Prince George, Quesnel, Williams Lake, 100 Mile House, Smithers, Burns Lake and Vanderhoof. The company also has a number of repeaters: Hazelton, Houston, Granisle, Fraser Lake and Fort St. James. Shepherd says he will stay with the new company as GM of the Cariboo and Central Interior stations... **Newcap Inc.** has **CRTC** approval for the purchase of **CIZZ-FM/CKGY-FM Red Deer** from **Corus Entertainment**. The deal's expected to close within 60 days... **Statistics Canada** says private radio performance in 2004 saw air time sales increase at a slower pace than in 2003 – 3.3% in 2004 compared to 8.4% in 2003; private radio broadcasters' profit level varied according to market size -- PBIT reaching 21.9% in large markets, 14.9% in medium markets and 13.4% for small markets... A **CKTF-FM Gatineau** parody of the **Lakota** TV commercial for arthritis pain relief products didn't sit well with at least one **Canadian Broadcast Standards Council** complainant. It was a mock interview with the "Lakota Indian" played by one of the program hosts. The other hosts asked questions. A listener said the parody was discriminatory but the **CBCS** concluded that while the sketch did present some stereotypical commentary regarding aboriginals, it was primarily a parody of the TV commercials rather than an abusive attack on aboriginals. Hence, it did not violate the *Human Rights* clause of the **Canadian Association of Broadcasters'** (**CAB**) *Code of Ethics*. The complete decision may be found at www.cbcs.ca ... **Sony BMG Music Entertainment** has agreed to pay \$10 million US and to stop paying radio station employees to feature its artists. New York Attorney General

Eliot Spitzer had suspected “pay for play” practices and said Sony BMG has agreed to hire a compliance officer to monitor promotion practices. He says the investigation showed Sony BMG paid for vacation packages and electronics for PDs and also paid for contest giveaways for listeners, paid some expenses of radio stations and hired middlemen to provide illegal payments to radio stations to get more airplay for its artists... Meantime, prompted by the New York deal, **FCC** Chairman **Kevin Martin** has launched his own investigation into radio stations taking bribes from music labels to play specific songs... **CKRM Regina** has extended its contract for the play-by-play broadcast rights for the Saskatchewan Roughriders for the next 10 years... **My Broadcasting Corporation**, which owns and operates **CHMY-FM Renfrew**, has won **CRTC** approval for another FM'er in nearby Pembroke. open a broadcast and performance studio in downtown Toronto (Avenue Rd. and Davenport Rd.). The facility will be the home base for CSR's English channels... **Standard Radio's** application to flip **CHOR 1450 Summerland** to FM was denied by the **CRTC**. The Commission said approval would have resulted in Standard operating three stations with effective coverage in the Penticton market... **K-Rock Edmonton** aired a 3-second clip of **Alice Cooper** saying “No More Mr. Nice Guy”, over and over again, during a 12 -hour period from Noon until Midnight – promotional hype for Cooper's new overnight show on the station, **Nights With Alice Cooper**. The legendary 57-year-old shock-rocker's show is heard on about 60 stations in the US.

SIGN-OFFS: **Peter Jennings**, 67, of lung cancer in New York. Jennings, the Canadian-born network anchor for five decades, announced last April that he had the disease. While he said then that he would continue to do the **ABC Evening News**, he managed only to go to the office between chemotherapy treatments. He never again appeared on the air. His father, **Charles Jennings**, was the first person to anchor a nightly national news program in Canada and later became head of **CBC's** news division. Peter Jennings began his career at **CFJR Brockville** and quickly earned an anchor job at **CTV**... **John Campbell**, 66, of cancer at Sault Ste. Marie. She had been with CHFI for 15 years before being fired in June of 2003. Her co-Host (**Mike Cooper**), not identified by CHFI because of contractual obligations to **CJEZ-FM Toronto**, won't start until late October... Veteran **CKNW Vancouver** broadcaster **John Ashbridge** has hung up his headphones, resigning full-time newsroom duties. Ashbridge started at CKNW in May, 1965, and – aside from some short stints elsewhere – spent more than 36 years reading news at the station... Succeeding **Blair Bartrem** as PD at **MIX 99.9 Toronto** is **Karen Steele**, promoted from her Promotions Director's job at **Standard Radio Toronto**... **Kathleen O'Keefe** has joined **Global National** as Assignment Manager. Her immediate background involves two years as Domestic Assignment Editor for **CTV National News**. Before that, she was Assignment Editor for **Canada AM** and Associate producer for the **Jane Hawtin Live** TV talk show... **Pat Hurley** has joined the **Foxy 88.5 Toronto/Newmarket** sales department in an Account Exec role. GENERAL: A new **Ipsos Reid** poll suggests that the Internet is threatening to overtake TV, with the gap between the Web and TV usage closing. The survey shows time spent by Internet-using Canadians is up 46% since 2002, now averaging 12.7 hours per week (up from 8.7 hours). And the Internet increase appears to be at the expense of radio. Typical Internet-using adults in Canada spend 11 hours weekly listening to the radio, down from 16 hours in 2002. But TV is not immune despite remaining the Number One media source for Internet-using Canadians. The gap is closing. The 18-34 demo surfs 14.7 hours per week on average, compared to 11.7 hours listening to the radio, 11.6 hours watching TV, and 2.5 hours per week reading newspapers. Ipsos Reid says Internet-using Canadians turn to different sources depending on their news and information needs. The Web is used more to look for specific news and information such as health and travel information, while TV tends to be used more for general news and information such as weather and national and international news... **Canadian Media Guild** members at the **CBC** have voted 87.3% in favour of strike action to get "a fair contract". A work stoppage could come by the middle of this month.

TV/FILM: The deed is done at **CHUM Television's** conventional stations. Former **A-Channels** in Calgary, Edmonton and Winnipeg have been re-branded as **Citytv** while **The New** stations at Barrie, Ottawa/Pembroke, London, Wingham and Windsor have become A-Channels... A year ago, **WBBH-TV** and **WZVN-TV Ft. Myers-Naples** were being applauded for their exceptional wall-to-wall coverage of Hurricane Charley. Now, the **FCC** has fined the stations \$24,000 each because some emergency warnings were given orally -- without the required visual presentation -- over the course of the emergency broadcast (eight days). The station owners insisted they did provide emergency information for the hearing impaired with on-screen displays and a crawl. While some items were not described visually, the stations said such information may have been "useful" to hearing impaired viewers, but not critical. One example cited by the FCC was when a newscaster announced that the causeway from Sanibel Island had been closed. That information, says the FCC, was not repeated in visual form. The FCC cited three instances of failing to provide visual emergency information and fined each station \$8K for each one.

Some **CBC** competitors have boosted ad budgets while others have hired new staff in an effort to grab CBC listeners and viewers now affected by the corporation's lockout of 5,500 employees. **CTV's Newsnet** added roughly 12 people while promoting the fact that the Atlantic version of the **CTV National News with Lloyd Robertson** is on Newsnet at 10 p.m. ET. **Global Television**, meantime, had ads in newspapers last week promoting its national supper hour news... The sales are also an attempt to reduce debt and focus on its radio business... A study has found that 30-second ads on TV are more persuasive than product placement, that branded entertainment still has a long way to go when it comes to influencing people to buy products. Researcher **FIND/SVP** says consumers would be twice as likely to buy a product as a result of seeing a TV spot, with 52% saying they would buy a product after being exposed to a TV commercial. Only 23% would do the same from a branded entertainment experience... Rapper **Jim Jones'** music video for the song **Baby Girl** has not been added in rotation on **Much Music**. RADIO: With the federal government delaying the introduction of legislation that would provide a copyright exception for transferring music into a format broadcasters can use, the **Canadian Association of Broadcasters** says it's concerned that the feds have "once again turned a blind eye to the needs of Canada's private broadcasters".

Further, says CAB President/CEO **Glenn O'Farrell**, when Bill C-60 was table last month, it "not only failed to address this important issue, it also opened the door for more transfer of format payments." Canada's private radio broadcasters already pay more than \$43 million in copyright fees annually. Since 2003, radio stations have been required to pay an additional \$7 million in copyright fees for the simple act of transferring a digital copy of a song onto their hard drives. No new use is made of the music; no additional revenues are generated. The government had promised the broadcasting industry over the course of many years that it would provide true exceptions from copyright liability for these types of "technical reproductions". Many other countries, including the US, grant exceptions to their broadcasters to facilitate such reproductions... **CHUM's CKLY-FM Lindsay** (Kawarthas) has moved to the **91.9 BOB FM** format. Previously is was AC formatted and ID'ed as **Y92**.

OPS: The community FM licence approved for Blucher, SK – as reported in last week's edition – has no connection to **Elmer Hildebrand Communications Inc.** Hasty input lead to an inaccurate report.

REVOLVING DOOR: **Slawko Klymkiw**, the Executive Director of Network Programming at **CBC TV** is leaving after a 25-year career with the public broadcaster. Klymkiw says he's resigning to pursue an unspecified opportunity. He will be succeeded at the end of the month by **Eva Czigler** who moves into an "acting" position... **Mike Blake**, GSM at **Rogers' CHYM-FM/CKGL Kitchener**, moves to GSM at **The Fan (CJCL) Toronto**. Former The Fan GSM **Linda McErlain** is now GSM at **680News (CFTR) Toronto**... **Corus Cornwall** GM **Tim Wiczorek** moves to **Corus Kingston** as GSM beginning Sept. 1. Succeeding him at Cornwall Sept. 1 is **Scott Armstrong**, former PD at **640 (CFYI) Toronto**... **Casey Clarke** is new PD at **The New Country 95.3 (CING-FM) Hamilton/Toronto**. He had been Director of Programming for **CMT**. He will, however, also hold Director of Music Programming duties at the **Corus** specialty channel as well as Director of Music Development at **Max Trax**, CMT's sister channel... **Mike Wilson**, former PM Driver at **Country 105 (CKRY-FM) Calgary** and - most recently - Morningman at **CHQR Calgary** - moves Sept. 6 to **The New Country 95.3 (CING-FM) Hamilton/Toronto** as Morning Show Host... **JOE-FM Kingston** Morning Host **Shannon Dicks** is no longer with the station... **John Beaudin** has earned the PD position at **The Breeze (CIQX FM) Calgary** after holding the "interim" title for a short while. He remains Host of afternoon drive.

SIGN-OFF: **Bill Harcourt**, 80. He had been a **CBC** Producer and Reporter/Editor, a **Canadian Press** Reporter/Editor in New York covering both the United Nations and Broadway, and a North American desk Editor for **Reuters** in London. He's best known for his days as a Writer/Line-up Editor at **The National** (CBC) and as a documentary Producer/Executive Producer for such CBC-TV shows as **Newsmagazine**, **Thursday Night** and **Marketplace**.
