Complete listing of TV stations from coast to coast

## INTRODUCTION

For many years radio listeners and television viewers have asked BROADCASTING editors for a handy list of U.S. and Canadian stations by call letters, frequency and channel number. This information and more is available in the BROADCASTING  CABLECASTING YEARBOOK—information that professional broadcasters have found invaluable for the past half century.

Now the fourth edition of ACROSS THE DIAL and AROUND THE CHANNELS provides a convenient and up-to-date list of radio and television stations in North America.

This dual-purpose publication has been specifically designed to fit into your automobile glove compartment and your pocket or purse.

Here it is. Happy listening. Pleasant viewing.

The Editors of BROADCASTING.
