**1954**

# INDEX

January to December

1954

	Page		Page
<b>A</b>			
A.C. Voltage Stabilizers, by W. M. Dalton	310	Introduction to Valves	85
A.C. Voltage Stabilizer, An, by R. G. Ackland	143	Introductory Circuit Theory	461
Amplified-Torque Clutch, An, by R. Voles	13	Kempe's Engineers' Year Book, 1954	174
(Letters to the Editor)	132	Laplace Transforms for Electrical Engineers	510
Amplifiers, Starved, by G. E. Kaufer	498	Low-Frequency Amplification	281
AN-5 Casting Resin	26	Magnetic Amplifier	129
Analogue Divider, A Simple, by J. L. Douce	155	Magnetic Amplifiers	40
(Letters to the Editor)	412	Magnetic Amplifiers and Saturable Reactors	418
Apparatus Design, Minimizing Contact Potential in, by E. C. J. Marsh	148	Mechanism of Economic Systems, The	418
Arc Voltage Drop Measurements on Grid-controlled Mercury Rectifiers, by T. H. Barton and F. A. Benson	406	Methods of Theoretical Physics	175
Atomic Hydrogen in the Research Laboratory, by R. L. F. Boyd and N. D. Twiddy	78	Microwave Lenses	176
Attenuator Design, by N. H. Crowhurst	76	Microwave Spectroscopy	327
<b>B</b>			
Batching Counter, A Cold Cathode, by P. E. Tooke	160	Modern Electroplating	417
Batching Counter, An Industrial, by R. W. Brierley	157	Nuclear Physics	41
<b>BOOK REVIEWS</b>	40, 84, 128, 174, 220, 280, 326, 372, 416, 460, 508, 556	Optical Workshop Principles	328
Advances in Electronics, Volume IV	220	Oscilloscope at Work, The	510
Amplification and Distribution of Sound	373	Physics and Applications of Secondary Emission	462
Applied Electronics Annual, 1953-1954	281	Physics of Experimental Method	418
Automatic Digital Calculators	84	Power System Transients	557
Automatic Voltage Regulators and Stabilizers	462	Practical Electrician's Pocket Book 1955, The	129, 558
Battery Chargers and Charging	281	Practical Television Circuits	557
Cathode Ray Tubes	460	Present State of Physics, The	556
Circuit Theory and Electron Devices	174	Principles and Practice of Radar	175
Data and Circuits of Television Receiver Valves Book IIC	461	Principles of Electronics	128
Die Laplace—Transformation und ihre Anwendung (The Laplace Transformations and its Application)	85	Principles of Physical Optics	462
Einschwingvorgänge Gegenkopplung, Stabilität Theoretische Grundlagen und Anwendungen (Transient Phenomena— Counter Coupling, Stability—Theoretical Principles and Applications)	417	Principles of Mass and Flow Production	509
Electrical Contractor's Annual	461	Principles of Transistor Circuits	326
Electrical Earthing and Accident Prevention	328	Probability and Information Theory, with Applications to Radar	176
Electrical Engineers' Reference Book	462	Proceedings of the National Electronic Conference, 1953	510
Electron Optics	558	Progress in Nuclear Physics, Volume 3	374
Electronic Musical Instrument Manual, The	220	Radioactivity and Radioactive Substances	86
Electronics	556	Radio Engineering	41, 129
Electronics—Physical Principles and Applications	372	Radio Receiver Design	280
Faster than Thought	86	Relays for Electronic and Industrial Control	460
Fields and Waves in Modern Radio	374	Rocket Propulsion	462
Fluorescence Analysis in Ultra-Violet Light	510	Rotating Amplifiers	372
Four-Place Tables of Transcendental Functions	221	Rutherford, By Those Who Knew Him	509
Fundamentals of Electronic Motion, The	280	Servo Mechanisms	328
Guide to Audio Reproduction	221	Simultaneous Linear Equations and The Determination of Eigenvalues	281
Faster Than Thought	86	Small Transformers and Inductors	84
High Voltage Laboratory Technique	373	Soft Magnetic Materials for Telecommunications	176
Industrial Electronic Engineering	327	Static Electrification	327
Industrial Electronics	372	Statistical Methods of Electrical Engineering	327
Industry and Science	461	Technical Aspects of Sound	84
Instrument Manual, The	40	Technique de la Television	176
Insulation of Electrical Equipment, The	418	Television Antennas and Converters	175
Introduction to Ultra-High-Frequency Radio Engineering	221	Television Engineers' Pocket Book	557
		Television Engineering Principles and Practice	85
		Television Receiver Servicing	508
		Text Book of Radar, A	557
		Thermionic Valves, Their Theory and Design	416
		Transistoren-Wirkungsweise, Eigenschaften und Anwendungen (Transistors—Mode of Action, Properties and Applications)	558
		Vacuum Tube Oscillators	128
		Vector and Tensor Analysis	510
		Wireless and Electrical Trader Year Book, 1954	328
		Year that made the Day, The	129
<b>C</b>			
Capacitors, The Zinc Coating of Paper for, by Vacuum Evaporation, by L. Holland and K. Hacking	296		
Charges and Currents, Induced, by W. E. Benham	366		
Circuits and Logic, More about, by T. L. Craven	302		
Clipper with Automatic Mark-Space Ratio Control, by A. B. Johnson	364		

	Page
Cold Cathode Counting Tubes in Cascade, The Use of, by D. T. Whelan	118
Cold-Cathode Scaling Unit, A, by C. D. Florida and R. Williamson	186
Colour Television	320
Colour Television Broadcasting in the U.S.A., by C. G. Mayer	342
Commonwealth Radio Communication Services, by D. Scott	224
Communications in the Antarctic	503
Computing Components, A Review of Magnetic and Ferro-electric, by V. L. Newhouse	192
Conductimetric Tube for Chemical Analysis at Low Frequency, A Simplified Circuit and, by G. G. Blake	316
(Errata)	368
Counter Batching, Multi-Channel, by P. Huggins	308
Counting Tubes, Decimal, by K. Kandiah	56
Count-Rate Meter, A, by E. W. Pulsford	356
Coaxial Standing-Wave Indicator, A, by F. A. Benson and G. V. G. Lusher	534
(Letters to the Editor)	552
Current Stabilizers for Electromagnets, Direct, by M. W. Jervis	429
<b>COMMENTARIES</b> . . . . . 1, 45, 89, 135, 179, 223, 283, 329, 375, 419, 465, 513	

**D**

Dampometer, The, by C. O. Olsson and K. Orlik-Ruckemann	420
D.C. Amplifiers, Methods of Amplifying and Measuring Small Direct Currents and Potentials, by J. Yarwood and D. H. Le Croissette—	
Part 1 . . . . .	14
Part 2 . . . . .	64
Part 3 . . . . .	114
(Letters to the Editor)	369
Desk Audiometer for Research Work	210
Detector Cars, New Television	455
Diffraction Gratings in Industry	213
Digital Calculating Machines, Valve Reliability in, by L. Knight	9
Digital Computer Circuits, The Selenium Rectifier in, by A. D. Booth and A. D. Holt	348
Digital Computer, The Design and Construction of the Manchester University, by K. Lonsdale	376
Direct Currents, The Measurement of Very Small, by M. W. Jervis	100
(Letters to the Editor)	412
Divers' Intercommunication Equipment, Development in	8
Driven Clamp in the Presence of Noise, The, by P. B. Helsdon	315

**E**

Electrical Backlash Circuit, An, by C. H. Banthorpe	110
Electrical Measurements at Centimetre Wavelengths, by J. W. Sutherland	46
Electro-Magnetic Counter, A High-speed, by G. H. Townend	211
Electronic Multiplier, A Simple, by K. H. Norsworthy	72
Electrophoresis in the Valve Industry, by L. E. Grey and R. O. Jenkins	402
Empirical Transient Formulae, for Systems with Flat or Peaked Frequency Responses, by Z. E. Jaworski	396
Epoxy Resins, by R. A. Johnson	136

<b>ELECTRONIC EQUIPMENT—</b> . . . . . 82, 130, 170, 214, 324, 370, 414, 456, 506, 554	
A.C. Ammeter, Differential	555
Aerial Multi-Coupler (Type PV 95)	458
Airborne Communication Equipment, STR.12D 140-Channel V.H.F.	459
Airborne Communication Equipment, STR.20 560/623-Channel V.H.F.	459
Altimeter, FM Radio	459
Amplifier, Computer	415
Amplifier, Computing	459
Amplifier, L.R.F.	325
Amplifiers, Magnetic	215
Amplifier, Wideband Audio	554
Amplifier, Wide Band Distributed	215
Anode Connectors, V.H.F.	507
Antenna Pattern Recorder, Type E.59	215
Attenuator, Midget	131
Attenuator, 100db Step	555
"AVO" High Voltage D.C. Multiplier	170

"AVO" Valve Tester, Type 160	170
Balancing Machine, Strobodynamic	554
Berco Rotary Regavolt	171
Blowers, Air	507
Bridge, Incremental Inductance	215
Bulbs, L.E.S. Pilot	414
Capacitor Power Factor Measurement	131
Capacitors, Ceramic	172
Capacitors, Duconol	171
Capacitors, Electrolytic	170
Capacitors, High K Ceramic Dielectric Varnish Protected Tubular	170
Capacitors, "Flimoseal" Silver Mica	173
Capacitors, Silvered Mica	554
Capacitors, Super Tropical Paper Tabular	171
Capacitors, Variable	83
Cathode-Ray Tubes, Square Faced	217
Ceramics	171
Ceramic, Faradex H	173
Ceramic, Frequentite S	173
Ceramic Terminal Seals	171
Composition Element Potentiometers	415
Connectors and Retainers, Valve Top Cap	83
Control Lock, Pre-Set	457
Control Monitor, Type SM.252	324
Counter, Electronic	173
Cracked Carbon Resistors	325
C.R.T. Miniature	216
C.R.T. Photo-Recorder	507
Current Detector, Alternating	215
D.C. Amplifier, Vibrating Capacitor	415
Decade Capacitor Box	173
Discriminator Transformers	456
D.M.E. Interrogator, New	216
Dual Channel Stabilised H.T. Unit	214
Electrometer Voltmeter	324
Electro-Manometer	173
Eyelets	131
Fasteners, Panel	83
Filters, Variable Frequency Cut-Off	171
Fuse Holders	173
Fuses	214
Gauge, Electronic, Type 1106	458
Generator, Type P.G.96, Two-Tone	458
Gilderphone	172
Glass Bonded Mica	173
Helical Membrane Coaxial Cables	172
Hermetically Sealed Germanium Diodes	172
High K Disks	172
High K Tubes	173
I.F. Transformer	555
Inductors, High Q	415
Intensity Meter, Television Signal	83
Intercommunication Equipment, Aircraft	82
Ionization Test Set, A.C.	172
Knobs, "Bembridge Series"	415
Lampholders, L.E.S.	173
Line—E.H.T. Scanning Transformers	131
Loudspeakers	370
Measuring Equipments, Field Strength and Radio Noise	82
Megohmmeter	173
Metal Film Resistors	173
Metallized Polystyrene Capacitors	173
Metallized Terminals	370
Meter Tester	173
Microdens, Miniature	215
Microwave Instruments	173
Miniature Lead-Through Capacitors	214
Monitor, Hand and Clothing, 1319A	415
Monitor, Radiation	506
Motor Controller, Electronic	507
Mounts, Anti-Vibration	555
Multi-range Meter, Electronic	173
Multi-Channel Tuner	414
Oil, Transformer	172
Omni-Directional Sound Diffuser	217
Oscillator, Low Frequency Decade	414
Oscillators, Audio Frequency	215
Oscillator, S-band	457
Oscillator, Vibration	217
Oscillator, X-Band	414
Oscilloscope, Cathode-Ray	214
Oscilloscope, Model 1058	555
Oscilloscope, Servo and General Purpose	82
Oscilloscope, Type XT.316	457
Packaged Computer F.P.C.1, New	457
Packaged Computer F.P.C.1	171
Permanent Magnet Focusing Unit	170
Pick-Up Head, Acos HGP.35-1	217
Plug-in Counter Units	171
Plugs and Sockets	370
Polarograph	173
Polythene Insulated High Impedance Coil	172
Potentiometers, Midge 2-Watt Wirewound	554
Potentiometers, Miniature and Sub-miniature	325
Power Relay, Miniature	130
Power Supply, Twin Stabilized	555
Power Supply Unit, Klystron	414
Power Unit, Stabilized	415
Pre-amplifier, Television Masthead	458
Preselector, Type PV98 and PV98A, 5-Channel H.F.	172
Pre-set Carbon Potentiometer, Miniature	215
Pulse Analyser, Type N.101	82
Pulse Generator, Rotary	172
Push-button Switches	554
Quadrant Meter	459
Radar, Precision Approach Airfield	456
Radio Aid Unit, General Purpose	216
Recorder for Two Variables	130
Recorder, Duplex Quick Response	506
Recorder, Miniature	371
Relay, Mercury Switch	507
Relay, Miniature	324
Relay, Electronic	171
Rheostats	171

	Page		Page
Scaling Unit, Type 1221B	216	High Voltage Sawtooth and Rectangular Wave Pulse Generator, by W. D. Edwards	36
Screened Quad Cables	173	Human Heart-Rate, Continuous Recording of the, by W. E. Boyd and W. R. Eadie (Letters to the Editor)	330 505
Selective Amplifier-Detector, Type D-669	216		
Shock Absorbent Packing	131	I	
Signal Generator, Television	371	Image Amplifier, Marconi	497
Signal Generator, TF 801a/1	457	Impedance Matching Arrangement, A New	291
Signal Generator, TF 995A, F.M./A.M.	457	Impulse Noise Generators, Simulation and Measurement of Ignition Interference for Tests on Sound and Vision Receivers, by M. V. Callendar	200
Signal Generator, Type D.1/D	170	Industrial Television, Cheaper	440
Signal Generator, U.H.F.	507	Infra-red Photocell, A New	365
Signal Generator, V.H.F.	325		
Silvered Mica Capacitors	172	L	
Soldering Head, Automatic	172	Ladder Network Composed of $n$ Similar Elements, The Voltage Ratio and Output Impedance of a, by T. S. Fox and K. R. Sturley	447
Soldering Irons	325	Leak Detector for Evacuated Vessel, A Differential, by D. A. Lundberg	436
Sound Level Indicator, Type 1408	170	LEO, Lyons Electronic Office	162
Spectrometer, Infra-red	370	LEO, Lyons Electronic Office— Part 1, History and Technical Description, by J. M. M. Pinkerton and E. J. Kaye Part 2, Operation and Maintenance, by E. H. Lenaerts Part 3, A Checking Device for Punched Data Tapes, by E. J. Kaye and G. R. Gibbs	284 335 386
Spectrometer, One-third Octave	217	Low-Pass Filter with a Continuously Variable Cut-off Frequency, A, by J. W. Thompson	120
Stacked Foil, Miniature	172	Linear Accelerator, A 15MeV for Medical Use	527
Standardizer, Ferrous Metal	506	Linear Servo Systems, Step to Frequency Response Transforms for, by L. C. Ludbrook Part 1 Part 2 Part 3	27 51 122
Strain Gauge Bridge, Automatic Balancing Three-Channel	456	Linear Servos, The "Least Squares" Criterion Applied to, by R. Voles	452
Strain Gauge Bridge, Automatic Self-Balancing	456	Low Power M.F.-H.F. Communications, Naval, by J. R. Humphreys	272
Strip Connectors, Multiple	371		
Switch, Heavy Duty	325	LETTERS TO THE EDITOR—	42, 80, 132, 177, 218, 282, 322, 369, 412, 504, 552
Switch, Minibank	171	Alternating Current Stabilizer, An	133, 218
Switches, Micro-Sensitive	170	Amplified-Torque Clutch	132
Switches, Multi-Contact	325	Amplifier, A Simple Low Frequency	80
Switches, Rotary	171	Amplifier Output Impedance, Multi-stage	553
Tacometer, Electronic	414	Amplifiers, High-Speed Magnetic	323
Tandem Dual Concentric Spindle Carbon Track Volume Control	172	Anode-Follower Type Circuits, Output Impedance of	552
Television Detectors	324	Amplifier, Wideband Audio	554
Tester, Audio	216	Circuit for Moisture Measurement, A Simple	218
Testing Set, 10kV Insulation	457	Characteristics of Mazda Diode 29c1	133
Test Set, TF 982, V.H.F.	82	Characteristic of the Temperature-Limited Diode, Type 29c1	42
Test Set, Quartz Crystal Activity	506	Count-Rate Meter Circuit, A	552
Tetrode, U.H.F. Transmitting	173	D.C. Amplifiers	369
Toroidally Wound Potentiometers	415	D.C. Amplifiers, A Negative Supply for	413
Transformers	216	D.C. Stabilized Supply, 1.5V. 1A	81
Transient Photometric Unit	371	D.C. Efficiency Radio Frequency E.H.T. Supplies, the Design of	505
Transceiver, Lightweight	507	High Efficiency Radio Frequency E.H.T. Supplies, the Design of	553
Transistor, Junction	172	Human Heart-Rate, Continuous Recording of the Equivalent Q of R.C. Networks (Errata Notice)	177 219 369
Transistors	130	Frequency Shift Diplex	177
Transistors, Point-contact and Junction-type	459	Germanium Diodes, High Frequency Effects in	177
Transmitter, G.142	458	Instrument Cable, Noise-Free	42
Transmitter, G.143	458	Low-Power Microwave Attenuators, A Comparison of the Properties of Certain Materials Used In	80
Transmitter-Receiver, High Power	457	Microphony in Voltage Reference Tubes	219, 322, 412
T.R. Cells	171	Organ, Wurlitzer	132
Triodes	172	Ratiometer, A Pulse Frequency	412
Twist Prong Multiple Miniature Units	170	Stable Multivibrator, A	504
Twist Prong Single Miniature Units	170	Ten-Volt Effect With Oxide-coated Cathode	282
U.H.F. Piston Attenuator, Type A.57	170	Theoretical Transistor Symbol	322
Ultrasonic Thickness Gauge, Type 1101	170	Transistor Performing the Dual Function of Rectification and Amplification for Chemical Analysis at Radio-Frequencies	504
Units "Polymicro"	170	Transistor Symbol	177
Valve Retainers, Cat. No. VR.A.6	171	Trigger Circuit by a Contact, Setting a Very Small Direct Currents, The Measurement of	177 219, 412
Valve Retainers and Extracting Tongs	131		
Valves	172	M	
Valve-Voltmeter, Feedback	130	Magnetic Amplifiers and Some New Developments, High Speed, by A. E. Maine (Letters to the Editor)	180 323
Voltage Regulator, Automatic	371	Magnetic Amplifier, An Even-Harmonic, by P. D. Atkinson and A. V. Hemingway	482
Voltage Stabilizer	324	Magnetic Amplifiers, Three-Phase High-Speed, by A. E. Maine	514
Wafer Switches	172	Magnetic Delay Units, Measuring the Accuracy of, by G. Jamieson	203
Washers, Locking	83		
Wave Analyser, Type 853	214		
Wave Correlator, Type D-727A	217		
Waveguides, Electroformed	325		
Wide Band Oscilloscope Mk.II	217		
Wire-Wound Resistors, "Precisor" High Stability	171		
Wire-Wound Resistors, Resin Encapsulated Precision	173		
Wiring Jigs	171		

## F

Flight Simulators for Canada	105
Frequency, Improvements in U.S.A. Primary Standard of Frequency-Shift Diplex, by S. C. Heward (Letters to the Editor)	428 268 369
Frequency-Shift Keying and Radio Teleprinter Systems, Developments in, by A. G. Williamson	260

## G

G.E.C. Laboratories for Semiconductor Research and Development, New	474
Germanium Diodes with Special Reference to Television Sound Detectors, Some High Frequency Effects in, by D. D. Jones and B. C. Brodribb (Letters to the Editor)	33 177
Glare Meter, A Simple, by V. J. Jehu	359
Glow-Discharge Voltage-Regulator Tubes, Impedance-Frequency Variations of, by F. A. Benson and G. Mayo	206

## H

H.F. Airborne Communication Equipment, by G. L. Warner	253
H.F. Communication Systems, A Review of Current Practice, by A. W. Cole	232
H.F. Receivers, New Developments in, by F. W. J. Sainsbury	241
High Power Aerial Switching, by C. Gillam	274
High Power Communication Transmitter, A, by W. J. Morcom (Errata)	237 321

## M

Magnetic Amplifiers and Some New Developments, High Speed, by A. E. Maine (Letters to the Editor)	180 323
Magnetic Amplifier, An Even-Harmonic, by P. D. Atkinson and A. V. Hemingway	482
Magnetic Amplifiers, Three-Phase High-Speed, by A. E. Maine	514
Magnetic Delay Units, Measuring the Accuracy of, by G. Jamieson	203

	Page
Measurement of the Relative Slip Between Two Rollers, A Relay Operated Unit for the, by G. J. Parish	112
Measurements, Slotted Line Impedance, by E. G. Hamer	163
Meetings this Month	44, 88, 134, 178, 413, 463, 512, 560
Microwave Oscillators, Voltage Stabilizers for, by F. A. Benson and G. V. G. Lusher	106
Microwave Measurements, The Transistor as a D.C. Amplifier for Use in, by, C. F. Davidson	548
Miller Time-Base Circuit, A Rapid Flyback, by W. Fraser and M. W. Jeffis	71
Mixed Display of a Periodic Function and its Time Integral, The, by I. G. Baxter	185
Monitor and Trigger, A General-Purpose, by P. Gleghorn	383
<b>N</b>	
Narrow Band Frequency Shift Telegraph System, A, by R. Terlekci	265
Noise Cancelling Telephones, A Junction Transistor Amplifier for	521
Nomogram for Hartree's Threshold Voltage Criterion for Magnetrons, A., by J. D. Harmer	341
Null Transmission Networks, New, by E. M. Reid	444
<b>O</b>	
O.4 Octave Bandpass Filters for Frequencies Between 10 and 200kc/s, A Set of, by H. Pursey	31
Oscillator, A Time Base, by C. H. Banthorpe	168
Oscillator Feedback Networks of Minimum Attenuation, by P. W. Ward	318
Oscillator for Centralized Transmitter Drive Units, A High Stability Variable Frequency	147
Oscilloscope, A Large Magnetically-Deflected, by P. E. K. Donaldson	442
<b>P</b>	
Phase Meter, An Audio Frequency, by F. P. Moss	361
Physical Society Exhibition, The 38th	214
Polytetrafluorethylene (P.T.F.E.), New Uses for	492
Power Amplifiers, The Design of Triodes for U.H.F. Medium-Level, by W. E. Rowlands	522
Pulse Generator, A Fast-Rate Variable, by J. C. Baker	190
Pulse Duration Modulator Circuit, by F. Butler	153
Pulse Generator, A High-Voltage High-Current	63
Pulse-Interval Meter, A, by A. M. Andrew and T. D. M. Roberts—	
Part 1	469
Part 2	543
Publications Received	88, 169, 374, 411, 463, 512, 560
<b>Q</b>	
Q as a Mathematical Parameter, by D. Morris	306
Q Meter Readings, The Correction of, by J. P. Newsome	408
Q-Meter, R.F. Cable Characteristics Measured with a, by Jacob Shekel	540
<b>R</b>	
Radio Frequency E.H.T. Supplies, The Design of High Efficiency, by J. Barron	393
(Letters to the Editor)	505, 553
Radiography, Industrial	481
Radio Teletypewriter Systems, by D. H. C. Scholes	256
R.E.C.M.F. Exhibition Preview	170
Relay Cable, New Television	295
Relay of High Sensitivity, A Simple Stable Capacitance Operated, by W. V. Dromgoole	454
Relay Scale-of-Two Circuits, by R. C. M. Barnes—	
Part 1	432
Part 2	493
<b>S</b>	
Short Irregular Lines, Some Steady-State Characteristics of, by A. Rosen	90
Short New Items	43, 87, 127, 169, 222, 279, 321, 368, 411, 464, 511, 559
1.5 to 30Mc/s at Sea, by D. J. Spooner	250
Some Recent Developments in Electronic Engineering	20

	Page
Square Root-Law Circuit, A, by I. G. Baxter	97
Square Wave Phase Discriminator, A Compensated, by R. Caldecott	401
Surface Movement Indicator at London Airport, New Airfield	435
<b>T</b>	
Tachometer, A High-Speed Precision, by W. R. Bland and B. J. Cooper	2
Television and Sound Signals on Magnetic Tape, Recording	292
Television Camera at Bradford Technical College, A	341
Television in the Isle of Man	30
Television Line Scanning Circuits, Differential Width Control for, by K. G. Beauchamp	476
Television Receivers, The Noise Performance of, by T. S. McLeod	165
Television, Underwater	96
Thermistor Bridge, A Simple Direct Reading, by D. C. Cooper	448
Torquemeter, for Testing Gas Turbine Components, A, by J. F. Field and D. H. Towns—	
Part 1	486
Part 2	529
Transistor Characteristics, The Measurement of, by J. Ewels	313
TRIDAC A Three Dimensional Analogue Computer	550
Triode F.M. Discriminator, A, by I. G. Baxter	146
Two-Step Controller, Maintaining Optimum Cycling Intervals, in a, by W. R. Beakely	99
<b>U</b>	
Ultra Short-Wave Circuits, Reflexing Applied to	75
Ultrasonic Cleaning Plant	385
<b>V</b>	
Valve Circuit, An Improved Reactance	549
v.h.f. Aerial Radiation Pattern Measurements, by E. G. Harmer	427
Valve, Fiftieth Anniversary of the, by W. J. Baker	466
v.h.f. Broadcasting Transmitters for the BBC, New	167
Voltage Stabilizers, A.C., by W. M. Dalton	310
V.O.R. Beacon, Swiss Order	39
<b>W</b>	
Waveguides at 3 000Mc/s, Electrical Breakdown in, by J. W. Sutherland	538
<b>X</b>	
Xenon Thyratrons, Gas Clean-up in	199
<b>AUTHORS</b>	
<b>A</b>	
Ackland, R. G., An A.C. Voltage Stabilizer	143
Andrew, A. M. (with Roberts, T. D. M.), A Pulse-Interval Meter—	
Part 1	469
