aging.

All sizes available in colors of Black, Brown, Red, Green and Yellow, except 7/16" and 1/2" which are supplied in black and red only.

Special sizes and lengths of Coated Sleeveing available in quantities, write for prices.

SATURATED SLEEVING

"Resistor Size"

A special-sized sleeveing of the slow burning type to fit over carbon resistors to insulate them from the chassis, parts, etc. 3/8" diameter finish. 30-inch length. Black.

No. 556 Sleeveing..... List Price \$.31

ASSORTED SATURATED SLEEVING KIT

"For the Service Man"

Just what the serviceman has been asking for. An assortment of 7 1/2" lengths of saturated sleeveing. You can now have the particular size sleeveing for that particular job. 26 lengths to the kit. Sizes include from No. 17 wire to 3/8" I. D.

No. 550 Assorted Package 26 lengths..... List Price \$.65

NEW! WIRE STRIPPER

"5 in 1 Tool-Stripper, Scraper, Cutter, Screwdriver and Wire Winder"

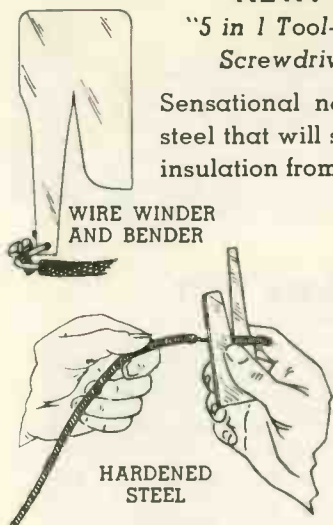

Sensational new tool made of hardened steel that will save much work in stripping insulation from wires. Handy for stripping, cutting and winding wire around screws. A real tool to have on the bench, or to carry in your tool kit. Will save much time.

List Price

No. 757 Wire Stripper \$.25

TAPES - WIRES - GROMMETS

G-C RADIO FRICTION TAPE

" $\frac{3}{8}$ " Narrow Width"

This is a high quality friction tape, specially made for Radio Work, where narrow tape is more practical. It eliminates tearing and waste.

- No. 870 $\frac{3}{8}$ " Radio Friction Tape, approx. 65 ft. roll List Price \$.30
- No. 871 $\frac{3}{4}$ " Friction Tape, $\frac{1}{2}$ " lb. rolls List Price .50

G-C SCOTCH RADIO TAPE

"An All Around Tape"

This is the well known tape for Radio Work that sticks to all surfaces. It can be used for general insulation work, for repairing torn cones, for anchoring coils, wires, condensers and other parts to chassis. It is a thin, flexible and strong tape. Slight pressure seals it.

- No. 875 Scotch Radio Tape, $\frac{1}{2}$ " x 10 yd. rolls List Price \$.50
- No. 876 Scotch Radio Tape, $\frac{1}{2}$ " x 72 yd. rolls List Price 2.25

G-C GENFLEX ADHESIVE TAPE

"Adhesive on One Side Only"

Made especially for Radio and Electrical Industries. This tape is coated with a smooth, flexible, durable Bakelite of exceptionally high resistance and to one side is applied a super-pressure sensitive adhesive. It is waterproof and moisture proof, and eliminates corrosion due to moisture, and weather conditions. It is light tan in color.

- No. 880 Genflex Adhesive Tape, $\frac{1}{2}$ " x 10 yd. rolls List Price \$.50
- No. 881 Genflex Adhesive Tape, $\frac{1}{2}$ " x 60 yd. rolls List Price 2.25

- No. 1048 For $\frac{1}{2}$ " hole, $\frac{3}{8}$ " I.D., Per C List Price 1.40

Special sizes of grommets available in quantities, write for prices.

HANDY POCKET TOOL CASE

"Saves the Pocket and the Tools"

Here's a high grade, two partition case that will fit your hip pocket and hold all the necessary tools you need on the job. This is a very neat case, made of high grade Genuine Leather. It is double sewed for strength, with a snap on the flap. This case is very handy to have as it keeps your tools together, and they're there when you need them. It also saves your pockets from wear and tear.

"Every Service Man Should Have a Case for Tools"

- No. 703 List Price \$1.00

RADIO TOOLS - ACCESSORIES

RADIO CHASSIS GUARDS

"The Answer to the Radio Man's Problem!"

Inexpensive set of guards that will protect the chassis and tubes. When working on set, chassis can be turned in any position without damage to set or tubes. Adjustable to fit all sets. Easily applied.

- No. 709 Chassis Guards complete, pair Net Price \$1.25
- No. 710 Extra Set of 4—7" long hooks Net Price .35

NO-METAL HEX-WRENCH

A hard fibre trimmer wrench with a 1/4" hex broaching through its entire length. Should the ends wear they can easily be cut off and you have a good-as-new wrench again.

- No. 730 6" long List Price, \$.20
- No. 731 8" long List Price, \$.25
- No. 732 12" long List Price, \$.35

INSULATED HEX WRENCH AND SCREW DRIVER SET

A combination of our Hex wrench and insulated screw driver. The screw driver may be extended to any length due to the set screw provided in the Hex wrench.

- No. 735 extends from 7" to 13" List Price, \$.65
- No. 736 extends from 11" to 17" List Price, .85

NO-METAL INSULATED ADJUSTMENT SCREW DRIVER

This adjustment screw driver has no metal ends, is made of hard durable fibre, and both ends are usable. It is indispensable in adjustment and aligning of all wave sets. It comes in black color and 7 inches long. This screw driver will give long service as the ends can be reground when necessary and it will again be like new.

- No. 714 Bone Fibre, 7" long List Price, \$.35

8-PIECE VEST POCKET SOCKET SET

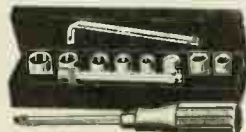

The smallest, though most complete, and practical 8 Piece Socket Wrench set on the market. An outstanding value. Seven sockets, 1/4", 5/16", 11/32", 3/8", 7/16" Hex., 3/8" Round Knurled, 1/4" Square and 4" L Handle with two friction balls, in Baked Enamel Box.

- No. 712 Vest Pocket Set List Price, \$.82

11-PIECE RADIO SOCKET SET

Eleven pieces, 1/4" hexagon drive, put up in convenient crystal enameled steel case, as follows: 6 1/2" Wood Grip Screw Driver Handle, 4" L Handle, 3/4" Extension adapter, 1/4", 5/16", 3/8", 7/16", 1/2" Hex. Sockets, 3/8" Round Knurled Socket and 1/4", and 5/16" Square Sockets.

- No. 713 Radio Socket Set List Price, \$1.90

RADIO CLAMP LAMP

Good light is important on every job, and the Radio Clamp Lamp is just the thing for this purpose. The lamp can be clamped on the Radio Chassis or the Radio Cabinet to provide illumination where it is so necessary. The lamp consists of a double ball swivel clamp, which can be adjusted to any angle, a full parabola shade, and a spring-action plug for positive contact. You will appreciate this lamp at the shop or on your calls.

- No. 708 Lamp \$.99 Net

RUBR-SHIM

"Adhesive on One Side — Sticks to Anything"

Made of Fine Sponge Rubber, this material can be used for eliminating vibrations and rattles on Chassis, Speakers, Vibrators, Condensers, refrigerator doors, etc. It can also be used as an anti-rattle strip or weather strip on your car doors and for sealing Refrigerator doors. It is also a very handy material to use on the rim of Dynamic Speakers before placing speakers into cabinet. It will prevent rattles. Material comes in 3/8" width and thicknesses of 5/32", 5/16" and 7/16".

FABRIC WOVEN DIAL BELTS

GENERAL CEMENT BELTS are approved replacement belts for all sets. They are made of best quality materials and will not stretch. They are specially treated to prevent slipping. Look for the **G-C RED Belt**.

Price Per Belt \$.25

When replacing Dial Belts, be sure you use the best and avoid trouble. G-C Belts are made endless, which is the best type of belt to use on a small drive. They will not break because there is no steel core to snap and break. A belt is only as good as its weakest point. The G-C Endless belt has no joints to bend and break. It is **NON-INDUCTIVE**.

You will avoid Trouble when you use G-C Custom Built Endless belts.

**MADE TO FIT
EASY TO INSTALL
PUT ON TO STAY**

BELT CONVERSION CHARTS

INSTRUCTIONS FOR MEASURING BELTS

To determine size of belt, if the old belt is available, cut the belt and measure for stretched out length. This will be "cut length" of belt.

If old belt is not available or is worn out so that it cannot be properly measured, stretch a thin thread around belt pulleys on set. (Be sure to use thin thread as a thick cord will give an inaccurate reading.) Measure the thread, it will be our "circumference around pulleys." In measuring belts always remember that the circumference around pulleys is not the same as stretched out or cut length. A belt when cut, develops approximately 3/16" extra length when stretched out, depending on thickness of belt.

NEW TYPE *replacement* STATION-CALL LETTERS

● ARRANGED BY STATE GROUPS

● ALL MADE UP

TO BE USED WHEN CHANGING STATIONS OR REPLACING WORN OR LOST CALL LETTER TABS.

There is no need to buy tabs that you will never use.

NO WASTE EASY TO HANDLE
COMPLETE - READY TO USE

Four styles will take care of every type set and every shape tab — simply cut out shape desired and you have your tab ready to insert. Handy guide is included for cutting shapes. Order tab sheets in State groups and style or size wanted. Each package contains 6 tabs for each station in a group. (On special order, where the above groupings do not serve, call tabs numbered below can be assorted—six tab sheets to a package—to suit your requirements.)

SPEAKER SHIMS - SERVICE AIDS

G-C SWEDISH STEEL SPEAKER SHIMS

"A Permanent Tool that Makes Speaker Repairs Simple"

Speaker shims are necessary to every Service Man to enable him to properly adjust any type of a dynamic speaker. With our Steel shims adjustments on speakers can be made in a few minutes, and satisfactory results are assured, where without shims much more time is required. These shims are made of the best grade of Swedish Steel, they are really very flexible, and can be honestly called a permanent tool. Four sizes are furnished in a handy gold lettered partitioned snap case, .004, .006, .008, and .010 in. With these shims you get the thinnest shims and by a combination of sizes you can have as thick as .0275 in shims. Instructions included with kit.

No. 701 16 Shims color coded in a kit.....List Price \$.65
12 to a display card

G-C FIBRELOID SPEAKER SHIMS

"A Very Handy Tool for Centering Voice Coils"

This kit of Speaker Shims is made of specially tough and flexible Fibreloid (Celluloid) and is preferred for adjustments on certain types of speakers. Our kit consists of five different sizes that will take care of all speakers: .005, .0075, .010, .0125 and .015 inches. All sizes are colored and the different gauges are indicated on the attractive gold lettered snap case supplied with this kit.

No. 702 Five Sizes—20 Shims to this kit.....List Price \$.60
12 to a display card

CHASSIS JACKS

"Convenient Tool to Keep on the Bench"

Another practical tool for the Radio Bench. Have you ever tried to prop up a set with boxes, old parts, batteries, etc. If you have — then you will appreciate a pair of these CHASSIS JACKS. They are adjustable to fit any set, or any conditions. They are made of metal, and much superior to any type of wood props. They take very little space, and are very convenient. Service men should have at least two pairs of jacks on the bench. They will more than pay for themselves in saving of time. After you once try these jacks they will become a part of your regular equipment.

No. 711 Chassis Jacks. Price per pair \$.79 Net

RADIO BENCH LAMP

"Saves Your Eyes and Your Light Bill"

Here is the first practical Bench Lamp made for Radio Work. It has a flexible shaft so that it can be adjusted to any position, and it is made high enough so that it can be placed over the chassis and there is sufficient room to work with your iron, etc. It has a SPECIAL COMPARTMENT BASE, for knobs, screws, parts, etc. When working on a set you can place the screws and knobs in this base and they will not get lost. This is a special feature in itself. This light will also save on your light bill and pay for itself in a short time. A 25 watt lamp will give you more light when directly focused on the chassis than several 100 watt lamps over head. It will also be easy on your eyes and you can focus the light on the Chassis only, and eliminate glare.

No. 707 Radio Bench Lamp, Price..... \$2.45 Net

G-C RADIO REPAIR LITE

"With New Celluloid Shield over Bulb"

*Plenty of Light Where You Want It!
Fountain Pen Size — AC-DC Operation.
Uses No Batteries.*

The Radio Repair Lite saves time and trouble for the Radio Service Man, Refrigerator Expert, and the Auto Radio Installer. It illuminates dark corners, interiors of Radio Cabinets, dash board mountings, and comes in handy in any hard to see place. No more fumbling in the dark, getting shocks, etc. This lite is also valuable as a current and fuse tester. Just plug into the socket and see if the current is coming through. IN COLORING DIAL LITES YOU WILL FIND THIS LITE INDISPENSABLE. SIMPLY PLUG THE LITE IN, SCREW THE DIAL BULB INTO THE LITE, AND DIP INTO THE DIAL LITE COLORING. The heat will dry the coloring almost instantly. This lite should be a part of your tool kit. You will never regret that you bought one.

No. 705 For 110 volt AC or DC.List Price, \$1.25

G-C SERVICE BENCH STOOLS

"Comfortable Chairs for Radio Repairs"

A comfortable chair or stool has a definite place in the service shop. Every Radio Bench should be equipped with a good stool, for comfortable seating. G-C Stools are made for Radio Work, constructed of strong angle steel and incorporate original method of double riveting every structural connection, hence G-C Stools will outlast any other stool. These Stools have WOOD SEATS of 13½" diameter. The No. 403 series have a WOOD BACK REST for greater comfort.

No. 401 Steel Stool—wood seat 24" high \$3.60 Net
No. 401-A Steel Stool—wood seat 26" high 4.60 Net
No. 401-C Steel Stool—wood seat 30" high 4.60 Net
No. 403 Chair same as 401 but with back rest 24" high 5.60 Net
No. 403-A Chair same as 401 but with back rest 26" high 6.60 Net
No. 403-C Chair same as 401 but with back rest 30" high 6.60 Net
(30" stools have turned out foot rest)

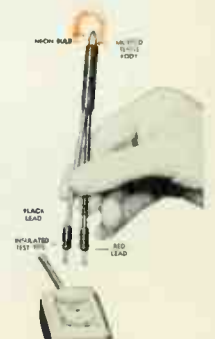

G-C NE-O-LITE

"New Improved Type"

Here is a handy, inexpensive Ne-O-Lite that every Radio Man should have. It is very handy in testing A.C. Lines, polarity of A.C. or D.C., testing for blown fuses, tracing Ground Line in A.C. circuits, as a Radio Frequency Indicator, Spark Plug and Cable Tester and for many other uses. It is very handy for experimenting. Can be used on voltages of 60 volts A.C. to 500 volts A.C. or D.C.

No. 706 Ne-O-Lite.....List Price \$1.00

Jobber's Display, 20 Ne-O-Lites to carton
