Foreign short-wave stations change their frequencies at various hours of the day and night to take advantage of elements affecting reception. Time, therefore, is a most important factor for your successful tuning. Regardless of the hour at the sending station, this schedule, converts it to any receiving time in the U. S. If you live in the Central Time Zone, rule out the first, second, fourth and fifth rows of hour figures in the heading below and number the corresponding vertical lines on the next page: "11, 12, 1, 2 etc." You can quickly see what points on your dial carry programs at any time you tune by the symbols, representing a half-hour, pointed up for A.M. down for P.M. and identify those heard by chance. The North American stations, listed at the extreme right, operate almost continuously so no time for them is shown.

PHILCO brings you recorded music on a *Beam of Light!*

A New Kind of Radio-Phonograph

NO NEEDLES TO CHANGE! RECORDS LAST 10 TIMES LONGER!
YOU ENJOY NEW PURITY OF TONE!

Philco brings you the amazing "Beam of Light" principle of record reproduction . . . an original Philco invention that adds new thrills, new and greater delights to the enjoyment of your favorite records. And Philco also brings you the TILT-FRONT CABINET. No lid to lift . . . simply tilt grille forward, place your records and tilt it back again.

... and PHILCO brings you Amazing Radio Values!

Never before has Philco offered you so much for your radio dollar. In the 1941 Philco Radios exclusive inventions have reduced noise and interference by 5 to 1 . . . European short-wave reception is 5 times stronger, clearer and easier to tune. Choose from a wide variety of beautiful consoles and table models . . . at prices to fit every budget.

Come in . . . see and hear the new
Philco Radios, Radio-Phonographs,
Compacts and Portables Now!
