WHAT'S ON THE AIR

(Registered in U.S. Patent Office)

Vol. II. MAGAZINE FOR THE RADIO LISTENER No. 3

PUBLISHED MONTHLY AT NINTH AND CUTTER STS., CINCINNATI, O., BY WHAT'S ON THE ALR CO. PRINTED IN U. S. A.

EDITORIAL AND CIRCULATION OFFICES: BOX 6, STATION N, CINCIN-

ADVERTISING OFFICES: 11 W. FORTY-SECOND ST., NEW YORK CITY.

PRICE, 15C. PER COPY; \$1.50 PER YEAR.

(COPYRIGHT, 1930, BY WHAT'S ON THE AIR CO.)

PATENTS APPLIED FOR COVER BASIC FEATURES OF PROGRAM-FINDING SERVICE OFFERED IN THIS MAGAZINE.

"Entered as second-class matter Apr. 19, 1930, at the postoffice at Cincinnati, O., under the Act of March 3, 1879."

HOW TO FIND THE PROGRAM YOU WANT WHEN YOU WANT IT

The program-finding service covers the hours of 6 to 12 p. m. for each day in the month, Eastern Standard Time, or from 5 to 11 p. m., Central Time. Simply turn to the page bearing date

and hour when program is wanted. Select from index in panels at center of page particular program or type of program you prefer, then locate on schedule closen symbol at nearest point (by use of State index) from which it is being broadcast. Or, if you prefer, check symbols of favorite stations against index of symbols in panels at center of page until you locate type of program for which your particular mood calls.

HOW TO USE THE WAVE-LENGTH GUIDE

Draw lines from the stems of arrows pointing to the wave lengths of stations with which you are familiar to the respective points on the scale to the right

corresponding to the points on the detector dial of your set where these stations "come in." After you have drawn about a dozen of these lines you will have a guide to all of the stations in the country. For example, if Station WEAF, which is on channel No. 12—which means it operates on a frequency of 660 kilocycles and 454 meters—comes in on your set at 74, and Station WLW, on channel No. 16, comes in on your set at 67, stations on channels 13, 14 and 15 necessarily must come in at points between these two locations on your dial.

TO MAKE A LONG-DISTANCE TEST (DX)

Ascertain which of your local stations are broadcasting chain features at the moment. Tune in one of these and find out what number is being rendered.

Then start your detector dial at either end of its arc and turn slowly. As soon as you hear the same number, note your dial setting and check back to the column showing wave lengths, thus ascertaining the approximate wave length of the station you are receiving. To the left of this column you will find the call letters of stations on the wave length of that station and those having approximately that wave length. Reference to the schedule of programs applying to the time you are listening will show you which of these stations is broadcasting the program to which you are listening, and you can thus identify it without having to wait for call letters.

AGENTS WANTED!

Take orders for What's on the Air subscriptions in your community. Every radio home a good prospect. Your friends and neighbors will enjoy this new radio program directory and magazine. Full or part time work. Liberal offer to both men and women.

Write for our proposition to agents.

CIRCULATION MANAGER, WHAT'S ON THE AIR, Ninth and Cutter Sts., Cincinnati, O.

TO ADVERTISERS

WHAT'S ON THE AIR is growing daily. The story of the phenomenal growth of WHAT'S ON THE AIR is intensely interesting. Within a period of ten months this publication has built up a guaranteed net paid circulation in excess of 200,000. A. B. C. applicant.

WHAT'S ON THE AIR has a useful life of thirty days each month—it becomes a part of the radio receiver in the home. It is used daily by thousands of subscribers. Its pages offer an advertising tie-up with broadcast programs that is unique and result-producing. Complete details will be sent on request to WHAT'S ON THE AIR, 11 W. Forty-second St., New York, N. Y.

THE MAGAZINE FOR THE RADIO LISTENER

VOLUME II.

JANUARY, 1931

No. 3

Radio Activities Foretell General Business Revival America's Business Leaders Demonstrate Their Confidence by Increasing Advertising Appropriations.

C. M. CHESTER, Ir., President General Foods.

AXWELL HOUSE-General Foods ra-MAXWELL HOUSE-General 1000 dio hour, Thursdays at 9:30 P. M., over Station WJZ and a nation-wide chain, is planning a continuation of its four-yearold continuous program for 1931. Mr. Chester believes that gradual recovery of general business will soon be noticeable, and that it is retarded now primarily by a state of mind on the part of the public. As soon as the public makes needed purchases of sound values, business recovery will be speeded up.

NATIONAL advertisers see a general improvement in business conditions just ahead and are doing everything possible to prove their contention as the first month of 1931 swings into being, business executives of the National Broadcasting Company have declared, in announcing the renewal, on a fifty-two-week basis, of a group of radio advertising accounts.

Not content with preaching the doctrine of "buy now," most of America's big advertisers are practicing their preachment by actual purchases—buying space in magazines, newspapers and on billboards, as well as time on the air.

Among the NBC program sponsors assuring listeners of high-type programs for 1931 are the Col-

E. E. SHUMAKER, President RCA-Victor.

IN my opinion, there is really nothing wrong with business to-day except fear of the future. We must re-establish confidence. We must first have confidence ourselves, and by our words and actions must inspire confidence in others. Industry and capital must show the way. United we must give American business a little start, and then confidence will grow by leaps and bounds.

IAMES M. SKINNER. Vice-president and general manager Philco.

THE year just ending has been the most successful in Philco's history. Our sales topped the totals of the previous years by a good margin, and Philco achieved during 1930 the position of leader of the in-

With the unquestioned return of a buying attitude during 1931, we see no reason why Philco should not maintain its popularity and enjoy even greater success. New, fine-performing receivers, the lowest prices we have ever set, a return of consumer demand and ability to pay—these factors convince us that we face the most prosperous year of our business existence.

IOSEPH WILSHIRE. President Standard Brands.

OUR confidence in the future of American business is demonstrated in action rather than in words. We are showing this not only by continuing our weekly programs featuring Rudy Vallee with his Connecticut Yankees and the Chase and Sanborn Orchestra, but also by inaugurating a new feature over the Columbia network, giving radio its first extemporaneous program with the new year. This feature will be "Fleischmann's Three Bakers."

gate-Palmolive-Peet Company; the Cities Service Company, a subsidiary of Henry L. Dougherty & Company; the Chesebrough Manufacturing Company; the Fleischmann Yeast Company and the Standard Oil Company of New York.

These advertisers are assuring radio listeners of the nation a 1931 hearing for such microphone luminaries as Paul Oliver, Olive Palmer, Gustav Haenschen, The Revelers, Jessica Dragonette, the Cities Service Cavaliers, the Real Folks players of "Thompkins" Corners," Rudy Vallee and Graham McNamee and the host of Broadway artists heard weekly in the Soconyland Sketches, broadcasting officials pointed out.

[Continued on page 47]

THURSDAY: clear and cold; the kind of night that makes "Beside an Open Fireplace" the right theme song.

Opened the evening's eavesdropping with Amos 'n' Andy—WLW. Never miss 'em. The family wouldn't stand for that anyway. Are these boys still going strong? Might as well ask if the sun's going to

show up to-morrow morning. Andy had a telegram from Prince Ali Bendo. Plenty of "stops" and just as many laughs. Any funny men who get giggles out of that are better than just good.

The "Nation's Station" followed up with one of these preserved programs (for posterity?) dolled up as an electrical transcription. Don't take to 'em. The ear won't O. K. 1922 tone quality.

A simple twist of the wrist and WKRC hooked up with Columbia. Well—Willie and Eugene Howard! Thought there was something familiar about 'em. Pretty amusing, too, if just in spots. Funny, isn't it, how tried and true gags, that go over with a bang in the theatre, topple out of the loud-speaker with a dull, sickening thud sometimes? Compare with Amos 'n' Andy.

In their wake came heavy advertising bombardment. Fast dial work to find cover. Gave the old set the gun. Ah, ha! Sounds like a good night to lure 'em in. It ought to be.

WSUN inviting all and sundry to spend the evening dancing and eating at a Florida supper club. Sorry. Like to. But couldn't make it, even with Capt. Frank Hawkes. Stayed long enough, though, to hear a mighty good soprano and pianist—not doing dance tunes either.

On to WAIU and another embalmed program. Major somebody or other telling how he bumped off a flock of Germans during the war. Maybe it was interesting then. But killing Germans isn't fashionable now, unless they try crossing in front of your bumper.

Street-car passing by; kicking up even more

interference than usual. Heaven is a place where street-cars don't bother radio. Electrical interference, too, just to show the trolley crowd hasn't a monopoly.

Back to WLW while the storm subsides. Hotel

dance band playing "Japanese Sandman," one of the tunes that made Paul Whiteman famous back in 1920, and still a good one. Slick waltz next, but somebody who should be sticking to his instrument singing the chorus.

Interference letting up. Edged along to WBAP, putting out the one and only Rudy. Got to hand it to him for knowing what he does best, but must say a couple of numbers is about enough. Too much of the same thing. Wrong sex, perhaps.

About to start cruising when Fort Worth deserted Rudy at the half for a local program. (Thousands of fair hands twirling dials madly?) Replacement turned out to be an orchestra with plenty of accordions doing Italian numbers; different and pleasing. Then a sketch; not so hot, and sponsor ax to grind. No station announcement. Ducked.

KWKH selling pecan-trees. Phonograph record, followed by studio visitors talking to folks back home. Great kick for them and the home folks. But what about the rest of us?

Through impenetrable forest of howls till WBRC struggled in under a man-sized load of squeal. And what it brought! A long ballyhoo for a bank and few words for the Community Chest. Seems something like that's happened before, though.

Ambled along to KDKA in time to hear the last of Rolfe's Lucky Strike program. Rather funny to hear the last of it. Seems like one of his programs is always on the air. Listener demand, they say. Oh, yes? Must be comforting to be as sure about everything as Ed Thorgerson sounds.

Remembered Frank Simon's Armco Band on WLW. Hustled back to 700 K. C. and "Stars and Stripes Forever." When better marches are written— But they won't be. "Estrellita" too. More

variety than last year's programs by this corking band.

WBAP again, galloping in with Arco Birthday Party. Benvenuto Cellini reincarnated. Seems sort of taking an unfair advantage. Ought to be "by special permission" of his heirs, or something like that anyway. Good love songs, though. "The Bedouin" for one. Not heard so much lately.

WBAP broke in on it to announce call letters. Only wish more stations would remember the fifteen-minute rule once in awhile.

That pesky interference again.

To WKRC and Columbia Detective Story Hour; something you can't tune out once it starts. Just about the smoothest drama job on the air. That "Shadow" boy knows his goose flesh too. This time a story showing the better side of

gangdom; plenty of action and suspenders, and a clinch at the finish.

WEAF etherizing the RCA Hour. Brilliant overture by Nat Shilkret's orchestra. Not that it matters to Nat. Jazz or symphony, he takes it in his stride. Radio's most versatile conductor by several lengths.

Curses on that interference anyway. Down to the high kilocycle end of the dial, where it shouldn't be so bad.

Found WCKY airing the Cincinnati Christian Glee Club. Negro spirituals, with the swing and flavor they ought to have, but often don't. Close harmony, besides.

Over to WLAC, kilocycling the Vagabonds, a lively dance outfit. "Here comes the sun," they say. A little premature; it's not quite half-past ten vet.

On through the jungle of howls in the high K. C. belt. The better the night the louder the squeals are. Doesn't seem right, but it's so.

WOAI worming in with another snatch of RCA Hour. Looks like the South and Southwest are getting all the breaks. No Western or Northern stations yet. Seems to be working out that way quite a lot lately. Ought to have Congress fix it. Can't stand for sectional favoritism.

WOWO fading in with more of this question-

and-answer racket. Can horses sleep standing up? Bet a lot of these Sunday drivers drew a blank on that one. Followed up with anti-chainstore meeting. Probably interesting and important, but can hear enough of that from KWKH.

KTRH. This is a Southwest night sure enough. Telling the open-eared world that four rooms can be furnished for \$249.50, \$12.50 down, the balance if, as and when. Well! Well! Public interest, convenience and necessity, eh? Also, offering \$5 prize in announcement-writing contest. Really, \$5 is too much, kind sir.

Away from temptation to KVOO, airing a mighty good instrumental trio in varied numbers. Of course one of them was a Herbert. The night wouldn't be complete without that.

A flip of the dial and the South again, this time WSB. Black-face vaudeville team from an Atlanta theatre. Diverting too. Lamden Kay announcing. He's one of the best.

WJR dispensing the Slumber Hour, which NBC decided nobody wanted. They found out different. Tschaikowsky. Real music. And Ludwig Laurier knows how to play it.

Reluctantly to WMC as Detroit begins fading. Dance music from a supper club. Snappy enough, but not so satisfying after Tschaikowsky.

More of the same from three or four other stations without stopping to identify.

WFAA halting the dial with a woman's quartet. Good voices that really blend, believe it or not. American numbers; plantation songs, in rich, full arrangements.

Breaking in on WHAS in the middle of a corking number by a top-notch concert orchestra. Ought to know its title. It's been a favorite for a long time. But can't remember. Old Sandman must be working.

WENR scattering dance paraphrase of "In a Persian Market." Good enough, but the original's better. Hard to improve on Kettelby.

And so to bed.

Good-night thought: It takes all kinds of programs to make radio.

Minute Program Announcements

THE Federal Radio Commission has submitted to Congress its fourth annual report on its activities.

It was just a year ago that the toga was draped about this regulatory body, making it a permanent one. But the Commission would be dyed a deeper purple, and now asks that Congress place in its hands power to silence the "racketeer" broadcasting stations which transgress the law, for periods not to exceed one month; that Congress exclude the Hawaiian Islands, Porto Rico, the Virgin Islands and Alaska from the five radio zones into which the nation is divided, decreasing the radius of radio, radically speaking; and here's the "rub"-or the "bump"-that Congress allow the Commission to compel the illumination and painting of radio towers, which, we are led to believe, interfere with aviation in the extent that ye olde telegraph pole used to impede automobile traffic.

Some mighty interesting statistics have been fed into this report to Congress. It states that during the fiscal year 8,543 applications for radio permits of every nature passed through the hands of the Commission. Of these, 944 cases demanded a hearing, after which only seventy-seven applications were granted, or approximately one out of every twelve presented.

While the Federal Radio Commission is fussing about the request of American broadcasting stations for more power, in other lands more than twenty stations using "super-power" are in process of construction. Russia is building a series of

100,000-watt power stations—just double the limit allowed to a chosen few broadcasters in America. Germany plans to replace its present aggregate of twenty-eight stations with eleven regional stations of "very high power." Oslo, Norway, is now using 60,000 watts. Italy is completing two 50,000-watters. Ireland (Free State) is planning a station more powerful than the Daventry station of the British Broadcasting Company.

The U. S. Service Bands are back on the air with a series of concerts to continue until September, 1931.

NBC announces the following schedule over its chains:

Mondays, Marine Band, 4 to 5 P. M., NBC-WEAF network.

Tuesdays, Marine Band, 10 to 11 A. M., NBC-WEAF network; Navy Band, 3 to 3:30 p. M., NBC-WJZ network.

Wednesdays, Army Band, 9 to 9:30 A. M., NBC-WJZ network.

Thursdays, Army Band, 4:30 to 5 P. M., NBC-WJZ network.

Fridays, Army Band, 9 to 9:30 A. M., NBC-WEAF network; Navy Band, 3:15 to 4 P. M., NBC-WEAF network.

Definite announcement of CBS's plans in this regard has not reached us, but we know that many of these concerts, as well as an evening series, will be heard over the Columbia network.

980

If the Federal Radio Commission permits, by the time these lines are read, WBAL, of Baltimore, and WTIC, of Hartford, powerful stations now dividing time on the same wavelength, will both be on the air full time on a permanent synchronizing plan. In our announcements last month, C. W.

Not all of the programs directed to the bousewife are of a sober and uplifting nature. As the title of their program, "The Sisters of the Skillet." indicates, the chubby comedians, Ed East and Ralph Dumke, devote themselves to lightening honsework as assiduously as do any vacuum-cleaner or electric-washer salesmen. The two comedians, who double as Isabella Fryett, home-economics expert, and Miss Pet Plenty, adviser of the lovelorn, started out on WGN at Chicago. Now the NBC is sending them at 1:45 to 2 p. m., C. S. T., to WIZ, KWK, WREN, KFAB, KSTP, WMC and KOA.

Horn, NBC general engineer, told our readers that a new transmitter has been developed which takes synchronization out of the laboratory stage. WTIC and WBAL propose to be the first stations to take advantage of this new development.

The Quaker Early Bird (Charlie Hamp) completed his early morning series on December 13. The Quaker Man (Phil Cook) will conclude his morning programs December 31. We understand that the sponsor plans to concentrate on Phil Cook's evening program and to make it available to a much larger number of stations in January. In addition, the rumor reaches us that Gene and Glenn, of

The Canadian National is continuing its Sunday afternoon series of symphonic concerts by the Toronto Symphonic Orchestra and a guest soloist. In addition to the coast-to-coast network of Canadian National Railways stations, this program

WTAM, may replace Hamp and Cook

for a morning Quaker program.

TELLO, Folks! How are you all this evenin'? Jes' thought I'd drop in 'n' say Howdo - Howdoo - Hello 'n' How's Every Buddy! Yes, Suh! Here goes jes' bustin' out in another little impromptu song 'n' story set-to - jes' mesmerizin' aroun' 'n' playin' a few tunes for my own amazement! - Oh-o - wait a minute - got mixed up - thought I was startin' out to shout out the Libby Show which I'm doin' now on NBC daytimes. Have you heard it? Same old style as in the "way back when" days, but modernized - same old 3-piece Orchestra (my chair, my Uke 'n' me), 'n' same old 15 minutes of sunshine - jes' chummy chatter jes' for fun. Now that I've got that out of my system - wanted to tell you that, on a little trip into old Noo Yawk a few days ago, I found that, instead of Ted Husing's illustrious expression "old top, old sock, old thing," that they're greetin' one another over there with "old top, old sop, old thing." ... Duane Wanamaker, the Advertising Manager that made Majestic Radios famous, has gone literary - you'll find him wisecrackin' in the Chicagoan - he's now Vice-president of his firm too -Oh-ho, so that's his vice! . . . Have you seen Amos 'n' Andy's new picture? It's a jim-dandy 'n' the boys did themselves proud — the only one thing missing was Bill Hay. . . , There's a great song hit in this picture, too, "Three Little Words," or is it "Three Little Birds" or "Three Little Worms"? . . . Jean Paul King the name of a mighty popular Chicago announcer - well, look what John Paul Jones did! . . . Yep, the red-headed music-maker jes' finished 26 weeks on the Shell Oil Program — 'twas a long, hard job — I'm jes' a shell of my former self!

... Speakin' o' Coon-Sander's Nighthawks Orchestra, met a Dumbdora the other Eve that thought Coon Sanders was the drummer — leader of the band - and that it was his brother, Joe Sanders, who played the

ISTORY repeats itself" — the Hold gag is surely asserting itself in the radio business lately. As I've stated often in these Rtickles, the one thing that built up the original popular interest in radio 10 years ago was the personality

entertainment - the impromptu - the informal — the natural — the human the individual. Then, as radio grew, especially during the past three or four years, it has become so "magnitudenous," so gigantic, big, commercial, so impressed with itself - that it became high-hat, formal and stilted. During the past few months, however, the potentates behind the throne have realized that, if they want to save their necks and keep radio from going into the popularity discard, they must come right back to that which built up the original entertainment interest IN radio. Well, why shouldn't they? - It's the backbone of radio itself - it is that which built up radio interest and put the industry where it is today. During the stilted period the potentates, with their methods, discouraged and destroyed — nipped in the bud many a young, extemporaneous genius many a wise-crackin' humorist - many a philosophical leader. Why? Because the Big Shots felt that they could not "trust the air" to some one that might say the wrong thing. They were so thoroughly commercialized that they must needs write and check 'n' double-check every word that was uttered by artist or announcer before it went out on the air, and they went stale. As we all know, too, Humor has always been sadly lacking in radio. Not until last year could radio afford to pay the recognized stage humorists of America; thus we heard Will Rogers, Eddie Cantor, Chic Sale, Ring Lardner, Harry Lauder, etc. Radio potentates said: "Here are men that we can trust to say the right thing, for look what we are paying them." In nearly every case, however, these famous stage humorists flopped - said the wrong

thing - and hurt themselves in the eyes of the public — Why? Because they did not know their radio!! What next? Today the potentates are racking their brains trying to find entertainers who can talk on the air and say the right thing. They had forgotten all about the boys and girls who originally made radio what it is, the boys and girls who haven't said the wrong thing in 8 or 10 years before the Mike. Now, the transition period is here - history is repeating itself — the real radio people are at last coming into their own. The year 1931 will see humor, personality and informality paramount!

THE One-man Show" — the fifteen- minute impromptu idea ─ is the modern entertainment answer and it's the potentates' salvation. Already the radio fellows, Amos 'n' Andy, Phil Cook, Henry Burbig, Charley Hamp, Ray Perkins and Tony Cabootch, are working at it steadily and nationally. But the real old-timers, the radio entertainment originators, with three, four and five years' more experience than most of the abovenamed personalities, are the ones that are being called in by the Chains now. Radio needs them badly, and the Advertisers are willing to pay dearly to get their radio experience! Here are a few of them: Gene and Glenn, Vaughn DeLeath, Little Jack Little, The Three Doctors, Little Joe Warner, Breen and DeRose, Jack Nelson, Art Gilham, Jolly Bill Steinke, John and Ned, Joe Sanders, and many others. These folks are probably the most valuable radio personality names in the United States to-day! History is repeating itself. - This time, however, these famous names will be written into radio history so that they will never be erased.

XX ELL, I gotta ramble on — I'll be seein' you pretty soon - pretty soooon — pretty so-o-oooon. Nite Owl. Sincerely,

WENDELL HALL. For the boys who can say the right thing

Radios Swan Song-ster" By Dale Wimbrow

THIS story has to do with Harry Swan, not good-looking, not hard to look at, not small, not large—in fact, not much of anything except one of my best friends, "uncle" to half the kids in Greater New York, and an absolutely unexpected bundle of genius and versatility.

We all know the hallowed old saying, "Jack of all trades, master of none." This adage would seem to apply to-day as never before. With practically every individual specializing, and the city the size of New York holding thousands of competitors in any given specialty, the dividing of one's interests would seem to preordain vocational suicide. However—in spite of Chic Sale—this feller Swan has smacked that hoary old proverb right square on the nose, and sent it whimpering back to the obscurity where all fallacies belong.

Harry is Jack of all trades in a big way, and master of none. You, reader, can probably play a piano better than he does—but can you also quack like a duck? Maybe you can crow like a rooster—he does bantam and leghorn, bass or treble—

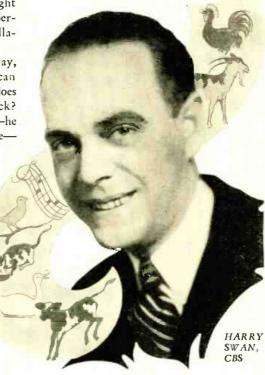

but can you also warble like a canary graduate of the Hartz Mountain Conservatory? Oh, well, comparisons are just as odious here as elsewhere. I therefore, believing as did Gray in his immortal "Elegy" that "full many a gem" lies in the dark ocean caves, call upon you to meet Harry Swan, the man behind the man behind the "mike."

Somewhat over a year ago life's current twisted a couple of unimportant straws about, and I met Harry Swan. The knees in my one pair of pants

were just about gone, and the seat getting very thin, due to a lot of praying and a lot more bench-warming in outer offices. He asked me where he could find a job. Asked me, mind you, right at the time when, if a "job" had stepped up and tapped me on the shoulder, I'd have thought it was the sheriff to repossess my watch. Nevertheless, he'd asked me, and (I'll never understand the phenomena, but somehow the other feller's hard luck always causes our own misery to dwindle) I immediately felt like a capitalist. So, hitching up my belt at the spot where

the waist-line was beginning to look like a separation point, I tried to concentrate. 'Twas kinda hard to do, for all the time I was wondering where I could corrall a cup of coffee. Finally from some dim recess in an already depleted memory I dug up a glimmer. "Go, see Brad Browne," I said—random shot. (Note.—If you ever write Brad to verify this yarn, don't fail to spell his name in full. He's fonder of that last "e" than of his wife, and Nit Wit Patience Bumpstead is a mighty nice gal.)

It was a random shot, but it hit the mark, and just on such small things does fate hang the shifting of her destinies.

Harry went to see Brad Browne. That was before the Columbia Broadcasting System blossomed out like the lily of the field. WABC was then owned by A. H. Grebe, and radio was just sheddin' its milk teeth—the wisdom hadn't sprouted—have they yet?—and he didn't get much money. The point is that he connected with radio, the rest of it has been hard work. The elements of chance and luck played their part without doubt, but I've also observed that the harder we work the better luck we have.

In a little while the "Swan's" ribs be-

gan to fill out, and the feathers of a somewhat bedraggled plumage began to lay straight and glossy. He made himself virtually indispensable, and the knowledge of all trades began to assert its usefulness. Brad and Al Lewellyn were the Cellar Knights of the program of the same name. Harry was the rest of it—whether it meant acting the part of a proprietor of a hash-house or an underfed alley cat.

Radio was still married to the bandquartet-soprano type of program, but had begun to cast surreptitious glances at Reno-which action had been forced by outraged listeners-and as soon as dramatic sketches began to grow in numbers some one was needed to supply and produce atmosphere. Who was better equipped to step into the breach than the Jack of all trades? Soon Harry found himself doing door-slams, calf-bellering and thunder-storms, besides playing one major and three minor roles (as well as interpolating a song for the actor who could "act," but not sing), all in the same production. Often he was receiving less money for doing five distinct types of performance than the actor who specialized only in the reading of lines.

I protested that he was throwing away his talents, and pointed out that it was only "just" that he demand fair remuneration for his services. I was wrongand, oh, how I "admire" to admit it when I've been wrong. For each such admission means another mistake I'll never make again. He was subtly carving a niche of indispensability, and, anyhow, there wasn't money to pay him adequately. You see, radio was (and is yet) still feeling its way. We can only dimly surmise where it will eventually take us. Those who produced programs had just so much money in the budget and no more. This was usually only enough to pay actors' salaries. Big advertisers had the bad habit of paying fabulous prices for "big names" who more often than not weren't effective on the air, and leaving the bulk of real entertainment to underpaid, undernourished unknowns. They also forgot that trees must sigh and motors must "mote" if the production was to sound real; so, in desperation, the cry went out, "Where is Harry Swan?" He bobbed up smiling, impersonated with equal facility a billy goat or porcupine, read the "star's"

[Continued on page 47]

THE old theatrical "amateur night," a thing of the past, is remembered with tolerant amusement by many of us who get a real thrill seeing the deadly hook drag in its quarry. In a modified way, and with a somewhat truncated audience, the show still goes on. The radio audition is a show all in itself, particularly in the local unit where material in the raw—very raw sometimes—presents itself for the terrible ordeal. It is eight o'clock Friday evening, time for the show to begin.

Promptly at eight o'clock the studio director is ready to deal with a curiously assorted number of people eager to sacrifice everything for the privilege of getting over the air and the possible rewards just beyond.

The first arrivals—two children. They present their music, the boy a violinist, the girl at the piano—a concerto by Vivaldi. We hazard the adagio and find the hand unsteady and the intonation poor, the girl meantime doing fairly well at the piano. We stop the slaughter and tackle the presto. Precisely as we had expected, the young muse dazzles us with his rippling arpeggios, though we shudder to think how many notes have been missed. His teacher is to blame and should be arrested for allowing the child to attempt such task. Exit Number 1.

Enter Number 2. Oh, these sopranos! She has the bulk of a Dempsey and the outward poise of a Buddha. But no sounds come forth after the piano introduction, and she insists that the waiting and peering audience make her nervous. We begin again, after changing her position, but still the vocal organs remain inert, and for once in our radio career the mystery of life remains sweet. She gathers up her coat and music, makes for the door and flees the place in a self-imposed disgrace.

Number 3 undulates in. The voice decidedly English and arresting. A refreshing moment — the song in good taste. But of a sudden and apropos of nothing: "You can see I have a voice, kawnt you?" The studio director, resenting this unusual usurpation, replies tritely: "I can hear what I hear." Again we launch into the opening bars of a billowy sea; the sailing is good when, sans

warning, Number 3 wrecks his radio prospects with a "Sorry, but I have a slight case of constipation and it is affecting my voice. Good day." And he undulates out with poetic movement, leaving behind a perplexed studio staff.

Two men, a boy and a little girl. Muleskinners from the Ozarks. We place the group around the mike. In the hands of these simple folk the elemental sentiment of the songs becomes something worth while, with their equipment of banjos, guitars, sweet potatoes, harmonicas and Jew's harps. After booking the "Ozark Muleskinners," we proceed, wondering betimes why women are in the ascendency.

Her voice is abominable; we are sorry indeed, but the spirit is Spartan and she observes: "Well, if you won't let me sing, can you use a lady for cooking?" Number 5 is really making good dispensing recipes and telling other ladies how to keep husbands at home and happy. Proving that radio does develop versatility.

Two adolescent boys, one of whom has safely gotten by that stage of fluctuating voice, the other still undergoing its embarrassments. The former passes; we hardly dare chancing the second, who might be anything from a soprano to a tenor. "May I return in a month?" he inquires timidly and naively. Not knowing the secrets and tricks of mother nature, we solemnly advise waiting until the voice has settled.

A Hungarian band—what pride they take in their instruments! They arrange themselves about the mike, and, without a single note, play on and on, bewitching us with the rise and fall of a mellifluous, gorgeous flow of sound. We would all be vagabonds and follow but for the voice of duty which calls stentorianly: "Number 8 is waiting."

A find indeed! A soprano who can "cadenza" and yet not scandalize the mike, nor, as Damon Runyon would say,

Greater built-in power through better construction. Precision and quality in every part. That's why Majestic Tubes insure truest tone, amazing distance, dependable operation. A Majestic pragram is broadcast over the Columbia System each week day morning and on Sunday night. Try your new Majestic Tubes on these famous Majestic programs.

Unconditionally Guaranteed Against

"break her porcelain obligato." Demented Lucia, still looking around on the floor for a lost trinket, behaves precisely the same in the studio, alternately caressing and fleeing the mike, and in this wise successfully negotiating that instrument's physique.

And so the show goes on, alternately productive and barren, and yet holding within its very heart the great expectation. The joy of achievement is sufficient spur, and the will to carry on can be well inculcated by the director who is not an emotional infant, and who is able to overlook natural human blunders. After all, there is an opportunity still for every one who fails, if he will but find his medium, and the old adage still obtains: "If at first you don't succeed, try, try again."

In these days of meticulously perfect radio programs on the broadcasting chains, it is seldom that the audience has the refreshing experience of listening to gen-

uine ad-lib comedy.

With the new year safely on its way, such a program is now assured for radio listeners, and, furthermore, it will be heard on the largest of all networks, one embracing sixty-seven different stations from coast to coast. The new program, sponsored by the Fleischmann Yeast Company, in addition to their already popular program featuring Rudy Vallee,

emanates from WMAQ in Chicago, and is broadcast from the Atlantic to the Pacific over Columbia's stations each Monday night at 9 P. M. (E. S. T.).

This new program is known as "The Three Bakers" and presents three of the most amusing comedians now on the air. It brings to America a type of entertainment that will soon take its place as one of the biggest fea-

READY FOR THE AIR.

Joe Rudolph, Edith Shuck, Ransom Sherman, Russell Pratt, "Taking Lessons in Baking."

tures now on the air. Probably you remember them as "The Three Doctors," one of the Midwestern groups of stars who have been convulsing audiences with their "nut"

Nothing on this program is prepared in advance. The entertainers stroll into the studio, go into a heavy conference right before the microphone and compose the program right before their audience's ears. Without further ado, they present their pot-pourri of melodies, quips, jests, or what have youin fact, a regular "nut" program.

Masters of mimicry, nothing is too serious for the Three Bakers to burlesque. No subject too deep for them to discourse upon. They create on the spur of the moment amazing dialogue and recitation; produce a drama, or "drayma," as they prefer it to be known, with a cast of eight or ten characters all portrayed by Pratt and Sherman, with musical interludes furnished by Rudolph, the musician of the group. Rudolph builds the musical backgrounds out of fragments of popular ditties, operatic scores and orchestral

They refuse to rehearse. They say rehearsing destroys their spontaneity.

IN her teens, while living in Chicago, Harriet Lee began studying, with miscellaneous hopes for a stage career. Possessed of limited means, she worked in Lyon and Healy's, a well-known music store. Here she redoubled her interest in songs and singing through contact with the many customers—some of them from the opera, some of them from the university. She saved money on her lunches to pay for lessons from Dr. F. Lulek.

One day a violinist came in while she was taking a lesson. He noticed that she was the same girl who had sold him some transcrip-

tions the week previous.

Next day he took her to a Chicago broadcasting station. She was tried out and immediately got a contract. The pay was only \$40 a week, and she had to sing on about eight different programs, but the training was excellent.

Wendell Hall, then representative of Majestic Radio, heard her and offered her an engagement in New York with his organization. Subsequently she became a member of the CBS.

EXPERIMENTS in radio transmis sion over short-wave channels, generally utilized in television experiments, have been conducted by the National Broadcasting Company for the past several months, according to C. W. Horn, general engineer.

These experiments, however, cover only one or two aspects of television experimentation, and do not point to any inauguration of television broadcasts on NBC networks in the near future, the engineer stated.

"These investigations of television bands are being made by engineers who are always experimenting and testing in order to add to their store of knowledge for the creation of future structures."

Other work along the same general lines is being done by NBC experimental engineers in conjunction with workers in the RCA-Victor laboratories at Camden, N. J., the engineer

But these searches for knowledge do not mean that we can predict the date of television. They do mean that we are striving to learn when we can have television," Horn said.

Bounder-Don't stop me; I'm going into this shop and buy a new

cover for my typewriter.

Rounder—But that is a fur shop.

Bounder—Well!

Dr. Charles Fleischer, who, as Columbia's Sunday morning commentator, discusses the most striking news event of the week in national and international affairs, has been asked by some of his foreign listeners to use Esperanto for his broadcasts.

Aptly introduced in a recent "Some-thing for Every One" program over the Columbia-WABC network, was the Ellis Island skit of Harry Swan, who talked to himself in Scandinavian and answered in seven different dia-

The regular Tuesday morning beauty chats of Doris Lee over Station KYW were occasioned by the recent opening in Chicago of the world's first "all-service" station, where women may have every kind of beauty service, from a pedicure to a coiffure, under one roof.

When Ted Harris, member of Radio Home-Makers, was preparing for his part in Channing Pollock's play, "The Enemy," which was broadcast over the Columbia network, his entrance was accompanied by a deep moan, which was very difficult to get right. Harris practiced in his bathroom at home, and his moans were so realistic that a neighbor thought some one was dying and summoned the caretaker to investigate.

UNIQUE, far-reaching and indispensable are the services which Miss Madge Tucker renders radio and the radio public. On every day of the week she is occupied with the children of the land—entertaining and developing them.

Which all accounts for your child, or young relative, wanting to be near the radio in the late afternoon hours, so as to tune in on Made Tucker's "I adv. Next. Door" programs over NBC

Madge Tucker's "Lady Next Door" programs over NBC.

All this magnetism is embodied in Miss Tucker, who, before her radio debut five years ago, was a successful actress. She is a fairy princess for the child who comes to her with real talent.

Although it is Miss Tucker who writes, directs and produces the children's programs, even the smallest tot under her able management has a voice in the productions.

Every Saturday afternoon all her child artists assemble for a party of their own planning and invite Madge Tucker as their guest.

Much latent talent has been uncovered by Miss Tucker in children who have participated in her Sunday morning musicales.

John White, the Lonesome Cowboy of the NBC "Death Valley Days" program, goes to a corner and strums his guitar for twenty minutes before going on the air.

源

The Countess Olga Medolago Albani, soprano heard in several NBC programs, is an expert fencer.

缝

Fourteen of the eighteen announcers at NBC are singers, the majority being baritones.

The Parnassus Trio, directed by Olga Serlis, has been broadcasting more than six years. The group has been a daily NBC feature for more than three years.

源

Pierre Brugnon, master of ceremonies for WABC's "Evening in Paris," is quite understandable, despite the fact that he has sung stellar roles in opera both here and on the Continent.

選

Both Ford Bond and Charles B. Tramont, NBC announcers, were physicians in embryo when radio cut into their plans.

迷

William Merrigan Daly, NBC orchestra leader, wears a cap constantly, even with formal dress.

앭

Wonder how many taxi fares Ernie Smith, KFRC's football announcer, has to pay. He is usually accompanied by Prince Igor, who weighs 185 pounds. The "prince" has three strains in his ancestry, Great Dane, St. Bernard and Shepherd Police. He has never been so rude as to bark during a broadcast.

They are called children's concerts, but on any Saturday morning you will find a representative group of WABC's musicians listening to Ernest Schelling's description of philharmonic music.

Reinald Werrenrath, vocal counsel for NBC, and Deems Taylor, American composer, were roommates at New York University in 1904. It was at this time that Taylor wrote the musical arrangement of Oliver Wendell Holmes' poem, "The Chambered Nautilus." Despairing, after much persuasion, to get Taylor to complete the musical composition on scheduled time, Werrenrath finally locked him in his room until the work was completed.

MRS. W. K. VANDERBILT

Women's Association, discussed the work of really drum and stop imitating a barnyard. He developed a new type of rhythm by giv-Mrs. Vanderbilt, who appeared on the secing each note an afterbeat that imparted a ond of the new series of programs, spoke on "gliding" effect to the music. the subject of philanthropic activities for

women will appear on future programs. The new programs are heard each Tuesday afternoon from 5 to 5:30 (Eastern Standard Time), 4 to 4:30 (Central Standard Time), and feature dance tunes by Leo Reisman's orchestra. The setting is a social hour at which the famous society women act as

society women. Other prominent society

tated villages in France and in many Ameri-

can endeavors, including the American

hostesses.

the association.

Reisman is credited with having probably the best dance band in existence. Yorkers know his music well, for he plays at the Central Park Casino, rendezvous of the city's fashionables.

He first gained prominence as dance-band leader in Boston by revamping dance music by eliminating the raucous sound-making devices and ordering his trap-drummer to

Let us "glide" into the new program being sponsored by the RCA Radiotron Company and broadcast by a wide network of NBC stations on Wednesday and Saturday

Small wonder that this "variety" program has already a large following when we take stock of the array of talent packed into it!

Arthur "Bugs" Baer, famous humorist, provides the sparkling wit of the program through his role of master of ceremonies. The comedian is backed by a dance orchestra under the direction of William Merrigan Daly. Daly, in turn, receives the co-operation of Welcome Lewis, radio and vaudeville crooning star; Sam Herman, xylophonist, and Harold Van Embrugh, tenor.

UVENILE prodigies are, by tradition, pale, bespectacled youngsters who live the one-track lives of genius. That's why so many persons are astonished when they see Sarah Kreindler, NBC violinist.

The slim, dark-eyed girl, who looks like Saint Cecelia might have looked if she could have been persuaded to wear fashionable clothes, believes in enjoying a normal young girl's life.

She's eighteen now, but Sarah has been a "prodigy" for so long

that her unspoiled charm is a tribute to her own good sense and that of her parents.

Sarah had never even seen a violin when she first demanded to play one. Her father, a prosperous San Francisco business man, took her to Sigmund Anker, famous California teacher. Anker was enthusiastic over her keen car and immediately made her his pupil.

By the time Sarah was nine years old she was appearing professionally. She won two scholarships from the Masters School of Fine Arts, two from the Curtis Institute, Philadelphia, and was the pupil of Cesar Thompson, Samuel Gardner and Mishel Piastro.

Hugo Mariani, NBC orchestra leader, is back from Europe with a col-lection of music that is popular abroad. Mariani and his wife spent more than a month on the other side of the Atlantic, Mrs. Mariani sightseeing while Hugo collected music.

Friend-Have you a speaking part in your next picture?

Actor-No, I play the part of a husband.

Captain Flagg, who is known by reputation to readers of Mr. Broun's newspaper column over WABC, barked out his part of one of Broun's programs quite naturally, being encouraged thereto by a slice of liver. David Ross, the announcer, borrowed Broun's necktie for a leash to restrain Captain Flagg's wandering proclivities.

Talk about cool thinking! Ida Bailey Allen had "looked the town for a dinner bell for her Dinner Bell broadcasts over WABC without success. A few minutes before the scheduled broadcast one of the stores phoned to say they had a bell for Mrs. Allen. The time was so short she had a salesgirl ring the bell over the telephone, which expedient worked

perfectly.

Evangeline Adams, astrologer heard over WABC weekly, has one of the largest collections of astrology books in the world, many of them dating back to the Middle Ages. These ancient books predicted machines and modern inventions. And we had prided our generation on the invention of the safety pin, the cigaret and chewing-gum!

Charles Lyon, debonair WTAM announcer, has set up new quarters in what is known as the Beacon Hill Bohemian section of Cleveland. Lyon, after spending much energy upon his new roost, called James Church, WTAM production manager, to view the results. Church was promptly thrown out when he remarked that the suite was in perfect taste, but the chandeliers looked "early Metro-Golden-Mayer period!"

Irene Beasley, contralto heard frequently in the Ward TipTop Club programs over WABC, improves her delivery of new songs by recording three or four renditions and using a different technique for each. Playing the records at home aids her in selecting the best.

LEBERT

CARMEN

GUY

VICTOR

THE LOMBARDO BROTHERS **CBS**

USICIANS all are the four Lombardo brothers pictured above. These boys received their musical education from their father, a noted musician in their home town, Toronto, Canada.

In addition to playing right saxophone, Carmen croons, singing an aggregate of nine hundred songs a week. He wrote the tunes "Sweethearts on Parade," "Coquette," "Sweetest Girl This Side of Heaven" and "Making Time with You." Though pictured with a flute, Victor, the youngest-just nineteen, to be exact-ordinarily plays left sax. Guy is the leader and plays the violin.

The Lombardo brothers, with the other men who make up the Royal Canadians Orchestra, have formed a group of musicians who are remarkable for a number of things, notably their capacity for work. On Monday nights they broadcast the Robert Burns Panatela program; on Friday nights they form the Radio Follies Orchestra; on Saturdays there is an additional Columbia System broadcast from the Roosevelt Hotel, and every Wednesday afternoon they make disks for the Columbia Record Company.

VINGER ROGERS, who is now starring on Broadway, has finished three talkies (all of them major productions) and has realized a long-cherished ambition to become a radio top-notcher. All of which is most asconishing when you learn that she is only eighteen years of age and emerged from virtual obscurity just four short years ago.

It is assumed that the occasion which brought Miss Rogers to a realization of her abilities for succeeding on stage, screen and before the microphone was a Charleston contest won by her in Fort Worth.

At any rate, this achievement resulted in her choice of a stage career. Thereafter she played in numerous small theatres, climaxing this extensive tour with a featured part in the Broadway musical show "Top Speed," after which she signed a three-year contract with Paramount to star in the talkies.

Miss Rogers has entertained an appreciative radio audience, in her vivacious manner, on numbers of occasions, such as the inaugural Mardi Gras program over the Columbia Broadcasting System.

EORGE BEUCHLER, WABC staff announcer, left the studios on a recent rainy evening and stepped into a taxi in front of the Columbia building. His driver was one of those

talkative Jehus.
"Do ya work in the studios, Buddy?" he inquired as he skidded ex-

"Yes," said Beuchler.
"Well," said the gabby, "I was over in the Coffee Pot listenin' to the Detective Story Magazine broadcast tonight. I go in for that crook stuff, y'see, so every Thoisday I parks the boiler and listens in at this here beanery. But, bein' it's rainin', y'know, everybody's lookin' for cabs to-night, and so just as I was gettin' steamed up about this here story to-night, in walks a guy that wants a cab, and I gotta leave right in the middle of the story. So I was just wonderin' if you happened to know how it come out?"

Beuchler did know, fortunately, and put an end to the driver's suspense, as well as his own; since the chauffeur, listening to the thriller, kept his eyes on the road instead of turning to talk to his passenger.

Rosaline Greene, NBC dramatic actress, was adjudged a few years ago to have the most perfect radio voice.

Both Jessica Dragonette and Countess Olga Albani, sopranos heard in NBC programs, received their early education in convents.

Twenty-six tenors are under contract to NBC, while forty-one orchestra leaders are also under contract. Sopranos rank next in line as contract artists, with a total of nineteen. These figures, of course, do not include the dozens and dozens of similar artists who broadcast and are not under contract to the organization.

Frank Crumit met, the other night, one of New York's police, who proved a true son of Erin. He and Julia Sanderson were driving to their home in Connecticut, after the Blackstone broadcast. Far up in the Bronx they missed the right road. Mr. Crumit drove until he saw a cop, then halted

the car.
"Can you tell me the way to the Bronx River Parkway?" he asked.
"That I can," said the officer, "but

if I tell ye, will ye promise to keep it a secret?"

The South Sea Islanders, heard through stations associated with NBC, are credited with being among the first Hawaiian musicians to invade the United States. They have been in this country since before the vogue of that type of music.

T isn't hard to tell where the Boswell sisters were born.

These three pretty, dark-eyed girls who are heard in the Camel Pleasure Hour and other programs originating in the San Francisco studios of NBC, have the sunny South in their voices. Their soft Louisiana accent is part of the charm which has made them widely popular as singers ever since their high-school days.

Connie was only seven years old when she was playing the 'cello with the New Orleans Philharmonic Orchestra. She and her sisters appeared in concert as an instrumental trio consisting of piano, 'cello and violin while they were still in grade school. By the time they were high-school students they had begun vocal harmonizing, and the step from student musical activities to broadcasting from Station WSMB, New Orleans, was a short one.

By this time their parents persuaded the

three to go to private school for awhile before continuing their careers.

When they were graduated, more radio contracts were waiting for them, and they joined the staff of Station WDSU. The Victor Recording Company also signed them for a series of records. A season on the Orpheum circuit, and contracts with Vitaphone, MGM, Fox and Tiffany picture companies, have kept them busy since then.

Each of the three sisters has her own talent in radio work. Connie is said to be one of the outstanding "blues" singers, and Martha plays all the accompaniments for their songs while she sings her own part. Vet, who was christened Helvetia, but prefers the shorter cognomen by which she has always been known, is "all-around man" of the trio. She harmonizes, plays several instruments and can imitate the "plunk-plunk" of a banjo so perfectly before the microphone that even musicians occasionally are fooled.

GAY cabarets where the music of Budapest was played at its best is where Emery Deutsch spent most of his early youth, studying every movement of the musicians. The violin always fascinated him, and before he had reached the age of ten he had mastered the instrument.

Soon afterward Emery came to America, where he continued the study of the violin. In his teens he returned to Budapest to study with the great master Jeno Hubay.

The year 1925 found Emery Deutsch back in America, his musical education completed. Two months later he had formed his first ensemble, named it "The Royal Gypsy Ensemble," which later became the famous radio Gypsy Camp Ensemble, and is now the Romany Patteran Orchestra on the air weekly via the Columbia System.

Twenty-seven-year-old Emery Deutsch to-day is considered one of America's finest ensemble conductors. He is generally recognized as an authority on original gypsy music.

The artistic Arcadie Birkenholz does not stop at a mastery of the violin that delights NBC audiences, but is an authority on painting as well, spending most of his spare time in New York's art galleries.

18

It looks like the women are trying to get a "line" on their boy friends who acquired French phrases during the war. Dr. Thatcher Clark, who conducts French lessons over the CBS, avers that the bulk of his listeners are women.

18

King of jazz, Paul Whiteman, now broadcasting over the CBS network from Chicago, says that plans for Paul, Jr., age six, are rather vague at present, consisting principally of efforts to keep him out of trouble.

遍

Ben Bernie, popularly known as "the old maestro," heard with his orchestra over the national CBS network, has distinguished his stage and radio performances as much by his dry wit as by his fine musicianship.

앭

Studio associates of Miss Annette Hanshaw, CBS blues singer, are skeptical. She is displaying a bowl of miniature fish from an admirer (so miniature, in fact, as to be barely visible), which she says are called "guppies" in South America. One of the force tried the dictionary before remembering that Spanish is the language most prevalent in South America. So Annette has them guessing.

溪

The blindness of Augustin Duncan, dramatic director of the Radio Home-Makers' Club, is proof of the fact that, when one sense is impaired, the others are quickened. He is able to greet any member of the staff by name after hearing the voice but once. The other afternoon at teatime a Radio Home-Maker greeted him with "Good afternoon, Mr. Duncan," just as his twelve-year-old daughter affectionately placed her arms around her father's neck. Fortunately, the young lady who had extended the greeting was equal to the occasion.

2

Judge O'Flaherty — Haven't you been before me before?

Prisoner—No, y'r honor. Oi niver saw but one face that looked loike yours, and that was a photograph of

an Irish king.

Judge O'Flaherty—Discharged!

Call the nixt case,

Around The Samovar

THE "talkies" have found another star although Peter Biljo, appearing in a new Paramount release, has demonstrated for many years, and on a wide scale, his qualities of musicianship and showmanship.

Bilio himself attributes his greatest success and satisfaction to radio, as witness the following, his personal message to readers of WHAT'S ON THE AIR:

"For twenty years I have faced many audiences of every possible kind, but during the past two years of reaching out to the radio audience through the Columbia network I have realized a deeper pleasure in the expressions of appreciation that come through the letters of radio fans.

"With the fan mail come letters from Russians and from the children of Russian parents born in this country; from nativeborn Americans who have never been in Russia and never saw a balalaika. The great

radio audience in all parts of the country has had an opportunity to learn the moods and traditions of Russian music as they could learn them in no other way.

"My mail has been burdened with requests for words and music, or for explanations of various dances and melodies. To answer these questions, I am publishing a collection of the folk songs and dances that have been played by the Samovar group.

friendly, and with us is the unseen guest, sharing the cup of tea around the samovar, sharing the varying moods and rhythm of Russian folk music.

"It is my hope to make the radio audience familiar with all that is best in the music of the Russian people."

"As I face the microphone in the studio of the Columbia station, in imagination I am part of the friendly group that gathers 'out there' to listen. The spirit is intimate,

TWO years ago a program official of the Columbia Broadcasting System, wishing to introduce a new feature to the network, went to the Russian Bear Restaurant in downtown New York in search of an old friend, Peter Biljo. And thus was a delighted public introduced to "Around the Samovar" and "In a Russian Village."

Biljo was born in Leningrad. When he was about to finish his studies at the gymnasium, he horrified his parents by expressing a desire to be a musician. They decided to send Peter to South Russia to continue his education.

Hearing of a man who wanted to send a balalaika orchestra to the United States, Peter presented himself and assembled a troupe, which he brought to America.

Then followed years of vaudeville tours, work for the movies, arranging, synchronizing and directing the music that accompanied

For three seasons Biljo played at the Russian Bear in the winter, and in the summer at the Cincinnati Zoo.

She—So, when you were on your holidays, where did you stop at?

Her—Nothin', dearie, nothin'.

There are fifteen orchestra leaders on the NBC payroll. Their music ranges from the popular renditions of Andy Sanrella's men to the classical efforts of Walter Damrosch and Cesare Sodero.

Letters from Inglewood, Tarnaki and Gishorne, New Zealand, have been received by Station WBAL, reporting reception of the fine Baltimore sta-

Wilfred Glenn, bass of the Revelers, heard in many NBC programs, was born on a Western ranch and spent his early youth at sea. Which is tak-ing the "wide open spaces" with a vengeance.

Once each week Olga Serlis, leader of the Parnassus Trio, the Three Little Maids and other NBC instrumental groups, gets a poem from a listener in Illinois. It would be easy to wax poetic over Olga.

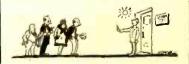

Sign in a restaurant: Eat herediet home.

The average life of a popular song, according to Ozzie Nelson, whose or-chestra is heard over the Columbia network from CBS, is only about two weeks. Continual use by scores of orchestras over the air is responsible for this high mortality rate.

"I'm Following You" is the sentiment of CBS when a really fine artist travels from the chain's Mecca, WABC. Ben Bernie is wintering with his orchestra in Chicago, but CBS gets his broadcasts nightly through WBBM.

Bob Spudy, control-room operator in the WABC Radio Home-Makers' studios, has found a new use for his switchboard apparatus. In the after-noon, when he flashes the light in the kitchen studio, Nancy, the cook, knows that Bob is hungry and gets him something to eat.

Even though the radio artist may indulge in a bit of temperament, punctuality must be strictly observed, which applies also to the radio audience. A group entering WABC's studios one minute past nine were not admitted to the True Story broadcast, and one of them admitted: "We just wanted to see if you meant what you said.

UST had a pleasant chat with Miss Helene Handin — no; Miss Marcella Shields was not there; not anywhere, in fact, because she is now Mrs. Bruce Mc-Namee. However, you need not look sad about it, because Helene says she is going to be adamantine in holding Marcella down to earth long enough for these Two Troupers to put over their regu-

lar Wednesday night NBC broad-

Helene admits, though, that she will give a sigh of relief when the novelty of Marcella's Long Island apartment wears off a bit. Just "listen in" to Helene's version of her first visit to the "sanctum sanctorum."

"The place is most attractive, so in I walked, greeting the blushing bride with:

"'Hello, Marcella dear! I came over to write that NBC script. Oh, this is a cute place. O-o-oh, let me look!'

"'Wait until I put on the light, so you can get the right effect to appreciate my interior decorating. Now . . . isn't that better?' chirped my girl friend.

"Oh, I suppose every woman 'falls' for this sort of thing anyway. Marcella's keen at this interior-decorating business, so I volunteered: 'Oh, yes . . . huh . . . it's quite large, isn't it? Where'd you ever get that odd lamp? It looks upside down.'

"'That's a real ship's lantern and came off a whaler and we got it in Maine.' I hadn't expected the pedigree of the thing.

"'It does look sort of seasick.' Which was a catty remark of mine, but you know the old saying about keeping truth down. But Marcella's bright mood refused to be clouded and she continued on:

"'And this is the living-room."

"And how appropriately named livingroom; it fairly radiates the joy of living, and

so I confided to my hostess:

"'My! my! how attractive, all in colonial. Who did your drapes?'

"Here another pedigree broke loose.

"'Would you believe it, I had to make them myself? I went to department stores, upholsterers, all over New York, and they wanted to take so long and couldn't understand how I wanted them designed, so I . . .

"'So you made 'em, all right; omit the details. Let me see the bedroom. Oh, that is nice . . . I like it . . . early American furniture makes me feel patriotic.' I knew this would do the trick; one can't possibly find as much to gush over in a bedroom as in a living-room.

"'I like it, too . . . that's why I bought it. See that stool in the clothes closet? I painted that myself. I have to step on it to reach my hats.'

"'That's what you get for being "halfpint" size. Well, let's get started writing that sketch for next week; we've got a lot to do. Now, I thought . . . ' Now, I think nothing about it; I know the little vixen was ignobly keeping me from any work that afternoon, for here she played her trump card: 'Oh, sure, but aren't you hungry? I think we better eat first, and, besides, I want you to see my kitchen.'

[Continued on page 47]

AMBERT MURPHY might have been a physician or a business AMBERT MURPH) might have been a physical and a glee club in college. The college was Harvard, and Murphy eventually became president of the glee club.

Less than three years after his graduation from college Murphy was given a three-year contract by the Metropolitan Opera Company. After his three seasons there he went into concert and recital work, graduating from that into broadcasting.

The boy who might have been a doctor now sings almost ex-clusively before the microphones of the National Broadcasting Com-He is a member of the American Singers, and as such has appeared on many of radio's most popular programs.

During his concert days Murphy appeared in practically every city in the United States. In addition, he has made thousands of phonograph records.

He is a brother of R. D. Murphy, vice-president of one of the largest insurance companies in America. The singer lives in New York and indulges in hunting and fishing when opportunity affords.

"Yes, We Have No Bananas," is sweet music to the ears of Ed Thorgersen, NBC announcer. Years ago Thorgersen worked on one of the United Fruit Company's ships and served bananas to this country in thousand-ton lots. He will cross the street to avoid a meeting with this tropical fruit.

Like the movies, radio embraces the romantic. At National's studios we inquired into the history of that most engaging young continuity writer, G. H. H. Montgomery-Mitchell, and learned that he is the son of a bishop in Great Britain, and, further, he has resided in just about every corner of that great empire. Our curiosity whetted, we gleaned that Serge de Somov, engineer for NBC, is the son of a former Russian diplomat, and during his boyhood lived in Korea, Japan, Persia, Roumania and Turkey.

A longsuffering public will be elated over the declaration of Kathryn Meisle, contralto operatic star, who has broadcast over the National network, that songs should be sung in no other language than that spoken in the country where the songs are presented.

The "last word" in NBC's studio sports is that of the announcers, who get together and tackle each other with a battery of tongue-twisters that would make ordinary mortals turn gray.

At the age of nine, Darl Bethmann, popular NBC baritone, was a professional contralto soloist.

Officer (wearily) - Now, Smith, you've already had leave because your wife was ill, because your little girl had measles and because you had to attend the christening of your young-What-er-what is it this time?

Private Smith - P-please, sir-I-I'm going to get married.

Harry Salter, who directs the Wallace Silversmiths over the Columbia network, bemoans his lost childhood. "I took my first violin lesson," says Harry, "from a man in a cabaret who charged me thirty-five cents. The last lesson I took was from Prof. Leopold Auer, and for one-half hour of his tutelage I paid sixty dollars."

Author-What do you think of this script? Give me your honest opinion.

Studio Mgr.-It's not worth any-

Author-I know, but tell me anyway .- Pathfinder,

The Curborundum Band is featured each Saturday at 9 p. m., on the Carborundum program.

Bert Lown's dance orchestra from the Biltmore is heard over the CBS chain at 11:30 p. m., Monday; at 5:30 p. m., on Tucsday and Thursday, and at midnight on Friday and Saturday.

R ADIO'S only "advice to the lovelorn" program isn't that kind of program at all. It is a "heart and home" program. Peggy Winthrop conducts the program Thursday, Friday and Saturday mornings through a wide network of stations associated with the National Broadcasting Company. Her mail, mounting as high as twenty-five hundred letters per week, represents a cross-section of woe and home tribulation in this country seldom revealed.

At least three of these listener problems are solved during every radio program, precaution being taken to conceal the identity of those seeking help. The remainder of the letters are answered in person.

Peggy Winthrop broadcasts her program twice each day she is on the air, once for the benefit of Eastern listeners and again an hour later for a Western network. Peggy's sympathetic voice introduces each problem that is to be solved, and in most cases a cast of able actors interprets the problem and its solution, making the listener a part of the program. An orchestra provides musical interludes.

Peggy Winthrop's program is given through the co-operation of Lever Brothers, manufacturers of Lux.

Mrs. McCarthy (speaking over back fence)—What ud you do if yor husban' raised cain about cold coffee o' mornin's?

Mrs. Flaherty (indignantly) - I'd make it hot for him!

On count, Lee Sims, "wizard of the ivories," was found to have presented 275 selections in fourteen days, with no "repeats." However, Sims appears in three weekly local programs at WBBM, on WABC's "Chicago Variety Hour," and over the Columbia Farm Community network.

When the name "Joan" was decided upon for the feminine character in "Raising Junior," daily feature, it marked the second time in her microphone career that Aline Berry has used that name in a major broadcast series. She was "Joan" in the Old Man Donaldson programs during the winter of 1929-1930.

Phil Spitalny and his seventeenpiece orchestra, which is booked by the NBC Artists Service, and now

A new favorite at WLW is RUTH KESSLER, recently arrived from Leipzig, who sings and accompanies herself on the lute. Weeks ago WLW received a letter from Germany containing Miss Kessler's picture, letters of praise from German radio program directors and a request for a WLW audition from Miss Kessler herself. WLW was delighted to feature her when she arrived in Cincinnati late in November.

Over six feet tall, blond, with blue eyes, with a tenor voice that won him the Wisconsin Atwater Kent audition for two consecutive years, although he is just twenty-one, how could STANLEY MORNER escape the radio announcers' role? The Milwankee "Journal" station, WTM1, has been after him ever since he graduated from college last June. He is WTM1's newest artist-announcer—popular not only in music, but in sports circles, for he has been a star player on the gridiron.

Buffalo's police commissioner, AUSTIN J. ROCHE, is a full-fledged radio actor. As part of his policy to lay stress on crime detection as well as crime prevention, he supervises the writing of a weekly crimelogue based on Buffalo crime records and illustrative of various ways in which well-intending people often are inveigled into crime careers. And when the production goes on the air Friday nights over WKBW, of the Buffalo Broadcasting Corporation, Roche portrays the lead role.

One of the few really great band ensembles to be heard on the air is the Armco Band which plays over Station WLW every Thursday night at 9 p. m. The leader is FRANK SIMON, not only an able conductor, but one of the greatest of cornet players.

London Waiter—Did you say 'am and heggs, sir?

American—No, I haven't been over here long enough for that yet.

選

Hallowe'en Martin, KYW's "Musical Clock" girl, was obliged to forego a number of her broadcasts due to a severe cold, which occasioned a flood of phone calls from admirers who were alarmed at her absence from the microphone.

谜

CBS artists can't escape the eye of the control man now! A system of mirrors has been installed in WABC's studies which enables the men at the controls to see all corners of the studio, two of which had previously been invisible to them.

緩

Phil Dewey, baritone of the National Broadcasting Company, tells us that he started his professional career in a small way. At the age of four he sang "Old Black Joe" from the high seat of a road grader, his reward being a nickel from the foreman. He estimated his income last year to be \$50,000.

Even the dog, a Chesapeake Bay retriever, in the Richard Maxwell household, is a perfect gentleman. Out for a stroll the other day, he came upon a scrambled mass of dogs and one kitten. Leaping into the center of things, he rescued the kitten and then presented it to his master. Maxwell, who sings tenor over the National network, reports that the dog and kit-

28

ten are the best of pals.

A modern novelist says: "Thirty is the proper age for a woman." Well, if she isn't proper by that time, she probably never will be.

寒

Robert Woolsey, Radio Pictures' featured comedian, never seems to become serious—even at mealtime he must have his joke.

While at luncheon in the studio restaurant, Chef Kuhlman approached Woolsey's table with clasped hands and a beaming expression, and exclaimed: "Ah, Mr. Woolsey! To-day you will try some of my special baked Barracuda Andalouse? Yes?"

"Nope!" replied Woolsey. "I'll just take the Barracuda."

選

Wife—John, I'm so disappointed.
John — What's the matter now,
dear?

Wife—Here it is your birthday and you forget to bring me home a present to give to you.

RUDY WEIDEOFF and his famous pupil, RUDY VALLEE, play a saxophone duct, while ALICE WEAVER, dancer protege of Ann Pennington, keeps time.

T is no more necessary to underline a picture of Rudy Vallee. Every one seems to know what he looks like and all about him. Whatever has been the promotional scheme of Vallee and his radio sponsors, there is no question that it has been thorough.

Just the other day the ubiquitous commuter overheard a conversation running something like this (feminine voice speaking): "What, you have never heard Rudy Vallee!!"

Even the big baby magazine WHAT'S ON THE AIR has made mention of Vallee in eight different monthly issues, due to the demand of his appreciative listeners.

Vallee and his type of music appeal to a distinct class of people—it can not be denied it is a large class—although Rudy's programs are purely and simply designed for entertainment alone.

Excellent judgment has been employed in the selection of the guest artists who make their appearances with the Connecticut Yankees on the every-Thursday Fleischmann (NBC) broadcast; among these have been Kate Smith, blues singer extraordinary; Molly Picon and Irene Bordoni, French favorite. And, of course, the inimitable Graham McNamee is master of ceremonies.

RADIO is assuming a definite place in the educational field, according to the results of a recent survey of National Broadcasting Company programs, which revealed that approximately fifty hours of broadcasting time are devoted each month by that organization alone to purely educational programs.

Many of these programs are arranged through the co-operation of various educational units, while in others NBC is going ahead on its own account. In most instances the programs styled educational were selected because of their general appeal to both schoolchildren and adult listeners.

Forty-four such programs, embracing fifty-two hours of program time, were heard through stations associated with NBC during the month of December. They ranged in type from the NBC Music Appreciation Hour, directed by Walter Damrosch, and the Radio Guild series of dramas, to talks on a wide variety of subjects, including current events, aviation and science.

Most of these programs are arranged by Miss Margaret Cuthbert, in charge of NBC speech bookings.

98

Bill—How many controls on your radio?

Jack—Three: my mother-in-law, wife and daughter.

災

Speaking of the modest violet, listen to this, overheard in WABC's studios:

"The best talent on the air," argued Harry Vonzell, CBS announcer, who hails from Los Angeles, "came originally from California."

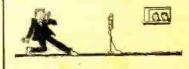

"The devil I did!" retorted Harry Swan, character actor.

98

Carolyn Cornell, beauty specialist of the Radio Home-Makers' Club, which broadcasts over the Columbia-WABC network, reached home the other night and discovered that a burglar had turned her apartment upside down. The only article she missed, however, was a china porcupine, the emblem of Louis XII., from the chateau country of France.

继

"Smiling Billy" Mason, the Eno Rooster, first faced the mike in Detroit ten years ago, when he spoke into an ordinary telephone with a parchment cornucopia attached. When he saw a real mike the other day, he had the worst attack of mike fright reported around the Columbia studios for a long time. For the first time in years he missed his golf for two weeks, and he passed four nights without any sleep. Yet Mason has been in the show business—circus, stage and screen—for more years than he cares to remember.

The Secret of Following

By ARTHUR MURRAY,
America's Foremost Dancing Instructor.

Four Exercises Which Will Help to Strengthen Those Muscles
Which Are Used in Ballroom Dancing.

THE object of these exercises is to train the muscles which are used in dancing. I have found that many of these exercises, in addition to teaching the person to dance, also serve as aids in developing the figure to the ideal form. That these exercises also make one graceful goes without saying.

I.

This exercise is one of the best to develop grace of body in social dancing.

Stand with heels together, hands at side.

Step sidewise on right foot to right, and draw the left foot behind right, as shown in the illustration. At the same time bring hands in the position shown. Sway to right.

Then step with left foot to left and bring the

right foot up to left. Sway to left.

Use three counts of waltz music for each swaying movement. 1, 2, 3, to left; 4, 5, 6, to right.

II.

So many people who are really good dancers make a bad appearance on the ballroom

floor that I am tempted to give them an exercise which will remedy the cause of looking slovenly while dancing, and at the same time relax the muscles of the back.

This exercise will also make you hold your head up high and take the stiffness out of

your back, if you practice it faithfully.

Begin each exercise by standing erect, with hands at sides and heels together. Then assume the position as shown in the illustration.

Music is not necessary. You can practice to waltz tempo by counting: 1, 2, 3. Do not bring your feet together again until after the third beat. III.

To make your feet look well, train their heels to always come together as in this illus-

tration. The toes should be turned out . . . the knees should touch one another.

On the count of one, kick your right foot as far backward as possible; on the count of two, bring your heels together so that the knees touch and toes are turned outwardly.

Repeat the same

movement with the left foot. Pose in front of a mirror and observe the position of your feet when they come together.

IV.

One may often dance well when taking a forward or backward step, but the side

movement frequently acts as a stumbling-block. That the second step in each waltz measure is a side step proves the importance of this movement in social dancing.

Simply extend one foot to the side and raise it as high as possible, as in the illustration.

To gain a good sense of equilibrium, keep the body erect. Practice this exercise ten times with one

foot; then repeat with the other foot.

Rise on the toes of the foot carrying the weight.

If you have no phonograph or radio, count 1, 2, 3, 4, in lieu of music. Raise foot, 1, 2. Lower foot, 3, 4.

Every minute Phillips Carlin, NBC Eastern program director and announcer, can snatch from his duties is spent fishing. Carlin's collection of tackle is considered the most valuable in radio.

災

Both Harold Sanford, NBC lightopera conductor, and Paul Oliver, Palmolive tenor, once nourished ambitions to be locomotive engineers.

986

When flying in warm weather, Elinor Smith, noted woman aviator and only woman announcer on NBC, wears athletic "shorts" similar to those affected by girl basket-ball players. Which is possibly an indication of what styles in woman's dress will turn to in 1940.

188

Despite the fact that he's noted now for his drawl, Bill Munday, NBC football talkster, was called "Bullet Bill" because of his rapid delivery when he first faced the microphone five years ago. And he is still regarded as among the few announcers capable of adequately keeping up with a basket-ball game.

溪

Jessica Dragonette, of the NBC Cities Service Hour, received so many Christmas cards from the radio audience that half a dozen bushel baskets were required to carry her cards from the studios to her home. She answered every one.

災

Mail from the radio audience to its favorite artists was much heavier during 1930 than in the year previous, according to Miss Adelaide Piana, in charge of NBC's private post-office. For some months the volume of incoming correspondence was almost double that received during the same months in 1929, her report shows.

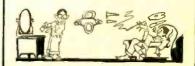

200

John Young, NBC announcer, Yale graduate and "buddy" of Rudy Vallee, claims not to have missed a Yale-Harvard football game in ten years. The same goes for Yale-Harvard basket-ball games, baseball games and all major athletic competition.

送

First Student—I wonder how old Mrs. Pittypacker is?

Second Student—Quite old, I imagine. They say she used to teach

THE National Broadcasting Company has inaugurated a twenty-six-week series of educational broadcasts, embracing the

all time, with the leading roles enacted in many instances by the actors and actresses most prominently identified with each play.

outstanding plays of

Under the general title of Radio Guild, the series will be heard each Friday afternoon from 4 to 5 o'clock, E. S. T., throughout the winter.

A coast-to-coast network of stations associated with NBC is broadcasting the series. The plays, selected from the reading-lists of secondary schools and colleges throughout the United States, are planned as an extracurricular course in dramatic literature. Each broadcast will last an hour.

Such stars of the legitimate stage as Margaret Anglin, Tom Powers, Eva Le Gallienne, Dudley Digges, Margaret Kennedy and Basil Rathbone, to mention only a few, have been or will be identified with the series. The plays in the series include such classics as "Iphigenia in Aulis," "Twelfth Night," "The Doll's House," "The Green Goddess," "Milestones," "Lady Windermere's Fan," "Mr. Pim Passes By," "Hamlet," "The Melting-pot," "Beau Brummel," "Romeo and Juliet," and others. Several of these have already been presented.

A special microphone adaptation of each play to be presented is made by Vernon Radcliffe, veteran of the stage and screen, who directs the programs.

The same cast of Broadway and microphone actors who played in the original Radio Guild programs on Wednesday afternoons are heard in the current series, in addition to the guest stars. They include Florence Malone, Charles Webster, Alfred Shirley, Guy Kibbie and Charles Warburton.

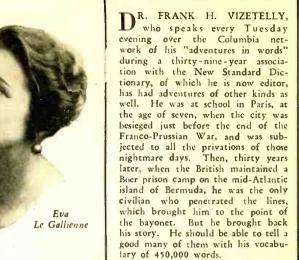

In announcing the inauguration of the educational series, John W. Elwood, vice-president of NBC, said:

"Two years ago the National Broadcasting Company undertook its first experiment in strictly educational programs with the Music Appreciation series of concerts under the direction of Walter Damrosch. Through our combined coast-to-coast networks we put the program into over fifteen thousand schools and within hearing of an estimated five million students. The success we hoped for was most definitely achieved.

"With the new Radio Guild series we hope, through the co-operation of schools, colleges and the students, to achieve the same or an even greater objective. Every play to be presented has been selected from the reading-lists in English literature. Their importance in acquainting students, who know drama only from the printed page, with great plays and great actors, is inestimable.

"It is our hope and expectation that the reaction to this broadcast series will in every way equal in the dramatic field the success of the Music Appreciation series."

What, then, could have been more fitting than the vehicle chosen to inaugurate this "drama appreciation" series? The presentation of Euripides' classic, "Iphigenia in Aulis," marked the first time for early Greek drama to find its way to a radio network!

"Believe It or Not" Ripley, NBC fact expounder, was asked if there was any chance of his running out of material. Ripley replied that, should he stay in his own home for four years, drawing continuously, he could not exhaust the material now on hand.

You have only to watch Mary Charles, La Palina soprano, sing in order to understand why her voice can convey so wide a range of emotion, according to David Ross. Feeling a part and acting it as well constitute one great secret of radio success, he says. Apparently on the verge of tears one moment, shining with happiness the next, Miss Charles' face runs the gamut of expressions demanded by the song she happens to be delivering.

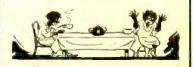

Most of the men who preside over the control panels in Columbia's monitor rooms are either musicians or know how to read music. By following the score of a program, they are enabled to cut down power to the microphones a split second before the players sound an especially loud passage.

Georgia Backus is studying the science of graphology in her odd moments. She's said to be learning so fast that none of the Columbia staff is safe in writing his name while she's about. The things an odd twist to a letter or a missing dot to an "j" indicate to Miss Backus are always surprising and generally dismaying to the subjects of her analyses.

Liza—Dey says dat dat young niggah Exodus Johnsing done got a terrible position wiv de army.

Mandy—Is dat so? What sort ob er position is it?

Liza—Why, dey says he's done attached to a flyin' corpse.

CAST OF NBC's "RADIO GUILD" AT INAUGURAL BROADCAST

Left to right: Charles B. Tramont, announcer; Wright Kramer; Adele Ronson; William Shelley; Cesare Sodero, director of orchestra; Margaret Anglin; William S. Rainey, production manager; Charles Warburton; Marjorie Gateson; Vernon Radeliffe, director of the series; Florence Malone; Alfred Shirley; Charles Webster; Katherine Proctor and Olive Reeves-Smith.

HELENE CARLIN was singing at a football game when Chief Eskimo Harry Reser, of Clicquot fame, overbeard ber. He recognized her voice as peculiarly adapted to radio and arranged for an audition which resulted in her microphone debut as guest artist on the Clicquot Club Eskimo program.

HOWARD PETRIE, one of NBC's more recent additions to its announcing staff, is perhaps the chain's tallest announcer, standing six feet four inches. Like most successful announcers, Petrie had distinguished himself in musical circles before coming to radio. NBC called him from WBZ in Boston.

ETHEL MERMAN, one of Broadway's favorites, now playing in "Girl Crazy," has learned her way over to 711 Fifth Avenne quite well of late. She has proved herself a popular guest artist.

Recently Roxy's Gang program featured one of Roxy's discoveries, JOSE SANTIAGO, Filipino baritone. Santiago is the first native of the Philippines to have found success in operatic roles, in American musical circles at least.

EDNA WALLACE HOPPER, for more than forty years one of the most spectacular actresses of the American and English stage, and who at the age of more than sixty looks like a girl of twenty-three, may be beard each Tuesday and Friday afternoon at 2:30, E. S. T., from the NBC Times Square theatre studio in a presentation of the now "Affiliated Super Features of the Air," telling American women the secrets of her youth. Miss Hopper has just returned from Paris, where within the last few months, despite her age, she has mastered the extreme acrohatic technique of one of the most strennous dances known—the Russian Ballet. She is shown above in one of the movements of the dance, photographed on board the "Homeric," when she returned from France with her dancing partner, Fernand Grip. Miss Hopper was introduced in her first broadcast by her theatrical manager, William Morris, who booked Miss Hopper over thirty years ago as the original star of the "Florodora Girls."

Ray Perkins, NBC's Old Topper, actually wears a high hat before the microphone.

端

"Truly I Love You," theme song for Phil Spitalny's broadcasts over Station KYW, has been published and is available to the public.

1

The longest single wire ever stretched to a network station by the Columbia Broadcasting System is that one extended to carry the chain's programs to Station WDSU, New Orleans.

Among interesting recollections of Brooks and Ross, WLW harmony team, is the one of a certain smart London party at which the Prince of Wales sat by their piano for two

光

hours, asking for favorite songs.

This country, says Henry Burbig, whose epics in dialect are heard over the Columbia System, is not what it used to be—and never was. He bears the assertion out with this tale:

Last winter he drove far into Connecticut in search of rabbits. Far out on a dirt road Henry and his shooting companion decided they had lost their way. They stopped a few minutes later at one of those lonely and bleak farmhouses that dot the New England hills and a quince-faced old man answered Mr. Burbig's knock.

swered Mr. Burbig's knock,
"Pardon me," the latter said, "but
can you direct me to Litchfield?"
"Hah?" the old man inquired.

"I said, can you direct me to Litch-field?"

"Hah?"

Henry, irate by this time, turned to his companion, and, as he often does, relapsed into dialect.

"Here I'm lust in de furrest and 'Hah?' he geeves me. So, am I crazy? Leesten, kirro kent you hirrifg so good to-day or where is de whereabouts from Litchfield?"

"I hearing O. K.," said the old man, suddenly animated. "So why you dunt tukking h'Eengleensh befurr'? You wanting to go to Litchfield, you should luking by de lafthand side from de rud' a rad skulhouse."

寒

Cullud Pastor—Brederen, we must do something to remedy de status quo.

quo.
"Brudder Jones, what am de status quo?"

quo?"
"Dat, my brudder, am de Latin for de mess what we's in."

By Joseph R. Ator

NEW Year Day. East of the Rockies, a grand day to enjoy an open-grate fire and the radio. But out at Los Angeles a day of sunshine (you'll never hear of it if it isn't), a green gridiron beneath a warm sky, a roaring multitude in the great Rose Bowl.

Alabama against Washington State! The pride of the South pitted against the giants from the Northwest who swept one after another of the great teams of the Pacific Coast down to defeat before them. As a spectacle and as an exhibition of straight football, the last game of the 1930 season should place a fitting climax on the year.

Perhaps because they are accustomed to

playing the whole season long before shirtsleeved crowds, Coach Wallace Wade's crimson tide are likely to give a better account of themselves in the warm turmoil of the Rose Bowl than have other challengers from the East. Their previous record in such games is unapproached by that of any other invader.

Both chains will bring the broadcast to you. You can choose between Ted Husing's crisp facts on Columbia, and Gra-

ham McNamee's poetic color over the NBC outlets.

Since the Army-Navy game on December 13 was for charity, both of the chains gave their broadcasting services. The fee of the Philco radio people, who were the sponsors of the program over the NBC chain, also went to charity, and, in addition, the company announced the sale of fifteen hundred of its sets, the receipts, expected to exceed \$110,000, to go to the Salvation Army.

In spite of the valiant efforts of this column—can it be that those grasping fight promoters don't read it?—the boxfight persons seem to be winning out in their fight to exact a goodly cash payment for the privilege of broadcasting their shows. It comes on good authority that the NBC folks paid a formidable sum for the exclusive privilege of putting the Canzoneri-Singer fight, in which Tony rocked the lightweight crown off Al's brow in two minutes, on the air.

That, of course, means but one thing in the long run. Broadcasting the big fights, if this practice continues, will soon be the exclusive privilege of the chains. No single station can afford to pay \$10,000 or more to put its microphone at the ringside in a championship bout.

And it may be a short-sighted policy on the part of the fight people. With racketeers, gangsters and fixing politicians playing the unwholesome part which they now do in the boxing "game," the time may come—

and that soon — when the chains won't be bothered to join in the ballyhoo.

If you're good at DX tuning, you can follow the professional hockey games this year. In Canada, where the sport has its foundations and whence it draws all of its stars, the stations can give it time in their evening programs. In the United States its public is apparently not great enough as yet for

the broadcasts to force their way in among chain programs. At Chicago, KYW, which followed the Blackhawks last year, found other programs made it impossible to do so this season. Other stations in the United States have met the same obstacles, although you may get an occasional hockey broadcast over them.

Basket-ball meets the same obstacles which lie in the way of hockey. It is an evening sport, and the public, aside from college and university alumni who follow their own teams, has not taken the interest in the sport that it has in collegiate football.

Play for the Eastern Conference title started last month. The Big Ten, Missouri Valley, Big Six and Southern Conference get going after the Christmas holidays. The two chains promise that they may step in, in February or March, for some of the title-deciding games.

WILLIAM C. "Bill" MUNDAY, "the Georgia Drawl," did exceptional work on the Notre Dame-Southern California game.

NOTRE DAME and Harvard have a majority representation on Ted Husing's All-Radio Football Team for 1930. Husing, chief sports announcer on the Columbia network, has chosen his team exclusively from colleges whose games he described play by play from start to finish. Husing knows football as a former star player as well as an observer.

His selection follows:

End	Harding	Harvard
Tackle {	Bowstrom	Navy
(Price	Army
Guard	Kassis	Notre Dame
Center	Siano	Fordham
Guard	Metzger	Notre Dame
Tackle	Trafford	Harvard
End	Elcewicz	Fordham
Quarterback	Carideo	Notre Dame
Halfback	Crickard	Harvard
Fullback	Clark	Pittsburgh
Halfback	Schwartz	Notre Dame

"In a season where team play counted most," says Husing, "and where individual brilliance was unmistakably on the wane, this selection, while heavily overbalanced with Notre Dame, Harvard and Fordham players, was made after continued study and weighing of the relative merits of each man, including consideration of opponent, opponent's team strength, defensive and offensive play, and strategical effectiveness.

and strategical effectiveness.
"I trust that the hundreds of fans whom I know will disagree with my selection will remember that this is not an All-America team, in the strictest sense of the word. It's my own particular All-Radio team. I have not picked my line-up on the strength of their showing through the season, but on the strength of what I saw them do in the games I broadcast."

George Beuchler, WABC announcer, tells of what proved the "grand finale" of his musical career. Three years ago he, as announcer for a Washington station, was called upon in an emergency. With no music at hand, all he could venture was, "Yes, We Have No Bananas," which he played through repeatedly before help arrived.

He had been to a stag dinner and his wife wanted to hear all about it

when he got home.
"Well," he said, "one rather odd
thing occurred. Jim Blankton got up
and left the table because some fellow told a story that he didn't approve of."

"How noble of Mr. Blankton," exclaimed the wife; "and what was the story, John?"

The most famous tonsils in the world caused Graham McNamee to miss two scheduled football broadcasts for NBC during the past grid season. And enabled him to hear the first radio account of a football game in his life.

BACK ON THE AIR . . . THE U. S. SERVICE BANDS This one, of course, is the U. S. Army Band, led by Capt. William J. Stannard.

LAST-MINUTE ANNOUNCEMENTS

(Continued from page 9)

is carried by WWJ of Detroit. The time is 5 to 6 P. M., E. S. T.

In addition to the Paramount Public Radio Playhouse program Tuesday nights, at 10:30 P. M., E. S. T., Paramount has launched a mid-day program Mondays, Wednesdays E. S. T., over WEAF and associates. and Fridays over WABC only. The new series comes from the Paramount Organ Studio, and is entitled "Paramount on Parade."

NBC has a second outlet in Cleveland. On December 15, WGAR, 500-watt station on 1,450 kilocycles, began to carry the programs released through WJZ. As we announced last issue, WGAR is a consolidation of WFJC of Akron and WCSO of Spring-

Auction Bridge Game, sponsored by the U. S. Playing Card Company, may be heard over WEAF and associated stations every Tuesday at 4:30 P. M., E. S. T.

A new program series, to be known as "Rodeheaver Sings," is broadcast each Wednesday and Saturday evening from 8 to 8:15,

"Tiny" Berman, the big boy of the Merry Madcaps dance band of Station WTIC of Hartford, has a bone to pick with WHAT's ON THE AIR, maintaining that, by quoting his weight as 270 pounds, his favorite radio mag did him out of almost one hundred pounds. "Tiny" wishes it known that he tips the scales at 365. "Why," exploded the world's biggest bass viol player, "they're trying to make a shrimp out of me!"

ARY HOPPLE'S rich contralto voice enriches the Chase and M Sanborn Choral Orchestra program, heard every Sunday over a coast-to-coast NBC network. She is also the featured contralto of the Armstrong Quakers, heard weekly over the same network, and is

widely known and admired in every section of the United States.

It was no less a personage than Madame Schumann-Heink, who years ago commented on the fine quality and great possibilities of Mary Hopple's voice.

She is the daughter of Dutch parents and was born twenty-four years ago in Lebanon, Pa.

In order to acquire the necessary musical education, Miss Hopple went to New York, where she worked as a clerk in a bookstore while she pursued her studies.

Just one audition at the studios of the National Broadcasting studios, two years ago, won her a place among the leading contraltos

She has received all her musical education in America.

There are fan letters and fan letters. Read this one received by "Be-lieve It or Not" Ripley, of National's

'Colonial Beacon Lights" program:
"My wife and I have always been interested in unusual things. We have not missed a circus in the Jast thirty Freaks, curiosities, and the like, hold a peculiar fascination for us, and now we would like to see you, Mr. Ripley."

Radio broadcasting isn't always what we think it is. Oddly enough, although Bernie Cummins has been directing dance music over the National network for years, he has just paid his first visit to the broadcasting studios.

And now Kathleen Stewart, NBC staff pianist, has hibernated with the rest of them. After preparing her garden for the coming cold months, she has deserted her home up the Hudson for a New York apartment.

The "understudies," or the "scrub" orchestra, but in studio jargon properly the "stand-by" orchestra, is that patient group of musicians whom you will see waiting in the Columbia System studios for hours each day in apprehension of the prearranged day's schedule going awry.

The Weed Tire Life Savers quartet on the Columbia chain meets three times a week in a Broadway pingpong parlor, where the four spend an hour or two playing doubles.

And here's a story of a telephone girl who got Ted Husing's number, at least. The Columbia sports reporter had just given his number over a booth phone when the operator asked: "Pardon me, but aren't you Ted Husing, the radio announcer?"

David Ross, WABC announcer; has received the following letter from an Indian admirer, George Custer Yellowhorse, who refers to the Coral Islanders series:

"Last year Indian listen many moon to your programs. He like very much, and so listen again this year. year he like, too, but he not hear waves. Why you not have wave noise any more? But Indian like anyway, and wish good luck to great White Brother Ross, who read poetry. Also to men who play music Indian like.

RADIO ACTIVITIES FORETELL PROSPERITY

(Continued from page 3)

Other program sponsors who have definitely renewed their contracts for the new year include the manufacturers of Chase and Sanborn coffee; of Iodent tooth paste (assuring the continuation of radio's "Big Brother Club"); the Bristol-Myers Company, which means the Ipana Troubadours and the Ingram Shavers; the Procter & Gamble Company and the Heinz Company, the NBC announcement said.

Another important renewal, from the listener standpoint, is that of the RCA Radiotron Company, which not only affixed a signature to a dotted line, but changed its broadcast schedule to a twiceweekly basis with an entirely new show. Such stars of the radio heavens as Welcome Lewis and William Merrigan Daly are heard in this series, to say nothing of Arthur "Bugs" Baer, well-known humorous writer.

Just to show their disbelief in anything resembling an economic depression, the Pepsodent Company several months ago signed an option on an NBC broadcasting contract for five years. This arrangement runs into millions and guarantees Amos 'n' Andy for the microphone.

About the same time the American Tobacco Company was not only going through the formality of a new contract, but was buying two additional hours of NBC time. During 1931 B. A. Rolfe and his dance orchestra have three dates every week with radio listeners all over the United States.

The Atwater Kent Hour is another program that is assured for months to come, as are most of the other outstanding programs on the air, NBC officials say.

ACROSS THE BORDERS

FLOYD GIBBONS' LATEST

Dozens of letters have been received asking when Floyd Gibbons is on the air. Turn to page 10, the red figure 8's at 9:30 indicate stations carrying him in adventure stories on Sunday nights. On page 46, red figure 3's indicate General Electric Hour (Saturday nights from 9 to 10), during which Floyd Gibbons tells of adventures in science.

"RADIO'S 'SWAN' SONG-STER"

(Continued from page 13)

lines (if he was a dancing star), and in payment received a ham sandwich-without mustard.

Be that as it may be, I still insist that I was wrong, for versatility brought its own reward, and the law of compensation did its stuff. To-day, while ye actor who only "acts" appears in one or two productions per week, Swan appears in twenty.

There are lots of actors—it's surprising how many people come from all points of the compass, firmly convinced that they are God's gift to radio—and verily many call, but few are chosen—but there's only a few versatilists. The answer is that, openly or incognito, the ether finds Mr. Swan disturbing its waves often three or four times a day. The "Jack of all" practices his "trades" in "Arabesque," "Flying Stories," "Showboat,"" Nit Wits," "Land o' Make Believe," "Show Folks," and a lot of etceteras. If you've listened to radio, you've heard Harry Swan. There are few sketches with more than six actors in the cast-if you hear ten, the other four are Harry Swan.

Yea, the Jack of all trades has come into his own. Versatility has become a Golconda. He's got a bank-book now, and this Christmas nearly every kid from the battery to the Bronx received a present from "Uncle Harry." May he never sing his "Swan" song. Radio needs more like him.

THE "TWO TROUPERS"

(Continued from page 29)

"And weakly enough I replied: 'I could inhale a few groceries. What have you to offer?'

"Delilah had won; the sketch could be 'cut'; but sometime later past discipline would not be ignored, and I ventured this time right into the script:

"'Now, I was thinking we could be waiting in a railroad station and it is cold . . .

"But Marcella was staging a real revolt. Said she: 'Cold? What's cold? Oh, you mean the sketch. Yes, it could be cold. That reminds me, Helene, do you think that pot of hanging ivy should be left near the window?'

"'Maybe,' thought I, 'I'd best let the tide have its sway.' And so on and on into the afternoon. At last I made the final attempt:

"'Marcella,' I burst forth, 'for the last time, I insist that we get started on that script. We've wasted the entire afternoon. Get the typewriter and we'll start.'

"'Oh, Helene! It's after four o'clock and you've got to catch the 4:18 if you want to keep that five-o'clock date in New York!"

Verily, "heroes are made, not born."

THERE'S nothing else like Las-Stik Polishing Cloth. Saves hours of work. Picks up dust. Doesn't scatter it.

To bring back original beauty of floors, wood-work, furniture, simply wipe with Las-Stik Polishing Cloth. No greasy film. Harmless to finest finish Approved by Good Housekeeping Institute.

Also use for cleaning your car without soap and water. Ic a wash. Makes frequent polish-ing unnecessary. If your dealer can't supply, we'll mail postpaid for 50c. The Las-Stik Manufacturing Co., Hamilton, Ohio.

Happy Man-Shay, waiter, find my hat.

Waiter-It's on your head, sir. "Don't bother, then; I'll look for it myself."-London Answers.

That ninety-year-old New Jersey man who says he hasn't drunk a bit of water for forty years might be surprised if he knew how much of the stuff they are putting into the milk and moonshine nowadays.

Paul-Ah cain't stan' up; mah corns hurt so.

Al-Why don't yo' do sumpin' foh 'em?

Paul-D2 ain' nevah done nuthin' foh me-why should ah do sumpin' foh dem? 390

It was customary for the congregation to repeat the twenty-third Psalm in unison, but invariably Mrs. Spiel-fast would keep about a dozen words ahead of all the rest. "Who," asked a visitor of an old church-member one Sunday, "was the lady who was already by the still waters while the rest of us were lying down in green pastures?"

"George, dear, are there any fashions in that paper?"

"Yes, but they're out of date-it's the morning paper."-Elmira Beacon Light.

Waitress-Hawaii, gentlemen! You

must be Hungary.

First Man—Yes, Siam. And we can't Rumania long, either. Venice lunch ready?

Waitress-I'll Russia to a table. Will you Havana?

F. M.-Nome. You can wait on

Waitress-Good! Japan the menu yet? The Turkey is fine.

F. M.—Anything at all. But can't Jamaica little speed?

Waitress-I don't think we can Fiji that fast, but Alaska.

F. M.—Never mind asking any one!

Just put a Cuba sugar in our Java. Waitress-Sweden it yourself! I'm

only here to Servia. F. M.—Denmark our bill and call the Bosphorus. He'll probably Kenya.

I don't Bolivia know who I am. Waitress-No! and I don't Carib-

bean. Youse guys sure Armenia. Boss-Samoa you wisecracks, is it? Don't Genoa customer is always right? What's got India? Do you think maybe this arguing Alps business?

Customer-Canada racket! 'Spain in the neck.

W. WILLIAMS, production man at CBS, can boast of experiences that would prove savory to the most adventurous soul. Following his graduation from Leland Stanford University, the brilliant record begins. There was first a business assignment of railroading in northern China, then work in Russian oil-fields.

This man's history next unfolds in the interior of Uruguay, where we find him prospecting for gold and cured of malaria by Yaqui Indians. He punched cattle in the Argentine; fought with Carranza in Mexico; was captured with nine other men by the Villaistas and sentenced, with them, to be shot.

Lined up against the wall, there was a desperate break for life and liberty, resulting in Williams, with six others, escaping and losing themselves on the Jose Desert.

Service throughout the World War made of this modern Jason a major of aviation.

As a pioneer in the radio field, Mr. Williams has served Stations WMAQ, WJZ, WGN, KDKA, and now CBS.
