MEN!

Get Your Copy of My *New* Book

It shows you

How to get a good job in the Radio Industry

Hundreds of Jobs paying \$50, \$60, \$75, \$100 a week are opening in Radio every year.

I showed these men how to get *Big Pay* jobs like these

Seldom under \$100 a Week

"My earnings in Radio are many times bigger than I ever expected they would be when I enrolled. In November I made \$577, December \$645, January \$465. My earnings seldom fall under \$100 a week.

E. E. Winborne,
1267 W. 48th St., Norfolk, Va.

\$3000 a Year in Own Business

"I cannot give N. R. I. too much credit for what I have been able to do in Radio. I can safely say that I averaged \$3000 a year for the past three years. Any man who really wants to advance cannot go wrong in Radio. There is certainly a lack of trained men."

Fred A. Nichols,
P. O. Box 207, Eaton, Colo.

Television and Talking Movies Included

My course is up-to-date with Radio's latest uses and improvements. It includes Radio's application to Talking Movies, Television and home Television experiments, Wired Radio, Radio's use in Aviation, in addition to fitting you for many other lines.

J. E. SMITH, Pres
NATIONAL RADIO INSTITUTE

Jobs every year. My book shows you where these jobs are, what they pay, how I can train you at home in your spare time to be a Radio Expert.

Many Earn \$50 to \$100 a Week

Broadcasting stations pay \$1,800 to \$5,000 a year. Manufacturers continually need trained men, for jobs paying up to \$15,000 a year. Shipping companies use hundreds of operators. Dealers and jobbers are always on the lookout for men, and pay \$30 to \$100 a week. Talking Movies pay as much as \$75 to \$200 a week to men with Radio training. There are openings almost everywhere to have a spare time or full time Radio business of your own—to be your own boss. Radio offers many other opportunities. My book tells you about them.

Now 8 Outfits give you Extensive Practical Radio Experience

With me you not only get the theory of Radio—you also get practical Radio experience while learning. You can build over 100 circuits—build and experiment with the circuits with the Laboratory Outfits I give you. When you finish my course you won't need to take "any old job" just to get experience—you will be trained and experienced ready to take your place alongside men who have been in the field for years.

I Will Train You at Home in your Spare Time

Hold your job until you are ready for another. No need to leave home. All I ask is part of your spare time. I have doubled and tripled the salaries of hundreds through my practical home-study training. You don't have to be a high school or college graduate. My course is written in easy, simple terms that most anyone can understand.

Money Back If Not Satisfied

I will agree in writing to refund every penny of your tuition if you are not satisfied with my Lesson Texts and Instruction Service when you have finished my course.

Find out what Radio offers you—Get My Book

This book gives the facts on Radio's opportunities and the many features and services of N.R.I. training. It gives 100 letters from students who have proved that my methods are successful. Get your copy today. There is no obligation. J. E. Smith, President National Radio Institute, Dept. IAV, Washington, D. C.

Back view of 5-tube A. C. screen grid tuned Radio frequency set—only one of many circuits you can build with the parts I give without extra charge.
