The world-wide use of Radio sets for home entertainment has made many opportunities for you to have a spare time or full time Radio service business of your own. The day you enroll I start sending you extra Money Job Sheets which quickly show you how to do Radio repair jobs common in most every neighborhood. Many Nat. I. men make \$5, \$10, \$15 a week extra in spare time while learning. I show you how to install and service all types of receiving sets, give you Radio equipment and instructions for conducting experiments for building circuits and testing equipment, and for making tests that will give you broad, practical Radio experience. Clip the coupon below and get my free 64-page book, "Rich Rewards in Radio." It gives you a full story of the success of Nat. I. students and graduates and tells how to start a spare time or full time Radio service business on money made in spare time while learning.

Many N. R. I. Men Make
\$5, \$10, \$15 a Week Extra
in Spare Time While Learning

Many of the twenty million sets now in use are less than 50% efficient. I will show you how to ease in on this condition. I will show you the plans and ideas that have enabled many of these to make \$10, \$15 a week in spare time while learning. George W. Bremer, 248 Water St., Ligonier, Ind., made over \$500 from the start of the Course to its completion.

Get Ready Now for a Radio Business of Your Own and for Jobs Like These

Broadcasting stations use engineers, operators, station managers, and pay up to \$5,000 a year. Radio manufacturers use testers, inspectors, foremen, engineers, servicemen and buyers, and pay up to \$6,000 a year. Radio dealers and jobbers employ hundreds of servicemen, salesmen,

managers, and pay up to \$75 a week. Television promises many good jobs soon. Television is leaving the laboratory in an impressive way. One million dollars is being spent on two stations. Receiving sets are being designed and built. New opportunities—many of them—are right ahead. My book tells you of the opportunities in these fields, such as: Station Radio, police Radio, short wave Radio, automobile Radio and other new branches of this fast growing industry. Get it.

I Train You at Home in Your Spare Time

Hold your job until you're ready for another. Give me only part of your spare time. You do not need a high school or college education. Hundreds with only a common school education have won blazer pay through N.R.I. Graduate J. A. Vaughn jumped from \$35 to \$100 a week. Fred Duburque doubled his earnings in one year. The National Radio Institute is the Pioneer and World's Largest organization devoted exclusively to training men by Home Study for good jobs in the Radio industry.

You Must Be Satisfied

I will give you an agreement to refund every penny of your money if you are not satisfied with my Lesson and Instruction Service until you complete my Training. And I'll not only give you thorough training in Radio principles, practical experience in building and servicing sets, but also advanced special training in the type of Radio work you choose.
