ASCAP

By
STANLEY ADAMS
President

THE year 1964 will mark the 50th anniversary of the American Society of Composers, Authors and Publishers, the performing-right organization which was founded in 1914 by the late Victor Herbert and a group of his colleagues. The Society functions as a clearing house for the performing rights of the creators of music and their publishers.

The performing right is granted by the United States Government under the Federal Copyright Law. This right entitles composers, authors and publishers of musical compositions to payment for their works whenever they are performed publicly for profit. Through ASCAP, any user of music may obtain from a single source the right to perform the works of more than 7,000 writers and 2,000 publishers who are members of the Society, at a minimum expense and without the necessity of negotiating for each separate use.

ASCAP's extensive repertory covers all phases of the American music lit-

erature. In addition to the best-loved popular and show music, it includes the finest country and western music, church and sacred selections, and a catalog of much of our contemporary classical music—symphonic, chamber and choral works and recital selections.

Radio and television broadcasters have access to this entire repertory when they obtain an ASCAP license. This license guarantees them a clearance on all ASCAP composers' and publishers' music; at the same time it provides for the writers a sustained livelihood from the works of their own creation, and a means of enabling publishers to invest in the exploitation of new works.

The Society's Board of Directors consists of 12 writer and 12 publisher members elected biennially by the writer and publisher memberships, respectively. Its officers are elected annually. It maintains 23 branch offices in major cities throughout the country. Headquarters are located at 575 Madison Avenue, New York, N. Y. 10022.

Broadcast Music, Inc.

THE United States copyright law provides that the authors and publishers of music have the right to be compensated when their music is performed publicly for profit. This right also exists under the laws of every major country of the world.

Broadcast Music, Inc. — BMI — was created in 1940. Its sole purpose is to serve as an organization which would acquire and license performing rights and, in so doing, bring about healthy and necessary competition. BMI was organized by a group of broadcasters who neither collect dividends nor receive special rates from it.

BMI acquires performing rights from independent writers and publishers, collects license fees from the organizations which perform music for profit and, in turn, makes payment to the creators of the music. It licenses the music of composers and publishers who are resident in every one of the United States. Through agreements with performing rights societies in other countries, it brings foreign music to America and makes American music available throughout the world.

BMI does not publish or record music. The rights to do so belong exclusively to the composers and publishers.

Except for operating expenses and a reasonable reserve, BMI pays all of

the money it collects to the composers and publishers whose music is performed. The organization determines payment to composers and publishers on the basis of the performance of music on thousands of independent stations as well as on country-wide networks. It does so because the performance of music on radio and television represents the truest gauge of public demand for music of all types and the broadest use of music to meet that demand.

The past year marked BMI's 23rd year of service. It was a year that saw the number of our affiliated authors, composers and publishers and the compositions we license at an all-time high.

For the future, BMI looks forward to serving many thousands more of the creators of music and many more of the businesses which use music as part of their service to the public. It will continue to deal justly and fairly with those enterprises which enable that music to be heard. It will continue to maintain its open-door policy for the benefit of all persons who wish to gain the public ear and be rewarded if their works win favor. It will continue to serve the public by making music from every part of our country and from all quarters of the world available for public performance.

SESAC, Inc.

By

PAUL HEINECKE

President

THIS year SESAC marks its 33rd anniversary of service to the music user, and we find that each of these 33 years has been an eventful one. The music industry has kept pace with the ever-changing needs of an era in which every day has brought startling revelations about new ways of life. Our music needs have been altered accordingly. New rhythms have arisen to match the heartbeats of this pulsating world of music lovers. We saw the Charleston, the Big Apple, the Turkey Trot, the Waltz, the Fox Trot, the Rhumba, the Tango and dozens of others become the craze and then most of them slowly fade from the scene. Today there is the Twist, the Mashed Potato, the Bossa Nova — and who knows what tomorrow will bring?

Of one thing we can be certain: Tomorrow's musical tastes, like those of the past, will be predominantly influenced by the radio industry, probably the leading source of music exposure in the world today. Radio, more than any other medium, will continue to be the most influential factor in establishing music trends and developing individual and collective music preferences in almost every corner of the globe.

Because of this important influence the broadcasting industry has found that creativity is essential to survival. The days of the radio "juke box" station operation are rapidly disappearing, and today more than ever before the creative station is gaining prominence and wider audience acceptance.

SESAC copyrighted selections are found in abundance on countless commercial recordings by leading artists on all the major record labels. In addition, SESAC RECORDINGS LPs are currently in use in close to 50% of all the stations in the United States alone.

Each SESAC RECORDINGS LP contains music from the vast and widely diversified SESAC copyrighted repertory. Our gratis distribution of "repertory recordings" to radio and television facilities throughout the world was greatly increased during 1963. To date, nearly a million of these 45 RPM EPs have been distributed and we shall further expand the service during 1964. Our publisher affiliates, too, have kept pace with the month-to-month trends and the increasingly discriminating tastes of their users.

During 1963, SESAC also was instrumental in the first recording of a major American symphonic work, William Dawson's "Negro Folk Symphony," which was recorded by Leopold Stokowski and the American Symphony Orchestra and released by Decca. At the close of the year, the New York Philharmonic, under George Szell, gave the first U. S. performance of Baird's "Four Essays," an important Polish contemporary work under our representation.

SESAC also met the high-cost creative jingle problem of the broadcaster with the "DRUMMERS," a low-cost service created and produced by people with radio know-how and designed to provide even the smallest broadcasting facility with material that can easily be tailored and customized to the individual station's needs.

We are happy to do our part to assist broadcasters in their never-ending search for creative programming that is different and, above all, appealing. We salute the broadcasting industry for its giant strides in creative programming during 1963, and feel certain that this is but a small beginning for an even greater tomorrow.

ASCAP'S 50th Anniversary

The Music of America 1914-1964

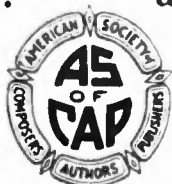

1964 marks the 50th Anniversary of the founding of the American Society of Composers, Authors and Publishers.

Organized in 1914 by Victor Herbert and his colleagues, ASCAP has always been an unincorporated, non-profit, membership association which today numbers more than 9,000 outstanding men and women who write and publish our nation's musical works.

Members of ASCAP represent every phase of musical literature:

the popular songs of today, the standards of yesterday, the Broadway and motion picture hits, the finest symphonic, concert and religious works, jazz, folk, country and band music.

The Society serves the American public by encouraging musically creative talent. It also serves the public by making it possible for every user of copyrighted music to obtain, quickly and reasonably, the right to perform that music publicly for profit through a single ASCAP license.

COUNTRY MUSIC NETWORK

*America's Original and
Station*

The JOHNNY CASH Show

America's most consistent record seller. The most moving personality of our day, in a 5 minute program that literally "comes to life" on anyone's radio. First time ever offered.

The ARTHUR SMITH Show

The South's No. 1 Salesman and his cast provide a sparkling program with Town and Country appeal. Years with CBS — Food Products Specialists — Introduced Procter & Gamble's New Blue Cheer.

FLATT and SCRUGGS

Lester Flatt and Earl Scruggs have been rightly acclaimed leaders in the Country and Western music field. They are heard every week on The Beverly Hillbillies TV program.
