Book News: The latest (1992) edition of **Latin American Radio World** has been announced by the publishers, and **SPEEDX** is acquiring copies. The prices are the same as last year: \$6.00 plus \$.75 shipping in the USA, \$1.00 in Canada. If you are interested, **don't send any money now**; let me know that you want one, and I'll inform you as soon as they come in.

The SPEEDX Utility Station List is being rebuilt from scratch. Paul tells me that his computer got fried as he was in the final stages of editing, and all the information got fried along with it. More news when we have it.

The **Basic Information Pamphlet** series is being totally redone. It is just about finished, and we should have an announcement next month or the month after. We wanted to introduce these as a complete series, not one at a time; we're only waiting on **Basic QSLing** (which is being revised by Ed Cichorek from Cedric Marshall's original) and we'll be all set.

Also, watch for Richard Hankison's **African DX**, one of our most ambitious projects yet at over 100 pages.

SPEEDX Great Circle T-Shirt

OCTOBER 1992

GREETINGS FROM WHEELING

Here it is, Saturday evening after a successful afternoon on the football field. That is, at least for the "Warrior" Marching Band, if not for the team. Today we performed our tribute to Queen, and I don't care what Eddie Janusz says, I still got a kick out of hearing my sixty-piece group play "Bohemian Rhapsody" for the home crowd! A good time was had by all . . .

But, back to the world of DXing—a

tremendous thank you to the many people that wrote in with information and contest entries. In fact, it was a real international month, hearing from Ireland, Switzerland, Finland and Nigeria (as well as receiving a QSL from Iceland!) My mailbox has never been happier, so keep those cards and letters coming!

I've got a wealth of contributions, so here we go . . .

NEWS FROM RADIO BEIJING

from The Messenger, 9/10, '92

As reported in last month's Shortwave to Go! column, Radio Beijing will change its name to China Radio International (CRI) on January 1, 1993. They will use both names for the remainder of this year. This will make the English name the same as it is in Chinese, thus eliminating the confusion with the local Beijing Radio. (This is the station's second name change in the last fifteen years; it was formerly Radio Peking.)

In addition, Radio Beijing is celebrating its 45th anniversary. On September 11, 1947, the New China Broadcasting Station, North Shaanxi began broadcasting in English. It moved to Beijing in 1949 and has been there

ever since. They are currently on the air for 146 hours every day in 43 languages and dialects.

The latest copy of The Messenger is full of interesting information about the early days of RB including several reminiscences by retired staff members. There are also features on upcoming programming as well as articles on Chinese life and culture. It's a very nice publication that does not seem as preachy or propagandist as past efforts. Write for yours today! You might also want to ask for info about their officially sponsored trip to China in January 1993—it costs a mere \$1775(!) and includes station tour as part of the package.

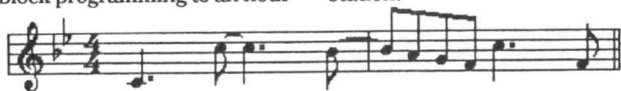

KNLS HAS NEW INTERVAL SIGNAL

from The Good New Letter, Fall '92

KNLS has adopted a new interval signal that will be used starting on September 27. It was written and recorded by musician and song writer Jeff Brock. It is as yet untitled, and listeners are invited to write in with suggestions. This tune replaces the theme from Chariots of Fire.

In other news, the Russian service has changed from block programming to an hour-

long magazine format with music, features, listener mail and inspirational messages. A series of reports on the presidential election will be aired in the Chinese service. Interviews with Station Manager Kevin Chambers about the history of KNLS and life and work in Alaska have been airing in the English service. Tapes of this series are available from the station.

DON'T FORGET RADIO ST. HELENA DAY ON FRIDAY, OCTOBER 3 FROM 2000-2100 AND 2220-2300 UTC ON 11092 KHZ SSB. IT WILL BE AT LEAST ANOTHER YEAR BEFORE YOU GET ANOTHER CHANCE TO CATCH THIS STATION!

LETTER FROM PAPUA NEW GUINEA

from Kevin Murray

Kevin writes about an experience similar to the one I had with a personal reply from Radio Yerevan. He had been listening to the provincial stations from PNG to hear their tribal music and to learn more about their culture and history. I'll let him describe the rest:

"On August 4, I monitored a speech in English from a person I suspected to be the Papua New Guinea Prime Minister on Radio Western Highlands. For a few critical minutes, reception improved and I heard an impassioned plea for national unity. Some of the quotes I wrote down tell it all—"One nation, Papua New Guinea. . . Many challenges lie ahead, bringing peace to our country. . . PNG is a nation of many tribal and ethnic groups."

"When I wrote the station to request a QSL and ask if I heard their Prime Minister speak, I received a long, personal letter from the station technician, Mr. Esau Okole. Mr. Okole proudly told me I had heard Prime Minister Paias Wingti speaking. Further, Radio Western Highlands' complete coverage of the 35 minute speech was only natural since he was the

elected representative of the Western Highlands province and had just won the election in June against the incumbent.

"Further, Mr. Okole described his station as a 'small set up with the main purpose to inform the rural population in the remote villages through radio of government policies, education, health, agricultural awareness programs and cultures of Western Highlands people.' I suspect most stations we hear in the tropical bands would describe their mission in similar terms.

"After describing his family, his 'home province' and his work with NBC, Mr. Okole closed with 'I am enclosing a post card of a typical highlander dressed for singing in cultural finery. I hope you like it and thank you for the nice report and souvenir. Our best wishes to you and your family. With greetings and regards from Papua New Guinea, Esau Okole.' To me, this is what is so special about DXing—a personal connection with individuals of other cultures made possible by radio. Of course, I will write him back and thank him!"

Thanks, Kevin, for a great story!

EDXC 1992 - TAMPERE, FINLAND

from R.C. Watts

Back in the spring I wrote about the then upcoming European DX Council convention to be held in Tampere, Finland. R.C. Watts asked me for more information, and, lucky devil, he actually was able to attend! Here's his report:

"Am here at the EDXC-92 meeting, August 21-24 in the Hotel Rosendahl with 150-200 other DXers, SWLs and broadcasters. BBC, R. Finland, Deutsche Welle, R. Korea, R. Sweden, R. Nederland and R. Moscow are here, along with first timers R. Talinn, R. Budapest, R. Romania and R. Vilnius/Centras. In addition to radio workshops, there was a

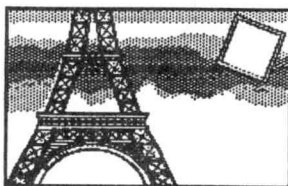

reception at City Hall for drinks/snacks, the banquet tonight and a tour of the city tomorrow. Something different is Radioworld, a 200 watt event station on 103.8 MHz, operating 24 hours a day during EDXC-92. We'll see the studio tomorrow. There are also DX video tapes run on the hotel TV system.

"Have heard a few stations that would otherwise have been difficult. Talinn on 5.925 kHz is SIO 555 as I write this. Will mail some reports, naturally. This was a rather expensive undertaking, though. Should I get some QSLs they'll probably have cost \$500-1000 apiece, but if you can bring yourself to sell the kids

and mortgage your spouse, go to one of these at the very least. The Canary Islands for EDXC-93 (5/28-31) is a hot ticket!"

MORE ON "SMART RADIOS"

from the Washington Post, 8/31/92, via Gerald Hart

Last month we had an article about the radio broadcast data system (RBDS) that discussed the possibility of tuning a radio by choosing the format instead of frequency. Each station would send out a signal with their call sign and format that could be deciphered by a "smart radio." This would help the listener find a heavy metal or all-news station in an unfamiliar city. This month Gerald Hart sent an article that describes many other uses for this info system.

Besides displaying station information, song titles could pop up on the screen with the performer and date of release. This would be great for those hour-long music marathons. The score in a ball game could be broadcast continually so you wouldn't have to wait for

Harry Caray to remember to tell you. Advertising space could be sold on your radio's panel, or it could be used as a paging system. When travelling, a fading station would be automatically changed to a stronger one in the same network. The radio could even be set up to turn on automatically with emergency weather and traffic reports.

Early next year we will see RBDS-compatible receivers from Denon, Sony, Panasonic, Delco and 34 others. 30 stations nationwide have already tested the technology. "It's going to work technically," says Terry Denbrook, director of engineering at Seattle's KUOW-FM. "Whether it works from a marketing perspective is an open question. It all depends on what [we] do with it."

THIS IS ONLY A TEST

Paraphrased from New York Times, 8/13/92, via William Westenhaber

Another icon of the cold war is being transformed. The Emergency Broadcast System, built during the 1950s to provide information to civilians over radio and television in case of a war, is on the verge of being overhauled by the FCC to make it useful in a time when people are more worried about chemical spills than nuclear attacks.

Though it has never been used for its original purpose, in recent years the system has been used increasingly by state and local governments to warn people about blizzards, tornadoes and other disturbances. The police in Los Angeles used the system earlier this year during the riots.

Now FCC chairman Alfred C. Sikes is proposing an updating of the system to make it more automated and flexible. Government agencies will be able to transmit information

on dozens of topics, while radio and television stations will be able to select and automatically broadcast bulletins that are relevant to people in their audiences. Cable TV will also be included as part of the new plan.

The biggest change for broadcasters would be that signals would be broadcast automatically without the need for human intervention. A Kansas station could program its receiver to be activated by tornado warnings that would go on the air immediately. The most obvious difference for the listener, however, would be that the now weekly tests would be done on a monthly basis on the air and silently at other times.

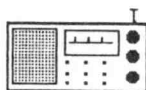

So, I guess there's a chance of the phrase "If this had been an actual emergency . . ." might go the way of "Duck and cover!" Another weird part of my childhood disappearing . . .

NEW FROM GROVE, via Bob Thunberg

Grove Enterprises is promoting two new books. The first, Propagation Programs—A Review of Forecasting Software by Jacques d'Avignon is a review of programs such as ASAPS, Bandid, Mapper and others. d'Avignon is the propagation editor for Monitoring Times. The 47-page book costs \$9.95.

The 1993 Guide to Shortwave Programs is a follow-up to the acclaimed 1992 guide. It

contains a listing of 20,000 English language programs from 100 stations and is divided into summer and winter sections for easy reference. A separate section on DX programs is included along with a listing of most-used frequencies and an article by monitoring expert Jim Frimmel. Grove promises that the book will be updated right up to press time. It is available for \$15.95 from Grove Enterprises, P.O. Box 98, Brasstown, NC 28902-0098 or by phone at (704) 837-9200.

EUROPEAN DX CONTESTS

via Steven Willers

Steven sent me entry blanks from two fall contests held by German radio clubs. The first one will be over by the time you get this, but it is sponsored by the Rhein-Main Radio Club. The object is to log 20 international broadcasters from a list they provide as well as five DW relays and the three Baltic republics. There is also a page of trivia questions. If you would like to enter next year's contest, write to the RMRC-Contest Office, Eberhard A H L, P.O. Box 32 01 39, D-6500 Mainz 32, Germany.

The East and West Radio Club also has a contest that you can still get in on. The dates are 11/6 to 11/22, and the rules are similar except that the focus is on stations in the Middle East and Eastern Europe. These run the gamut from powerhouses such as Damascus and Kuwait to the seldom heard Turkish Police and Meteorological stations. Obviously, European listeners will have a leg up on those of us in the heartland of the US, but everyone who enters will get a certificate. In addition, prizes will be awarded not only to the top three point totals but also by random drawing from among all the contestants.

The entrance fee is 6 DM in cash/German stamps or 4 IRC. Write them at the EAWRC-Contest, c/o Adolf Schwegeler, Bahnhofstr. 56, W-5042 Erfstadt 1, Germany. Or, send me a SASE and I'll xerox the entry blank and send it your way.

Thanks for the info, Steve, as well as the nice postcard and great radio stickers! (Why don't we have FM stickers half as cool as these?)

DXPERIENCE CONTEST

The September contest is still in effect since my August deadline was later in the month and this time it's earlier. Anyway, to clear up some questions on the August language quiz, Chichewa is not a misspelling of Quechua; it is a language native to Malawi in southeastern Africa.

While Rich Hankinson won that contest, I did receive an entry from someone who had a true disadvantage in the mailing time, SPEEDXer Patrick Leader of Cork, Ireland. Therefore, as the entry from the furthest distance (over 3600 miles!), I will send a package of goodies to him as well.

For the rest of you, get your responses in to September's trivia quiz (reprinted below), and we'll have a new contest in November!

1. In 1978, who was the host of HCJB's DX Partyline?
2. What international broadcaster had a relay station in the Canary Islands?
3. What present-day African republic was known as an empire?
4. What North American broadcaster (no longer on SW) used as an ID "Kallaallit-Nunaata Radioa."
5. Besides the VOA/AFRTS/UN Radio, what three independent stations were broadcasting from the US?
6. What Caribbean broadcaster was audible in NAM in the local afternoon on 15105 kHz?

THE SPEEDX CLASSIFIED ADS

WANTED: Letter exchange with SPEEDX members to swap DX info, station addresses, stamps and stickers. I am a student and a member of AfrIDX. Contact Mr. David Eka E., Jr., P.O. Box 1801—DIObu, Port Harcourt, Nigeria.

FOR SALE: Kenwood R-5000 with extra filters. Mint condition. Must sell. \$600 or best offer. Contact Philip at (512) 478-4665 (days)—no collect.

ENDNOTES . . . Listening to WRNO last week after WOR and find that their new FM slogan is "We promise to suck less." Aside from the obviously indelicate language used over international airwaves, doesn't this simply mean that they promise not to be any good, just less bad? Then they went into a solid block of Led Zeppelin--there's real variety for you. Go figure . . . DB

Trash & Treasure

Donald J. Weber 2169 Walter Road Westlake, OH 44145

Ready or Not, here comes Trash and Treasure again----some bad stuff but some good stuff, too----things to fill your Radio library and, I hope, to aid you in your listening time.

The SURINAME DX CLUB INTERNATIONAL, with address in care of Ravindranath Sewdien, Bechaniestraat 58, Paramaribo, Suriname has another very unique offering. It is a list by month, day and year when certain Latin American stations began their broadcasting existence. In total, there are about four (4) pages on letter-size paper and another page of national holidays. The last reprint of the LATIN AMERICAN DX CALENDAR was prepared in June 1992 and this information is great should you be able to hear one of those stations on their anniversary date--some Latin American stations do offer special or longer programming on that day. The cost, directly from Ravin, is only \$1.00US.

THE M STREET RADIO DIRECTORY is up to date again. The 1992 edition for \$32.95US, plus \$3.00 shipping, can be ordered from M Street Corporation, 304 Park Avenue South, 7th floor, New York, New York 10010, telephone 1-800-248-4242. This effort probably will be available from certain of your normal radio book dealers and suppliers--you might check if any of them offer a discount price. While this is basically only US and Canadian AM and FM station information and the actual shortwave information is normally restricted to only two pages or so, I have heard tales that we shortwave listeners might occasionally turn on one of those AM or FM stations. If you have the interest, radio room space and money, M Street is worthwhile; if you don't have those three, so you skip it, no one will yell at you.

AWR-Radio, in particular, through their magazine, AWR-Current, c.p. 383, 47100 Forli, Italy usually includes a freebie offer with each issue. The most recent insert card offered a couple religious items but also included a check-off box for an AWR Pennant--an IRC or so would be a nice gesture with your request for the pennant.

HCJB, at their new US location, Post Office Box 39800, Colorado Springs, Colorado 80949-9800, has finished their latest lists of available items; books, cassettes, videos, clothing, pins, pens, key chains, even watches, attaches and pocket knives. Drop them a note or phone them at 719-590-9800 to ask for a copy of these latest sales lists.

If "old-tyme" radio with bits and pieces of programs and commercials of the 1930's gets you--the English have a very special offer. Connoisseur Cassettes c/o 58 Francis Avenue, Southsea, Hampshire, PO4 0HN, England has put together a cassette which compliments the booklet "When the Ovaltineys Sang". The price is £5.00 plus postage (whatever that might be) and the check is to be made out to F HURLEY and mailed to Connoisseur Cassettes.

IT MAY BE LISTED LAST BUT IN ITEMS YOU SHOULD HAVE IN YOUR RADIO SHACK IT SHOULD BE ONE OF THE FIRST. Gerry Dexter has rewritten his 1986 effort **SECRETS OF SUCCESSFUL QSL'ING**. This is subtitled "The Complete Guide to Reception Reports and QSL Collecting" and that's no understatement. I remember when I read the first effort, I mentally told myself a whole bunch of different thoughts--that I knew that, I didn't know that, gee that's interesting, of course I do that and why hadn't I thought of that. The first book was good and this book is good. (And if any of you remember the old Bill Cosby humor monologue on good and other adjectives, you know good is good.) The text, suggestions, copies of QSLs and general information cover seventy-six (76) pages but a closing, extra chapter of the well known "The CPRV Page" adds about forty (40) more pages of historic QSL information. The price is \$12.95US plus \$2.00 shipping (\$3.00 for foreign) from TIARE PUBLICATIONS at Post Office Box 493 in Lake Geneva, Illinois 53147. Mastercard and Visa are both welcome. Here, again you might find the book available from your local distributor.

SHORTWAVE TO GO!

New and information from the
Shortwave Paradise BBS

Dale Vanderpoel,
Syrop and Editor

BBS: (305) 524-1035
Fax: (305) 524-0005

Hello, and welcome to the column for this month! Glad to be back with you after what happened down this way last month with Hurricane Andrew! Yes, we came through it okay, but our neighbors just 60 miles south of here in Homestead, FL didn't fare as well. I want to thank all of you who contacted me, and were concerned about my personal safety after the storm, it meant a lot to me, **thanks!** Thanks also this month goes out to Bill Westenhaver of Montreal, Canada for the RCI, and Radio RSA Skeds! Keep up the good work! We sure could use a few more contributors like Bill, keep it in mind as you read this column.

* First Edited August 30th; last update September 20th

WESTERN HEMISPHERE

R. Recovery: if you hear this station helping with the recovery of Hurricane Andrew victims operating in South Dade Co. Florida, USA on 1610mw at 400-1000w from 1400-0200 UTC daily, they might QSL. You can send reception reports to:

(DXPL, 8/29)

- R. Canada Int'l:** BBCM heard RCI announce Aug 15th that one of their transmitters had failed. They listed a number of frequencies they were dropping until further notice. Depending on the time of day these include 21545, 13650, 11880, 13670, 9755 + 13720 KHz. (WOR #658)
- CFRX, Canada:** heard 6070 at 0755 UTC with United Way promo, news at the top of the hour. Signals good. (Ed Newberry, DXPL, 9/4)
- KJES, New Mexico:** heard again on Sep.2nd with new morning broadcast on 11715 in SP 1500-1600 UTC, on 9510 at 1800, and 2000 UTC. (GH, WOR #658) Gigi Lytle heard KJES from 1400-1500 UTC in EG to Canada on 11715. SP to Mexico was 1500-1600 UTC on same 11715. Gigi reports VOA was on top of KJES till 1430, making it difficult to hear. EG signals were weak but when they went into SP signals were much better. (DXPL, 9/19)
- R. Havana Cuba:** frequency change as of Sept. 7th--13660 SSB will be on every day 2100-2300 UTC in SP and 0000-0200 UTC in EG to NA. West Coast service moves an hour earlier, and to a lower band 0500-0700 on 9550 KHz. (GH, WOR #658) Heard RHC on a new frequency of 9655 (moved from 9620) from 2200-2300 UTC in EG, also from 0400-0500 in EG. SP from 2100-2300 UTC on 13660 USB, 15220, + 17770 KHz. (Dale Vanderpoel)
- R. Nacional, Colombia:** broadcasting in SP on 17865 at 0005 UTC with an ID, Latin music. Signals poor to fair. (Jim Clair, DXPL, 9/4)
- R. Difusora do Amazonas, Brazil:** in PT 0114 UTC on 4805 with pop music, slogans. Signals were good. (Jim Clair, DXPL, 9/4)
- R. Difusora do Marahao, Brazil:** in PT at 0204 UTC using 4715 KHz heard an ID, James Bond theme. Signals were fair. (Marie Lamb, DXPL, 9/4)
- HCJB, Ecuador:** hearing them on a different SSB test frequency most of the day 17490 replacing 17535. (GH, WOR #658)
- R. Paz y Bien, Ecuador:** heard them reactivated on 4819.78 KHz at 0950 with music and an ID. (Hans Johnson, WOR #659)
- Voz del Upano, Ecuador:** in SP at 0346 UTC on 5040 KHz with an ID, and announcement of a contest. (Xavier Gonzalez Fisher, DXPL, 8/29)
- R. Ancash, Peru:** program heard in SP at 0337 UTC on 4991 KHz, good signals, and an ID. (Xavier Gonzalez Fisher, DXPL, 8/29)
- R. Concoria, Peru:** received on 6141.3 KHz at 0945 UTC in SP with Folk music, and ID. Signals poor. (DXPL, 9/4)
- R. Ondas del Rio Mio, Peru:** heard around 1008 UTC on 6803.4 KHz with Peruvian folk music, ID at 1040 UTC. Signals were fair. (DXPL, 9/4)
- R. Pio XII, Bolivia:** in Aymara language at 0930 UTC using 5948.7 KHz heard music, and an ID. Signals were poor to fair. (DXPL, 9/4)
- RAE, Argentina:** heard in EG 0235 UTC on 11710 KHz with opera music, history program. Signals good. (Ed Newberry, DXPL, 9/4)
- R. Nacional, Argentina:** back on 6060 KHz at 0604 UTC in SP. Heard ID, Tango music, and news. Fair signals till R. Australia s/on at 0627 UTC. (Marie Lamb, DXPL, 9/4)

	17610		

(RNMN, 8/27)

- R. Netherlands:** has some very good news for listeners in Asia. They have been looking at ways to improve shortwave coverage of Asia. At the end of last month the board of governors met to discuss the options. The results were recently announced. R. Netherlands is planning to hire airtime on transmitters in Russia. R. Netherlands has been given authority to negotiate with the Russian Authorities for the hire of transmitting facilities. They will keep us posted as soon as they get the airtime. (RNMN, 9/10)

- R. Norway Int'l:** has made a frequency change from 2100-2300 UTC on using 17845 instead of the old 17735. (RNI broadcasts at the top of the hour, and leases out time to R. Denmark on the half hour.) (DXPL, 9/19)
- R. Renascenca, Portugal:** on 9600 KHz in PT at 0028 UTC heard talk in PT an ID, news. Signals poor to fair. (Jim Clair, DXPL, 9/4)
- R. Austria Int'l:** times for "Austrian Shortwave Panorama" are:
Sun. 1230 NA 13730; Eur 6155; Asia 15450, 17730
1330 Asia 15450, 17730
1630 Asia 11780
2330 LAm 9870, 13730
0330 LAm 9870; NA 9875, 13730 (WOR #659)
- AWR, Italy:** The DSWCI DX program can still be heard via AWR, Italy at 0615 UTC on 7205, and again at 0915 UTC on 7230 KHz. (DXPL, 8/29)
- Polish Radio Warsaw:** heard in EG at 1746 UTC on 9525 with a feature program, s/off at 1755. (Jim Clair, DXPL, 9/4)
- Croatian Radio Zagreb:** another strange frequency from here heard on 6511 at 0130 UTC // 6210. Perhaps this replaces 5085 which was not heard. (Hans Johnson, WOR #658)
- R. Romania Int'l:** Arthur Cushen hears RRI in EG 0645-0715 UTC on 11810, 11940, 15355, 17720, 17805, + 21665. Also says EG to NAm is at 0200-0300 and 0400-0430 UTC on 5990, 6155, 9510, 9570, 11830, 11940. (DXPL, 9/19)
- R. Sofia, Bulgaria:** has agreed to use 6210 instead of 6160 KHz from 1900-2200 UTC at 250kw. They will also use 6220 instead of 6135 KHz from 1330-2200 UTC and 6230 instead of 7170 KHz from 1530-2230 UTC (the last two are at 100kw); but they can't be sure on all of these until the winter SW season commences 27 September. (RNMN, 9/10)

C. I. S. AND EX-SOVIETS

- R. Moscow World Service:** was reported by Tom Sundstrom only heard now on 9855, 11675, and 11750 at 2200 UTC in EG. (RNMN, 9/10)
- R. Ukraine Int'l:** found a strange "unlisted" new frequency in EG 0000-0100 UTC: 11250, // 11520, 7195, 9640, 9685, 12000, 7250, 12060, 12330, 11790, 15355, + 15580. Best two were 9685 + 11790 (Brian Alexander, WOR #658) Tom Sundstrom reports Ukraine at 0000 UTC in EG heard only on 6080, 7250, 9685, and 12060. (RNMN, 9/10)
- R. Ukraine Int'l:** Brian Alexander reports a seasonal change, no longer hearing most of previously reported frequencies. He has heard this station from 0000-0100 UTC on 9685, 7195, 7250, 15580, + 12060. Bob Thomas also reports R. Ukraine Intl on 15580, 15465, 15355, 15195, 13645, 12060, 11885, + 9635. A repeat of the 2100 UTC broadcast can be received from 0000-0100 UTC on 12000, 7250, + 6055. The 2100 UTC broadcast itself can be heard till 2200 UTC on 9865, 9785, 9710, 7330, 7320, 6055, 6020, and 5960 KHz. (WOR #659)
- R. Vilnius, Lithuania:** is only heard now on 9530 in EG at 2300 UTC. This also was reported via Tom Sundstrom. (RNMN, 9/10)
- R. Riga, Latvia:** observed at 1807 UTC tune-in on 5935 w/EG in progress s/off at 1830 in EG. It's a new time for this service. Sunday morning service not heard. (WOR #658)
- R. Yerevan:** Brian Alexander has been hearing the earlier EG broadcast here best on 11920 with 10 minutes of EG news at 2145 UTC, and again at 2243. Weak parallels found are: 9450 at 2145, and 12050 at 2243. (WOR #659) Arthur Cushen is hearing this station from 0245-0255 in EG on 11675, they also announced 11790, and 13645. (DXPL, 9/19)
- R. Alma Ata Home Service:** was heard at 0830 UTC on 11950 KHz with music program, fair signal. (Ivan Cholakov, DXPL, 8/29)
- AWR, Russia:** their schedule has a misprint, the EG broadcast at 1600-1630 UTC is still on 15125 NOT 9775 as claimed. (WOR #658)

AFRICA

- Somalia:** on SW using 6956-6972 range (mostly on 6968 USB) 9425-9535 range (generally around 9475) but only one frq used at any one time. EG news at 1830 UTC. (WOR #658)
- RTV Nationale, Burundi:** heard at 1750 UTC on 6140 after Deutsche Welle signs off of that frequency. (Ivan Cholakov, DXPL, 8/29)

Benin: Anthony Barret is hearing EG from Benin on 4870 at 2015 UTC with news, FR follows at 2030 UTC. (DXPL, 9/19)

R. Botswana: heard on 3256 KHz at 0310 UTC with good signal. (Ivan Cholakov, DXPL, 8/29)

TWR, Swaziland: heard s/on at 0300 UTC on 3200 KHz. (Ivan Cholakov) (DXPL, 8/29)

BBC Relay- Lesotho: on 11940 KHz at 0603 UTC with World Service for Africa in EG, // 15400. Heard African news, *Postmark Africa* (Marie Lamb, DXPL, 9/4)

R. RSA: will officially change their name to "CHANNEL AFRICA" on Oct 1st, 1992. SABC already has a TV station using the same name. (RNMN, 9/17)

English Feature Programs

Mon: Welcome to Vietnam (Tourism pgm)

Fri: Talks of the Week

Tue: Sports and Culture

Sat: Weekly Review, Music program

Wed: Letter Box

Sun: Sunday Show

Thu: Vietnam's Economy

ABC, Brisbane: on 9660 at 1350 UTC, heard pop music, ID. (Ed Newberry, DXPL, 9/4)

KHBN, Palau: is now broadcasting in CH 2200-0300 UTC, and EG from 0300-0530 UTC on NEW 11900 KHz. Sunday only EG 0300-0730 UTC on 11900. Unchanged is 1100-1530 UTC on 9830. (Arthur Cushen) Received at 1006 UTC on 9830 with music, ID in CH, and EG w/address given. (Ed Newberry, DXPL, 9/4)

KTWR, Guam: now using 15610 KHz at 1500 UTC for EG but, it has a jammer on the frequency at the same time. (DXPL, 9/4)

KFBS, Saipan: picked up a CH children's program at 1425 UTC on 9495 signals were fair to good. (Ed Newberry) (DXPL, 9/4)

R. Kiribati: Now using a new shortwave frequency of 17440 instead of 14917.7 which they have been using for sometime. They are doing this because they have changed antennas. The station opens at 0600 UTC till 0830 UTC. (Arthur Cushen) (RNMN, 9/10)

Tonga: Arthur Cushen reports that the station A3Z should be back "on the air" by the end of October using 5030 KHz. (RNMN, 9/17)

WHAT'S ON

ENGLISH BROADCAST TO NORTH AMERICA

Daniel Sampson 4 Turtle St. Arcadia, WI 54612 CIS 73540,3025

A big round of thanks to the following individuals for the schedules: Jason Berri-CA, Edward Brown-IL, Bob Fraser-MA, Avi Kolko-NY, William Westenhover-QU. A few members have expressed their opinions on "What's On to the World" both pro and con. You seen the compressed print that would have been used in last months bulletin which I found readable but I'm sure some members with poorer eyesight may have problems. Unless this is a lot more support for "W.O.T.T.W." the idea will have to be put on hold.

I barely had time to put this months column together this month for on September 16 the Trempealeau River flooded. Here in Arcadia we received 8" of rain. The river hit a record high of 8.69 feet here, nearly twice its normal level. I had to evacuate my house but luckily the water only got up to the bottom of the door. The carpet was wet about five inches in. Unfortunately the car was caught up in the flood up to the bumper and has water damage. Ashley Furniture had a foot of water in one of its plants and suffered \$50,000 worth of damage.

9660 0510 R. Rumbos: SS: W w/TC & into lively Lat Am music (444 8/7 Owsley-CA)

FILL THAT GAP! One logging was misdirected to me and it is too late to forward it to Bob Colyard and I can't pass up the chance to include it here--Steve George-MA has a tentative logging of the Azores--R. Club do Angra in SS or PP with apparant sports coverage, maybe a soccer match on 13584 kHz @ 2150 most recetly on 8/29. Unfortunately no ID heard...The new station from Lat Am which has been heard on 4962 has been variously reported as being R. Fantasia in Venezuela & R. Cima Ciento, Dominican Republic. I haven't been able to coax a good ID out of them yet, but my guess is the Dominican as they are a relay of an FM station, and they seem to ID in the sloppy way that FM stations like to do...until next month remember to have fun with your radio!

flm

ONDA CORTA

Gabriel Iván Barrera

Casilla 2868 1000 Buenos Aires Argentina

Here as contribution for your DX-bulletin is a summary of stations recently heard 15, 16, and 17 August near to Coronel Vidal, situated 340 km southeast of Buenos Aires city. The receiver was an NRD-525 with a 20m longwire antenna. Times are UTC.

NEXUS International Broadcasting Association
IRRS-Shortwave: The Cultural Radio Link to Europe

Alfredo E. Cotroneo, President, NEXUS-IBA
(Posted on FidoNet by Kirk Baxter)

In 1987, a small group of idealistic and highly dedicated people with broadcasting experience of their own had the idea of starting a shortwave radio station to act as a link between independent cultural program makers and the European audience. The shortwave medium had been recognized for years as the most effective means of reaching the largest number of Europeans by radio and for the high quality of its audience.

The Italian Radio Relay Service went on-the-air in November, 1988 and was an immediate success. The founders of NEXUS-IBA used their own funds to finance the necessary equipment, and initially used the facility in their spare time on Saturdays and Sundays to broadcast their own programming consisting of music, discussion programs, topical presentations, vintage radio shows, and plays. IRRS quickly became a unique part of the European shortwave scene and attracted a lot of publicity and interest. In fact, the experiment was so successful that enquiries poured in from other program producers who were also anxious to use shortwave, but could not afford the high rates for airtime charged by the established commercial relay stations. And so, the NEXUS/IRRS idea grew.

Soon afterwards, IRRS began airing the current affairs and cultural programs of leading international, intergovernmental agencies and special program services produced by other broadcasters. Literally thousands of listeners praised their content as being of a quality and nature not available elsewhere. The much older NEXUS FM station in Milan is today the sole outlet of the BBC World Service and a major source of multilingual programs in Italy's most important industrial and commercial center.

In the religious broadcasting field, a number of internationally known and respected radio ministries have also become NEXUS members, making NEXUS-IBA in co-operation with "European Gospel Radio" one of the leading outlets of multilingual spiritual programming in Europe. NEXUS-IBA is, however, strictly non-denominational and open to membership of all faiths.

With its seat in Milan, NEXUS is a non-profit association founded under Italian Law. According to the Italian Broadcasting Act of 1991, the Association is designated as a "non-profit community broadcaster operating in the public interest". NEXUS-IBA makes broadcast time available to members of the Association AT COST. Membership fees are very modest and entitle members to the lowest airtime rates. The small NEXUS-IBA administrative staff is highly dedicated and receives no remuneration beyond legitimate expenses. All revenues above rents, electrical, and maintenance costs go back into the Association so as to guarantee the lowest possible airtime rates.

NEXUS-IBA is based in Italy, but is truly international in its scope and philosophy. In fact, current programming is in English, French, Spanish, Russian, Polish, and Ukrainian. Programs may be in any language and deal with any subject. The NEXUS-IBA Executive Council exercises no censorship or control, and intervenes only in cases where there might be a clear conflict with or violation of Italian Law.

On shortwave, NEXUS-IBA operates one Siemens transmitter of extremely high quality and reliability. It is rated at 10 kw output and is fully automatic. Although capable of standard AM (double side-band) transmission, NEXUS-IBA has chosen to operate with the much more effective and efficient "A3A" modulation, i.e. Single Side-Band, reduced carrier mode, as recommended by the International Telecommunication Union. In this way, our signal has the same communication power as a conventional AM transmitter of 30 kw, while remaining completely compatible with non-SSB receivers. Careful frequency management and the use of digital audio processing techniques assure a signal strength and subsequent high station profile all over Europe and the Mediterranean area.

From concept to transmission, NEXUS-IBA is on a solid basis, and would be happy to welcome your organization as a member. Please contact us soon for more information.

BBC Russian Relay News (transcript from BBCWS "Newsdesk", 10 September 1992, 0027 UTC):

Peter Shoemith: Finally, radio transmitters once used by the Soviet Union to jam BBC broadcasts will shortly be put to a new use. Instead of jamming, they'll be broadcasting BBC radio programmes to neighbouring countries, such as India and China. Under a deal signed with the broadcasting authorities in Moscow, the BBC will rent the transmitters, which are in three cities in what used to be Soviet Asia. The agreement was announced by the Managing Director of the World Service, Mr. John Tusa, as Torren [sp?] Douglas now reports.

Torren Douglas: It's a graphic demonstration of how the old order has changed. The country which once spent many millions of pounds on jamming BBC broadcasts is now to earn badly needed currency by bringing the programmes to a wider audience. John Tusa, Managing Director of World Service, says it's a direct result of the fall of Communism, and the opening up of the former Soviet Union.

John Tusa: They now have a great deal of spare transmitter capacity lying around. They're ready to sell it; they can get hard currency, and it suits us to be able to supplement our existing relay stations in order to get into crucial areas of the world such as China and India.

Torren Douglas: One of the transmitter sites, in Tashkent, was identified as a source of Soviet jamming in 1980. It will now relay BBC programmes to the Indian subcontinent, and two others will beam programmes to China, helping counter that government's jamming of World Service broadcasts, [which] has gone on since the killings in Tiananmen Square. The Soviet Union stopped jamming BBC broadcasts five years ago, and, after the attempted coup against President Gorbachev, he said the World Service had kept him in touch with events.

Radiostansiya Alef

1600-1630 (Su.Tu.Th.) Russian 12075 7305

Radiostansiya Alef (Alef being the Hebrew letter "A") was first heard on 21st April 1992 on 12075 and 7130kHz (changed to 7305 since 3rd May). It was a programme prepared by Radio Moscow and the Jewish Children's Associations. The service is being for Moscow, the Moscow oblast and Israel. Radio Alef carries advertising and occasional announcements in Hebrew. The two frequencies, 12075 and 7305kHz, from 1630-1700 carried a pop music introduced in Arabic. The station identified itself as "Radio Moscow" but the two frequencies were not in parallel with other frequencies that had been carrying Radio Moscow in Arabic since 1600.

Radio Shark

0200-1900 (Su. 0600-) Russian 5780

Programmes of the Titan Company and R.Kontakt Plus go on the air on the same frequencies but at different times.

DX MOSCOW

Anatoly Klepov

ul. Tvardovskogo, 23, kv. 365, 123458 Moscow, Russia

New station: **Vesj Irkutsk** (The Whole Irkutsk), an independent station. The station's motto: *Away from politics.*

2230-2330, 0400-0500, 1000-1100 on 6090. In Russian. (Fedor Brazhnikov, Irkutsk)

New station: **Radio "N"**, Ekaterinburg.

0400-0900 Tuesday-Saturday on 6200. In Russian.

Address: 620219 Ekaterinburg, GSP-808. Local telephone 51-45-23. (Victor Samojlov, Neftekamsk.)

New schedule: **Radio Radonezh**, Moscow.

1500-1630 Mon/Wed/Fri/Sun on 9865. In Russian.

Editor's news: In August, Mr. Andrew Emerson, G8PTH, Committee Member of the British Amateur Television Club, paid a friendly visit to the editorial staff of **DX Moscow**. Taking into account the rapidly increasing postal tariffs in Russia (in fact, since 1991 it was 50 times increased), **DX Moscow**, beginning with the next issue, will appear once every two months in a double volume.

Postal tariffs for air mail letters in Russia:

December 1991: 0.50 rouble; January 1992: 1.50 roubles; February 1992: 5.00 roubles;

July 1992: 15.00 roubles; August 1992: 25.00 roubles.

REHILBUP eht morf MULBAP eidet morf kartta yteixna laptrev tehtons

Actually, your September copy of **SRT** got out of here in relatively good time. My deadline to receive the columns here falls somewhere between the 21st and the 27th of each month, whichever of those days happens to be a Thursday; this gives our various editors at least nine days to compile the columns, and gives me the weekend (or what passes for weekends around here) to put it together, which is, in my humble opinion, fair enough. The product goes to Tim the Printer the following Monday; I pick it up Friday; and I mail it on Monday, usually. This time, they didn't go out until Tuesday on account of Labor Day. The Trenton regional mail center has been unusually sloppy lately, but that situation seems to be out of my control.

Starting next month, the bulletins will be mailed from the Kilmer Complex in Edison, NJ, by none other than our beleaguered, overworked Prez, Don Thornton. This will make Don's life even more intolerable, but it will take the heat off me; I've been working about 60 hours a week, and, frankly, if it was up to me to mail these things out any more, it wouldn't get done.

In other news, the **Chuck Yarbrough Utility World** is on sabbatical this month and maybe next; besides being a teach (or a pefesser, I guess they call it) at Georgia Southern, Chuck is media coordinator for the Clinton/Gore campaign in Georgia. He says to keep sending utility news and loggings in, and the column will return, if not in November, then in December.

I hope that next month we will be able to announce a new editor for the old **SPEEDX Spotlights** which I summarily abandoned a couple of months back. If you are interested in editing a column--not necessarily **Spotlights**--please let me know. This applies in spades to those of you who expressed an interest while responding to our survey last year; unfortunately, I don't have your names available, and I would like to hear from you again. My apologies for the confusion.

-ej

AFRICA

¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶¶

I've been really impressed with the great run of PNG loggings in the past few columns, and so, it seems, have been those actually hearing the stations. Richard Hankison comments on his PNG experiences: "I woke up one morning and knew they were there. It was the same thing for three of the next four days. They were calling me! That's the second time in two years it's happened. I'm getting scared. I may have to ground myself!" Now that's called Having Fun with Your Radio--and anyone can do it, even if you can't catch PNG. (I went perfectly gaga recently over the music mix on Croatian Radio Zagreb.) It's not hard to go gaga, so flick on the set and give it a try. When you do go gaga--and I know you will--report it, to me or to one of our other editors. Fun is so much more fun when it's shared, as you've no doubt discovered when reading this column, so be a Fun Donor! Besides, it's an easier way of getting your name into print than marrying a Hollywood star--and probably more fun, too. Back next time, eh?

73-Bill

Hello out there. Is anyone out there? A funny thing happened on my way to completing this month's column. I ran out of reports before I ran out of space. Its supposed to be the other way around. Its been a REAL dry month around here. I hope its just that no one's getting any QSLs. It is that, isn't it? Hopefully things will pick up soon. To give everyone an incentive to send in their reports, we've got cards from the collections of Steve Willers AND Edward Brown this month. They're really outstanding.
