SINGLES AND ALBUMS  
BY TONY BROWN

WITH A FOREWORD BY

THE COMPLETE BOOK OF THE BRITISH CHARTS  
BY TONY BROWN, JON KUTNER & NEIL WARWICK  
FOREWORD BY PAUL GAMBACCINI

"Co-compiled by Tony Brown, the former researcher for the 'Guinness Book of Hit Singles', The Complete Book of the British Charts is the most informative and accurate reference work on the UK charts ever published. The book is an alphabetical listing of every artist ever to have reached the UK single, EP and album charts from when the charts began in the 1950s - previous books have limited themselves to either the singles or the albums.

"In these days when the singles charts are merely advertising media for the big record companies, and when records can hit the top ten without making any impact whatsoever on the public consciousness, it's nice to know that there's still somebody dedicated enough, painstaking enough and just plain daft enough to carry on the great tradition of chartology, which started - we modestly claim - with the publication of our first book in 1977. Tony Brown was our assistant, prompter and often the entire workforce on over half the books we produced in twenty years of unexpectedly successful publishing, and we all hope that the public now recognises what we've known for years: that Tony Brown is the man who understands the charts better than anybody else in the game. Buy this book!"

Jonathan Rice (brother of Tim, and one of the original Guinness Book team)

"Even if your bookcases at home are already groaning under the weight of countless music books, you have absolutely no choice but to find room for this book. It'll rescue you from all those nights you waste lying awake trying to remember what was number one the week you were born, prove invaluable when you want to spend a rainy night in at home up-grading your knowledge of music trivia and of course, turn you into the kind of smart ass who terrorises late night dinner party conversation because you know every chart placing since rock 'n' roll began. In short: you need this book."

Nick Johnstone, author of the Melody Maker History of 20th century Popular Music and UNCUT columnist.
